

## XXXVI.

*From T. C. MENDENHALL, Superintendent of the U. S. Coast and Geodetic Survey, Washington, D. C., formerly Professor of Physics in the Ohio State University, Columbus, Ohio.*

I take pleasure in saying that a familiarity with much of the work of Professor MacGrégor of Dalhousie College has given me a high opinion of his ability as a Physicist. I regard him as clear in his perception of fundamental principles and skilled in experimentation. I have no doubt he would add strength to any Faculty of Instruction with which he might be associated.

T. C. MENDENHALL,

*Supt. U. S. Coast and Geodetic Survey.*

WASHINGTON, D. C.,  
May 7<sup>th</sup>, 1890.
