Wheat—The market opened steady to fractionally higher. The market is a trading one, pure and simple, very nervous and subject to very quick price changes, and without a pronounced trend in either and without a pronounced trend in either direction.

Corn—Opening trade was chiefly at last night's closing prices, and these prices were not reached again during the session. The market was distinctly heavy and any rally which took place was based on the strength in wheat and was short-lived.

Oats—There is quite a pronounced bearish feeling among certain of the larger local trades, based chiefly on the supposedly large reserves.

Trade was slow for fat cattle in all departments.

One prominent commission salesman stated that the market was at a stand-still, unless it was for something choice. Sheep and lambs were easy, with slow domand.

The hog market was unchanged from Tuesday's quotations.

Your Directors have pleasure in reporting that since the affairs of the Bank were last placed before you at the Annual Meeting of the Shareholders in January, 1909, there has been a steady development in all departments of its business, as is evidenced by the statement submitted.

During a considerable period of the year some difficulty was experienced in fully employing the Bank's funds at remunerative rates, but as a result of improving trade conditions and the harvesting of an excellent crop, the demand for legitimate banking accommodation has increased, and there is every reason to expect a prosperous current year.

Following the policy of conservative extension, new branches have been established in important western centres, and at other points in Canada where it appeared advantageous to do so.

Offices were opened during the year as follows: At Victoria, B.C.; in Saskatchewan, at Guernsey, Hanley, Melville, Moose Jaw and Saskatoon; in Alberta, at Claresholm and High River; at the corner of Guy and St. Catherine Streets, Montreal; in Ontario, at Malton, Rectory Street, London; and in Toronto at Deer Park. The new office buildings in Windsor and Fort William were completed and occupied in 1909:

The authorized capital stock of the Bank at this time is \$5,000,000, of which \$4,000,000 has been issued and fully paid up. A bylaw will be submitted for your approval providing for a further increase of \$5,000,000, which, together with the \$1,000,000 already authorized, but not issued, will be offered to Shareholders from time to time in such amounts as the expansion of business war-

You will also be asked to approve of a bylaw changing the par value of shares from \$50 to \$100 each.

The Directors, as is customary, have verified the Cash Assets, Securities and various investments entered on the accompanying statement.

In addition, the General Balance Sheet of the Bank, as on the 31st December, 1909, detailed herein, has been checked and found to be correct, including the auditing of all Foreign Accounts.

Every branch of the Bank has undergone the usual thorough inspection during the year.
