

## CARNEGIE BELIEVES STATE SHOULD PROFIT FROM RICH

Declares That at Death Major Portion of Large Estates Should Be Confiscated.

New York, Dec. 13.—Andrew Carnegie, in an address before the National Civic Federation, to-day said he believed that the major portion of the estates of enormously wealthy men should go to the state upon the death of the possessor of the fortune.

Mr. Carnegie opposed a graduated income tax.

"COLOR LINE" WAS ILLEGAL.

Granite Roller Rink Management Had No Right to Bar Negro.

Judge Morison yesterday decided that the "color line" cannot be always drawn in Canada without incurring liability for damages. Recently the proprietor of the Granite roller skating rink refused admission to a son of A. P. Taylor of Francis-street, after having been sold a ticket.

"It is an unbreakable rule that colored people cannot skate in our rink," said the manager in court yesterday. "I am an Anglo-Saxon, and I have lived in this city thirty years," said Mrs. Taylor. "I have nine children, seven of whom are sons. Two of my sons have graduated from Canadian universities, and one of them is practicing medicine in the far west at the present time. Never before have I been subjected to such indignities. I consider it a libel on my character."

Mrs. Taylor said that when her son returned home and told of the circumstances, she immediately took him back and bought a ticket herself. They went in, but the usher ejected them as he did the son.

"The rink people have a perfect right to refuse to sell a ticket to anybody—colored or otherwise—if they so desire," said the judge. "But once a ticket has been sold to any person they are bound to admit them."

"In this country nobody has a right to subject anybody to indignities because of his color. Be a man or woman colored, Chinese or of any race, he or she is entitled to respect and protection. Once these people were sold tickets and allowed into the premises, they were entitled to stay there and have the privileges their ticket calls for. There is no reason that they should have been subjected to outrage."

Judge Morison said they were entitled to damages, and will look up the law as to the amount.

COMMISSION WILL GO.

Evidence in McGill Case to Be Taken in New York.

Judge Winchester yesterday granted the commission to New York to procure evidence to strengthen the crown's case in the charge against Chas. McGill of theft of \$1,000,000, the last one preferred.

George Angus will be the commissioner, and Mr. McKay will represent McGill, and Edward Bayley the crown. They will leave Dec. 18.

A "rumor" that a compromise might be effected between the former directors of the Ontario Bank and the shareholders as to compensation for the losses incurred by the winding up, is far from confirmed by H. C. Hammond and Frank Arnold, K.C. Mr. Hammond declared there was nothing in it, and Mr. Arnold, who is counsel for all but one of the old directors, said:

"There is no shadow of foundation for the report that the former directors of the Ontario Bank will effect any compromise with the shareholders. They have nothing to compromise. It has never been considered for a moment, and will not be."
