MANUFACTURERS OF

HAY TOOLS.

SPECIALTIES:

Foust Hay Loader; Hamil-
ton Hay Tedder.

ADVANTAGES OF USING THE LOADER.

No fixed number of persons are required to operate the Loader, but it may be handled by
one, two or three, to suit the circumstances. If a man is without help, he can load with the
machine as fast as if he had a man pitching on by hand. If he has a boy to drive, he can load
as fast as if three men were pitching on. If a third person is at hand, two men on a waggon
can (with the machine) load a ton in five minutes. In fact, the speed of the Loader is only
limited by the ability of the men on the waggon to place the hay.
