## FURS FOR WINTER FAVORS CAPE STYLE

New Designs Prettily Illustrated in Favored Pelts of Season.

### TAILORED SETS CHIC

These Are Small, Severely Cut and Ornamented With Buttons.

Pierrot buttons and flounces of main ornament the tailored fur sets of the season. Quite a distinct change is noted in the styles approved this winter, and not least important in the new innovations is the cape. Few top coats exploit the cape, therefore it has been readily accepted in designs for the fur set. One particularly smart set in blue fox consisted of a huge round cape resembling the empire, but not so snugly fitted about the shoulders, and a small round muff which was almost amusing in contrast.

**For Street Wear.**  
The sets in beaver, gray lamb and fox or mole are prettily made up for tailored street wear. Smart little neckpieces fasten in the effect about the throat, buttoning under the chin or stand high about the neck collar-shaped, and fasten on the left shoulder with a big Pierrot button. Some styles are shown, but even these have stand-up widths of fur to wrap snugly about the throat in the popular "chin-chin" outline.  
Muffs are universally small. They may be round, helen or barrel-shaped and sometimes quite ornamental, but the lines are chic and decided. The round muff may have shirred or pleated flounces at the ends, while slightly larger models have purse combinations and useful roomy pockets hidden by means of a buttoned-down flap of fur which adds a pretty note to the front of the muff.

## VISITORS INTERESTED IN HOSPITAL PATIENTS

Marquis and Marchioness of Aberdeen at Weston Sanitarium and Other Institutions.

Illustrative of the interest taken by Lady Aberdeen in tuberculosis and things pertaining to it, is the fact that her first visit in Toronto was made to the sanitarium at Weston, where the greater part of yesterday morning was spent in visiting the different hospitals. Under the guidance of Mr. and Mrs. Gage, the marquis and marchioness were taken first to the Free Hospital for Consumption, where the party was met by the trustees, the physician-in-charge, Dr. Dobble, and lady superintendent, Miss Dixon.

On the tour of inspection everything seemed to be of interest and interest was taken with several of the patients who were had in passing. The children in the Queen Mary Hospital, which was next visited, were a special attraction, and when the little ones joined in singing "Tipperary," and exhibited specimens of their work in the kindergarten class, Lady Aberdeen was evidently delighted. The manual training and domestic service work was also inspected.

It was noted that the school of the institution is under the board of education, the only instance in the world where an institution of this character is so recognized. The visitors expressed their pleasure as they went thru the various buildings, and Lady Aberdeen, who had her camera, took several snapshots. A promise was made that portraits of the marquis and marchioness would be sent later to the institution as a memento of their visit.

## LIABILITIES DOUBLE ASSETS OF THE ESTATE

Appeal Made Against Assessment on Property Left by Late E. A. DuVernet, K.C.

The assessment by the city of \$9828 against the estate of the late E. A. DuVernet was the subject of an appeal by D. W. Staunton in the court of revision yesterday. The statement was made that the estate has liabilities which are practically double the assets. The assessor claimed that the assessment was on money received by Mr. DuVernet before he died and the estate received dividends for which the city would have to tax. The court confirmed the assessment. The old board of trade building assessment was out by \$20,000. The assessor said there was much waste space in the building. The land rating stands at \$1000 per foot.

## Thomas Chalmers Baritone Soloist of the Boston Opera Co.

Although one of the youngest of the American singers now before the public, Thomas Chalmers has gained recognition and honor in the musical world worthy of one much older. Critics and public alike have showered well-earned praise upon him, and wherever he has appeared he has left behind a host of friends. Perhaps the most notable criticism of Mr. Chalmers has come from Edison, because Edison judges voices scientifically, not by personality.

## What Edison Says of Mr. Chalmers:

"In my experimental work to perfect the new Diamond Disc I have examined over 1,780 records of singers from all parts of the world and find that the voice of Thomas Chalmers is among the 12 most nearly perfect, taking everything into consideration."

## What Chalmers Says of the New Edison Diamond-Disc Phonograph:

The R. S. Williams & Sons Co., Ltd., Toronto, Ontario.  
Dear Sirs: I wish to say that I consider the new Edison Diamond Disc Machine, from a musical point of view, is as far ahead of ordinary talking machines as the ordinary disc machine of to-day is ahead of the old cylinder. For the first time in talking machines, the instrument and voices sound like the original.  
Wishing you every success, I remain,  
Very truly yours,  
(Signed) Thomas Chalmers
