 Plastic, Stiff Mud and Dry Press.
 Engines
 The McEwan Automatic, Plain and
 Marine.
 Boilers
 Stationary and Portable, Clyde,
 Economic, Marine, Burners, etc.
 Link Belting
 Malleable Chain Steel Chain
 for all Saw-Mill Work.

For over 50 years we have been building a reputation for High Class Machinery. Our Mills and Machinery extend, in Canada, from the Pacific to the Atlantic—Newfoundland, Central and South America, New Zealand, Australia, Austria, Roumania and the far east. Our aim is ever to produce the Best, not the Cheapest, with the invariable result that where we receive an order others follow quickly. Our new works, occupied in 1895, gave us the much needed room for expansion, coupled with the most modern facilities for economic production and prompt shipments. This year we have found it necessary to increase our buildings and add very materially to our already large equipment of tools and employees.
