

Handy PACKAGE Dyes

DR. C. D. POTTER, of Adams Centre, N. Y., the originator of **Handy Package Dyes**, gave up the practice of medicine for the chemical study of Dyes. His time, talents and money were devoted to experimenting on the different aniline colors, their relation to each other, and the results of combining two or more colors. His years of patient, persevering devotion to the work he loved, has had its reward in the discovery of the combination of anilines and other articles to make what is known as the **Handy Package Dyes**.

These dyes have never been equaled for brilliancy of colors, reliability of shades, and are warranted to color more goods, and to give better satisfaction than any Dye in the market. Compare them; try them; and be satisfied of this fact.

THESE DYES are manufactured from the best and purest materials, so that you are certain to get good colors every time if your goods are free from grease, and the directions followed.

Old silks, faded ribbons, etc., can be made to look like new by using the **Handy Package Dyes**.

They are just what you want for coloring carpet rags, old dresses, stockings, etc.

Beautiful ornaments can be made out of grass, wheat, oats, and other grain, after coloring them with the **Handy Package Dyes**.

The persons with ingenious minds and decorative taste can find hundreds of ways to beautify their homes by using the **Handy Package Dyes**.

REMARKS ON COLORS—Pure and bright colors can be had only on white goods. Colored goods, especially silk and cotton, can often be made nearly white by boiling in strong soap-suds and rinsing, repeating the process as long as the color comes into the water.

If the Dyes are used on goods already colored, the color obtained will be a combination of the old and new colors.

A Red color, dyed on Green, Slate, or Drab, will make a Brown; on Yellow, an Orange; on Blue, a Purple; on Violet, a Wine.

Green will color nicely over Gray, Drab, Slate, Bismarck and Blue, making Dark Greens or Olive.

Blue over Green will make a Peacock color; over Red a Violet or Purple; over Yellow a Green; over Browns, Dark Bluish Shades.

Browns will color over all colors except Black, making on Green a Bronze, on Red a Garnet, on Purple or Violet a Wine or Maroon.

Purple and Violet will color over Red, Blue and Brown, making Wine, Plum, etc.

All the dark colors will color over lighter colors, making various shades of the darker colors used.

MRS. TODD, North Ridge, writes:—"Be sure and send the **Handy Package Dyes**, as they are the best Dye, and we don't want any other."

SURE OF A GOOD COLOR—MR. A. B. DEAN, Hopewell, N. S., writes:—"I find **Handy Package Dyes** ahead of any Dye I have ever sold. I am always safe in recommending them and I find when once used they are called for again. My customers tell me they are always sure of getting a good color, and I find the demand for them is increasing."

HEARING RESTORED.

MR. M. DESCOTEAU, Hatzic Prairie, B.C., writes:—"I have to thank you for that wonderful compound **Dr. Thomas' Eclectic Oil**. I was growing quite deaf when I was advised to try the **Oil**. At first it did not relieve me, but I persevered and finally my hearing was restored. I assure you I am glad I tried it and I feel very grateful, and to me it was worth "more than four times its weight in gold."

DEAFNESS—MR. S. E. CRANDELL, Port Perry, writes:—"I contracted a severe cold last winter, which resulted in my becoming totally deaf in one ear and partially so in the other; after trying various remedies and consulting several doctors without obtaining any relief, I was advised to try **Dr. Thomas' Eclectic Oil**. I warmed the **Oil** and poured a little of it into the ear, and before one-half the bottle was used my hearing was completely restored. I have heard of other cases of deafness being cured by the use of this medicine."
