

Our readers will learn, with profound regret, more than surprise, that Dr. Daily, the President of the State University, spent most of last week in this city, to much the influence of intoxicating liquors...

LET ME KISS HIM FOR HIS MOTHER.—The editor of the New Orleans Advocate has this incident related to him by one of the Methodist pastors: The preacher was called a few days since to attend the funeral of a young man. Before his sickness he was a stout buoyant, and had been here but a short time...

STATISTICS ABOUT FLEAS.

PROFESSOR BARTOLETTI AND HIS PETS.—PROGRESS OF EDUCATION IN THE RACON. Passing up by 599 Broadway, near Bleeker Street, last evening, your attention was arrested by a transparency, upon which were depicted a number of strange objects, in shape and size not unlike rats...

Professor Bartoletti, the great flea proprietor, presides at this counter, and explains the various fleas exhibited. He first hands to the visitor a small microscope, seen through which, a minute flea becomes as large as a cockroach. The insect is fastened by a silver wire around his neck, like most of his brethren in this exhibition, and spends his unhappily existence in wriggling about.

After satisfying the eye with the microscope, the Professor proceeds to exhibit the fleas of the fleas. He holds a pair of pincers in his hand, with the meretricious of which the insect is as familiar as a horse with the snapping of a whip. There is one flea who runs a windmill, by walking over a little cylinder, and he dares not stop while his master is near him.

Another flea draws a railroad train of two hundred thousand times its own weight; another, of aquatic tendencies, serves as the motor to a steamboat; another propels a wheelbarrow with his head; and at a pleasant rural retreat, we find a number of industrious fleas, ready at the given click to set in motion rotary wings and carousels. The belligerent as well as industrious propensities of the performers are not forgotten, and near the miniature representation of the camp at Staten Island are a couple of these insects, in a pine thicket, (the pines must be at least a quarter of an inch high) engaged in a fierce duel, bravely brandishing with their fore paws silver swords, considerably longer than themselves. Sometimes the honorable pair will become needlessly alarmed, suspend hostilities, and endeavor to take refuge in flight, thus confirming the scriptural assertion, "The wicked flea when no man pursueth;" but they are unable to go far, and at the sound of the warning pincers click they rush with renewed vigor to the direful combat.

At one end of the counter stands the Academy where these gifted creatures receive their education—the very Alma Mater of flea-dom. It may gratify those of our readers who intend to undertake the raising of these delightful insects, to have a syllabus of the mode of instruction pursued by Professor Bartoletti of Flea College.

The first thing the Professor does is to catch his flea, and to imprison it in a small box with two glass windows, through which the little prisoner tries in vain to escape. He is taken out daily to be fed, by being placed upon the Professor's hand, a glass case or tumbler inverted over him to prevent his flight.

We understand, by the way, that one of Bartoletti's fleas is the hero of the following anecdote. "At an exhibition of fleas before one of the German sovereigns, the exhibitor became perturbed, looked livid and thither, searched through his repository, and stopped the performance with an apology that one of his chief performers, his Napoleon and escaped, although he was safe since the acting began. "Where can he be gone?" said the king—"The exhibitor looked uneasy, but spoke not. "Tell me," said his majesty, interpreting his increasing confusion, "what you suspect?" "If I may be so bold as to say, your Majesty, I believe he has taken refuge with the

Princess H.—"Then, said the king, 'search shall be made,' and the princess retired. After a while she appeared with a captive, who was immediately put upon the stage. But oh! horror! the exhibitor exclaimed, 'He is not my Napoleon; he is a wild one!'—N.Y. Post.

DEATH FROM WANT OF SLEEP.—The question how long can a person exist without sleep? is one often asked than answered, and the difficulties of answering the question by experiment would seem to leave it forever unsolved. A communication to a British Society would seem to answer the inquiry in a description of a cruel mode of punishment peculiar to the Chinese. A Chinese merchant had been convicted of murdering his wife, and was sentenced to die by being deprived of sleep. This painful mode of death was carried into execution under the following circumstances:—The condemned was placed in prison under the care of three of the police-guard, who relieved each other every alternate hour, and who prevented the prisoner from falling asleep, night or day. He thus lived for nineteen days without enjoying any sleep. At the commencement of the eighth day his sufferings were so intense that he implored the authorities to grant him the blessed opportunity of being strangled, guillotined, burned to death, drowned, garrotted, shot, quartered, blown up with gunpowder, or put to death in any conceivable way which their humanity or ferocity could invent. This will give a slight idea of the horrors of death from want of sleep.

