Tightness in May Delivery of Wheat Had Marked Effect.

CHICAGO, April 14.—Tightness become acute today in the May delivery of wheat. Offerings were so scarce that shorts who wished to cover had to bid prices up with such vigor as to affect the entire market The result was a strong close at 3-8c to 7-8c net edvance. Corn finished the same as last night to ½c and 5-8c higher; oats unchanged to ½c off, and provisions down a shade to 10c.

Nervousness on the part of wheat shorts had an early stimulus, a radical falling off in domestic receipts north-west. Bearish feeling, which at the west. Bearish feeling, which at the custet was prevalent owing to lower cables, and to favorable European crop reports, gave way speedily and the upward tendency thereafter had no serious check. In the oversond condition of the market prices were sensitive to talk about Hessian fly in northwestern Missouri, northwestern Kansas and continuity. Highest Some policy also southern Illinois. Some notice also was taken of reports of the widespread

was taken of reports of the whilespread presence of green bugs in Kansas counties adjoining Oklahoma.

Active purchasing on the part of buil leaders proved successful inally in overcoming the effect of betty liquidating sales of corn from miscellaneous holders. It has said that Argentine dealers were alternating to combine to bring about higher prices. There were also advices of rain in Argenting and for the movement of the crop.

Outs severed a mpany with corn owing to ideal weather and because of liberal shipments from Manapolis to Chicago.

Chicago.

(Provisions sagged late in the day under selling credited to packers. The strength in corn, however, and the tightness of wheat led to some coverby shorts.

London Delegate Declares Dominion Government Will Be Asked to Increase Grant for Technical Schools.

At the closing session of the Ontario Library Association yesterday the convention reaffirmed its resolution of 1906, in which the association put itself on record as believing in the public library as an independent municipal institution. The necessity of reaffirming this resolution for the famous mistake of last year, when, after the library association had adjourned, there was a movement to put the libraries under the control of the school boards. At the last moment, however, the legislation was not put into effect, owing to the storm of protest from the librarians, library boards and teachers.
