Evidence of Unprecedented Development in Ontario's

New Gold Camp-Sur-

vey for Town on Vane Syndicate.

An engineer who came out from Porcupine on Wednesday met no less than nine boilers on the way from Kelso Mines, where they had been taken off the cars. Two were for the Bewick-Moreing Co., one for Armstrong-McGlbbon, two for the power station at Sandy Falls, one for the pumping station for the new townsite of Porcupine, three for the East Dome-The lot and street survey for the The lot and street survey for the new town on the Vane syndicate, on which Porcupine station is to be built, is now completed, and the maps will be put out in a few days. The streets, as laid out, are 66 feet wide; the side-walks are to be laid down; a water walks are to be laid down; a water supply is to be put in, drawn from a spring which feeds Bobs Lake, where there will be a well 42 feet deep. This spring runs 400 gallons a minute and will give a copious supply for the new city. Sanitary conditions will be of the best, so as to ensure cleanliness and drainage. The topography of the new settlement shows an elavation of about 40 feet above Porcupine Lake and 10 ftet above Bobs Lake.

The main streets in the new Vane plot are in line with the streets in Porcupine City and will have the same names. The main highway of the new town will be called Queen-street, a town will be called Queen-street, a continuation of one of the same name in Golden City. A site has been set aside for a new postoffice. Sites will also be provided for school, church and city hall. Full provision will be made for fire protection by the laying down of hydrants at the corners of all the principal streets. the principal streets.

Arrangements are being completed for the erection of a first-class hotel, to be built facing the railway station.

In regard to the railway, the steel is down for six miles from Kelso to Frederickhouse River. The crossing of the river will soon be realized, as work is now in progress on the piles for the bridge. A great deal of grading bertoneits we she has not lost the sense. to be built facing the railway station. bridge. A great deal of grading beyond Frederickhouse River, in the direction of Porcupine Lake, is going on.

With the exception of this one de-The engineers hope to have the road running at the end of May. As soon as best of health. the ice breaks, the launches on the Frederickhouse River, the Porcupine River and Porcupine Lake will be available in connection with the railway for the quick transportation of passengers and freight until the road is completed.

best of health.

For a number of years she has been in the Home for Incurables, but, it is said, that on account of a violent temper the authorities of that institution had to turn her over to the hospital.

Doctors describe it a case of "hysteria anasthesia," due to a dislocation to a dislocation to the control of the control o

A large amount of building is in progress. The Murphy House is now completed in Golden City, an up-to-date hotel with 60 rooms, three stor-eys high and with first-class accomdation in every respect.

The government have put up an hospital at the corner of Queen-street, opposite the station site. Several othe buildings are in course of construction, including a telephone office and an office for the Northern Ontario Trust Co. This latter will be finished in about four weeks, and is one of the most prominent buildings which has been attempted in Porcupine so far.

Great activity is exhibited at the different mining properties, and the working gangs will be increased daily as more accommodation for the men can be provided and more provisions got into the camps. Machinery is coming in from all-di-rections and is rapidly being installed.

SUCCESSFUL ORATORS

Winners in Contest of McGill Literary and Debating Society.

MONTREAL, March 11 .- E. H. Grey antee or otherwise any industry or enterprise using or agreeing to use gas, and specific the specific pared and ably presented address on "Independence in Politics." The silver medal for second place was captured by John MacNaught. won the annual public speaking conrindependence in Politics." The silver medal for second place was captured by John MacNaughton, a law student, who delivered a speech against the Taft-Fielding resiprocity agreement. Mr. Guerin-Lajole, a French-Canadian student, who spoke in English on the subject of woman suffrage, was awarded third place.

ISSUES NEW PUBLICATION.

OTTAWA, March 11 .- A new publication, of the Dominion department of agriculture is a monthly bulletin called The Publications of the Interna-tional Agricultural Institute. It undertakes to re-publish or summarize the most important articles which apthe most important articles which appear in the three monthly publications of the institute, viz., the bulletin of agriculture statistics, the bulletin of agriculture statistics, the bulletin of the break.

Contractor Leslie sent a gang of men break. the bureau of economics and social in-telligence (agricultural, organization, co-operation, etc.), and the bulletin of agricultural inelligence and plant dis-eas.s.

Contractor Leslie sent a gang of men to Kingston on Saturday to load the pontoons on flat cars and they will be brought here and put into service as soon as possible.

Reciprocity Campaign of the Week

Sir Wilfrid Laurier in a two-hour speech in the house of commons, defends the reciprocity agreement.

Sir William Van Horne writes a long letter to the Anti-Reciprocity League, strongly condemning reciprocity. He says we have bartered our independence for a few wormy plums, and we are making a bed to lie in and to die in.

WEDNESDAY—
Lioyd Harris, Liberal M. P. for Brantford, denounces his leader in the house of commons charging him with breach of faith in that he had said that there would be no tariff changes until the various interests involved were consulted.

defer the consideration of the agreement until the action of the United States Congress was known. Hon. Olifford Sifton and Mr. Lloyd Harris voted with the opposition.

Monster mass meeting in Massey Hall, called by Liberals and addressed by five Liberals and one Conservative, showed an overwhelming sentiment against reciprocity. Mr. Blackstock scored heavily against Sir Wilfrid Laurier and dubbed the proposals "The Great Betrayal." No greater outburst of British feeling has ever been heard in Toronto. Sir Mortimer Clark, former lieutenant-governor, presided, and the platform was filled with prominent citizens, many of them leading Liberals, and two directors of The Globe being among the number.

Sir James Whitney, In proposing his anti-reciprocity resolutions in the legislature, said the aim of President Taft was to include Canada in the American Union. Why should Taft, he asked, say that Canada was at the parting of the ways when we are at the zenith of

intestinal Disorders.

"They have not been reported at the city hall," he told The Sunday World on Saturday. "About two weeks ago we heard there were several cases of intestinal troubles, probably due to the colon bacillus, and these cases we investigated. The conclusion arrived at was that the disease was due to the use of the water from the West Toronto pumping station at the Humber. This water is not chlorinated, so I immediately ordered that the city water be turned into the junction mains. "There is no chance of any typhold epidemic resulting from the water when it is chlorinated as it is at present, and we have not received any com-

BEDCLOTHES BLAZED UP

And Flames Killed Old Crippled Arn-

ARNPRIOR, Ont. March 11 .- William Murphy, residing near Arnprior, was fatally burned last night. The deceased, who was a cripple, was smoking in bed, and after lighting his pipe, Gets Big Contract

In a line bed, and after lighting his pipe, he accidentally let the lighted match fall. The bedclothes quickly caught fire and in a twinkling the unfortunate man was enveloped in flames. His frantic shouts brought his family, but he was so badly burned that he died an hour or two later. The deceased was 71 years of age. The fire was extinguished before much damage was done to the house.