A "HAIRLESS" TRIBE IN AUSTRALIA.—Mr. Roberts, civil engineer, of Sydney, who had been for several months engaged in surveying the squatting districts of the Barwan, lately fell in with a party of the "hairless savages" whose existence has recently been made known. They comprised a family of six, a man and his wife, and four children, all totally destitute of hair. Their complexion is of a copper color, less dark than that of the North American Indians, and partaking more of the Mexican tint. It is supposed that this family is the produce of an intermixture of the Malays and the north western black tribes of Australia, driven from the interior by continuous and incessant draught, or that they are the remnant of some extinct race.

COLDS, COUGHS, ASTHMA, CATARRH, INFLUENZA, BRONCHITIS, HOARSENESS, SORE THROAT, WHOOPING COUGH, INCIDENT CONSUMPTION, BROWN'S BRONCHIAL TROCHES.

Entered according to Act of Congress, in the year 1857, by JOHN I. BROWN & SONS, Chemists, Boston, in the Clerk's Office of the District Court of the Dist. of Mass.

COUGHS.—The great and sudden changes of our climate, are fruitful sources of Pulmonary and Bronchial affections. Experience having proved that simple remedies often act speedily and certainly when taken in the early stage of disease, recourse should at once be had to "Brown's Bronchial Troches," or Lozenges, let the Cough or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off.

BROWN'S BRONCHIAL TROCHES. Cures Cough, Cold, Hoarseness and Influenza. Cures any Irritation or Soreness of the Throat. Relieves the Hoarse Cough in Consumption. Relieves Bronchitis, Asthma and Catarrh. Clears and gives strength to the voice of Singers. Indispensable to Public Speakers.

[From See Henry Ward Beecher, who has used the Troches five years.]—"I have never changed my mind respecting them from the first, except to think yet better of that which I began in thinking well of. In all my lecturing tours, I put 'Troches' into my carpet bag as regularly as I do lectures or linen. I do not hesitate to say that in so far as I have had an opportunity of comparison, your Troches are pre-eminently the best, and the first of the great Lozenge School."

[From Rev. E. H. Chapin, D. D., New York.]—"I consider your Lozenges an excellent article for their purpose, and recommend their use to Public Speakers."

[From Mr. C. H. Gardner, Principal of the Rutgers' Female Institute, New York.]—"I have been afflicted with Bronchitis during the past winter, and found no relief until I found your Troches."

[For children laboring from Cough, Whooping Cough, or Hoarseness, are particularly adapted, on account of their soothing and demulcent properties. Assisting expectoration, and preventing an accumulation of phlegm. Sold by all Druggists at 25 cents per box.

P. K. CINCINNATI, Ohio, July 4, 1857.

GENTS.—Having used, and witnessed the beneficial effects of Perry Davis' Pain Killer, I take great pleasure in recommending it to the public as the very best family medicine with which I am acquainted. In this establishment are employed 100 persons, and your Pain Killer has been used with the most astonishing results. For four years not a single severe case of cholera, summer complaint, or dysentery, but has yielded like magic to the curative powers of the "Killer," and for cuts, bruises, etc., it is in almost daily use, and with like good effects. JOHN TANNET, Foreman of Wrightsons & Co's Printing Establishment.

Lymans, Savage, & Co., Carter, Kerry, & Co., Lamplough & Campbell, Agents, Montreal.

TERMS: Board and Tuition, \$100 per Annum (payable half-yearly in Advance.) Use of Library during stay, \$2. The Annual Session commences on the 1st September, and ends on the First Thursday of July. July 21st, 1858.

JONAS WHITCOMB'S REMEDY FOR ASTHMA, CATARRH, ROSE COLD, HAY FEVER, &c.

PREPARED from a German recipe, obtained by the late Jonas Whitcomb, in Europe. It is well known to have alleviated this disorder in his case, when all other appliances of medical skill had been abandoned by him in despair.

WARDENHOPE, Vt., May 12, 1857. Mr. BURNETT—I take great pleasure in briefly stating the wonderful effects of "Whitcomb's Remedy for the ASTHMA," on my wife. She had suffered for years more than my pen can describe with the Spasmodic form of that terrible disease. I consulted numerous physicians of the highest celebrity to very little or no purpose.

