Untrimmed Millinery

The many thousands of women whose methods of choosing their fall and winter millinery run to personal selection of shape and materials, and either personal trimming or trimming done by our own milliners along lines chosen by themselves, are invited to visit the section of untrimmed hats and floss.
Our Purchases cover examples of practically everything produced for the season's wear. Silk and satin, felt and fur, pressed dress shapes and fine soft felt; large and small, wide sweeping brims or narrow and straight.
The Variety is so broad and the prices so favorable that it is no uncommon occurrence for milliners to find profitable buying here. These three lines worth particular notice:
English Floss, of fine satin finished felt, 5-inch brims, dome crowns, or high, square edged crowns, in black, brown, navy, tan, grey, champagne, moss, empire green, castor, new blues, etc. Each55
New English Floss, satin finished, felt of fine quality, 5-inch plain or fancy brims, many styles of crowns, full range of colors. Each75
Untrimmed Shapes, Best English and American shapes, including small, medium and large hats. The newest broad dress shapes, and the small new turbans, all colors. Each1.25

The Best in Footwear

To meet the "Purse" and "Worth" notions of every man and woman: 1.50, 2.00, 2.50, 3.00, 3.50, 4.00, 4.50 pair.
The list of all boots given below are sold exclusively by Eaton's—all made especially for us, excepting the American Armstrongs. They're all alike in this respect—they're dependable. For the rest, the price differences are in the various grades of leathers and materials, extra work, time and added cost that go to make the higher priced lines the luxury of comfort, fit and appearance without price extravagance.

FALL OVERCOATS For Wet or Cold Days

It has never been our pleasure to offer the men such an all-round real good, nor so large a selection of
Overcoats and Raincoats

And each garment, no matter which way you look at it, or how carefully you examine it, shows that carefulness of construction and work-thoroughness in every detail for which Eaton tailors are becoming famous.

THE MATERIAL is the kind that will appeal to you from the first glance, and the idea you will have that quality is right all through will be strengthened when you give the coats a more minute scrutiny.

THE STYLES are those that all conservative, sane dressers in the world's fashion centres are showing their preference for.

THE WEAR will prove the satisfaction we promise you and THE VALUE will show that we share all possible savings with you.
