What we can raise and what we can do with it in the

American Northwest Minnesota, North Dakota, Montana, Idaho, and Washington.

From our wheat we can make flour, the best in the world, and the flour will make bread, crackers, macaroni, etc.

From our oats we can make the best kind of oatmeal.

From our barley we can make splendid pearl barley and beer.

From our corn we can make starch, hominy and meal.

From our beets we can make sugar and syrup.

From potatoes we can make starch.

From our flax fiber we can make linen, bagging and binding twine, and from the reed make oil and cake.

From our hemp we can make cordage.

From our cows we can make butter and cheese, and beef and hides, and the hides can be made into boots and shoes.

From our sheep we can get wool and mutton, and the wool can be spun, woven and made into clothing.

From our hens we can gather eggs, from our geese we get feathers, and our turkeys make fine roasts.

From our fields we can get peas, and various root crops to fatten hogs to make hams, bacon and lard.

From our gardens we can gather celery, asparagus and many kinds of salad and edible roots and food plants.

It is wonderful what we can raise and the uses to which the products of fields, gardens and pastures can be put.

Our soil is rich deep black, which could be divided up to fertilize Quebec, Ontario and New England and yet have enough left in the spring to give productive life to the red and blue clays of the South.

From our forests we get the finest building material.

From our mines we get gold, silver, copper, iron, coal, etc.

From our quarries we get granite, marble, and many kinds of stone.