Wanted, A FIRST-CLASS TEACHER, for the PRESCOTT ROMAN CATHOLIC SEPARATE SCHOOL, to whom a liberal salary will be given, if approved of. Application to be made to the Rev. EDMUND P. ROCHE, personally; or by letter, post-paid. Prescott, 4th December, 1858.

ST. VINCENT'S ASYLUM, Boston, May 26, 1856. Mr. Kennedy—Dear Sir—Permit me to return you my most sincere thanks for presenting to the Asylum your most valuable medicine. I have made use of it for scrofula, sore eyes, and for all the humors so prevalent among children, of that class so neglected before entering the Asylum; and I have the pleasure of informing you, it has been attended by the most happy effects.

ST. ANN ALEXIS SHORB, Superiorea of St. Vincent's Asylum. ANOTHER. Dear Sir—We have much pleasure in informing you of the benefits received by the little orphans in our charge, from your valuable discovery. One in particular suffered for a length of time, with a very sore leg; we were afraid amputation would be necessary. We feel much pleasure in informing you that he is now perfectly well.

"Superior for relieving hoarseness to anything we are acquainted with."—CHRISTIAN HERALD, CINCINNATI. "A most admirably remedy."—BOSTON JOURNAL. "Sure remedy for throat affections."—TRANSCENDENT "Efficacious and pleasant."—TRAVELER. Sold by Druggists throughout the United States.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.

MR. KENNEDY, of Roxbury, has discovered in one of the common pasture weeds a remedy that cures EVERY KIND OF HUMOR.

From the worst Scrofula down to the common Pimples. Has tried it in over eleven hundred cases, and never failed except in two cases (both chronic humors). He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth. One to three bottles will cure the worst kind of pimples on the face. Two to three bottles will clear the system of boils. Two bottles are warranted to cure the worst cancer in the mouth and stomach. Three to five bottles are warranted to cure the worst case of erysipelas. One to two bottles are warranted to cure all humor in the eyes. Two bottles are warranted to cure running of the ears and blotches among the hair. Four to six bottles are warranted to cure corrupt and running ulcers. One bottle will cure scaly eruption of the skin. Two or three bottles are warranted to cure the most desperate case of rheumatism. Three or four bottles are warranted to cure salt rheum. Five to eight bottles will cure the worst case of scrofula.

Directions for Use.—Adult, one table spoonful per day. Children over eight years, a dessert spoonful; children from five to eight years, ten spoonful. As no direction can be applicable to all constitutions, take enough to operate on the bowels twice a day. Mr. Kennedy gives personal attendance in bad cases of Scrofula.

KENNEDY'S SALT RHEUM OINTMENT, TO BE USED IN CONNECTION WITH THE MEDICAL DISCOVERY. For Inflammation and Humor of the Eyes, this immediate relief; you will apply it on a linen rag when going to bed. For Scaly Head, you will cut the hair off the affected part, apply the Ointment freely, and you will see the improvement in a few days. For Salt Rheum, rub it well in as often as convenient. For Sores on an inflamed surface, you will rub it in to your heart's content; it will give you such real comfort that you cannot help wishing well to the inventor. For Scabs: these commence by a thin, acid fluid oozing through the skin, soon hardening on the surface; in a short time are full of yellow matter; some are on an inflamed surface, some are not; will apply the Ointment freely, but you do not rub it in. For Sore Legs: this is a common disease, more so than is generally supposed; the skin turns purple, covered with scales, itches intolerably, sometimes forming running sores; by applying the Ointment the itching and scales will disappear in a few days, but you must keep on with the Ointment until the skin gets its natural color. This Ointment agrees with every flesh, and gives immediate relief in every skin disease: flesh is heir to. Price, 2s 6d per Box. Manufactured by DONALD KENNEDY, 120 Warren Street, Roxbury Mass. For Sale by every Druggist in the United States and British Provinces. Mr. Kennedy takes great pleasure in presenting the readers of the TRUE WITNESS with the testimony of the Lady Superior of the St. Vincent Asylum, Boston:—

St. VINCENT'S ASYLUM, Boston, May 26, 1856. Mr. Kennedy—Dear Sir—Permit me to return you my most sincere thanks for presenting to the Asylum your most valuable medicine. I have made use of it for scrofula, sore eyes, and for all the humors so prevalent among children, of that class so neglected before entering the Asylum; and I have the pleasure of informing you, it has been attended by the most happy effects. I certainly deem your discovery a great blessing to all persons afflicted by scrofula and other humors.
