#### FOOD PRODUCTION

A telegram was received by the board of trade yesterday, inviting it to co-operate with the premier and the minister of agriculture to increase the cultivation of food products in the section during the coming season. A conference between the government officials, and those who have been asked to co-operate, will be held at Fredericton Friday. Delegates will be sent from the local board of trade, which is also urging the co-operation of other bodies throughout the province.

Rev. David Hutchinson, D.D., and Dr. Clark of West St. John, returned yesterday from Toronto where they had been in attendance at the semi-annual session of the Canadian Baptist Foreign Mission Board.

William McIntosh, curator, gave an interesting lecture last evening in the Natural History Museum on Weapons of the Primitive People.

## Schoolgirl's Nerves

"Oh, to be free from school life and school worries during the sunny spring days," is the wish of thousands of schoolgirls, to whom nothing could be of more benefit than outdoor exercise and an opportunity to drink in the fresh air and sunshine.

Just at the springtime, when the human system is sure to be more or less debilitated, and often at the most critical time in a girl's life, there comes also the anxiety, eye-strain and mental over-exertion consequent on the approach of examinations.

To many this extra demand on the system proves the last straw, and the results are made known by headaches, sleeplessness, irritability, loss of appetite, tired, worn-out feelings and inability to concentrate the mind on the work at hand, whether it be mental or physical.

To some there will come St. Vitus' dance, nervous prostration, or some derangement of the vital organs, which may linger to make a life of suffering and unhappiness.

The only means of averting trouble is by the use of external assistance in order to increase the supply of pure, rich blood, and for

##### BEST OF ALL ASSETS.

It is Character That Wins The Great Battles in Life.

"God Almighty hates a quitter!" said Tom Reed of Maine. The nation roared applause from the Atlantic to the Pacific and from the lakes to the Gulf for the virile vigor of this rough expression of mind. The sentiment is one of genuineness.

But what makes the man who does not know when he is defeated and fights to the finish, the finisher of his opponent? Is it not character; and is not character at bottom only the moral equivalent of the staid backbones?

The quitter fails and falls because he lacks the force of character, the strength of will, which sees possibilities beyond capacities and regards obstacles as incentives. The fight which is worth attempting at all is the fight which deserves to be fought through. "It's dogged as does it," as when Heron said to Sawyer: "Now, Tummy lad, 'tis thou or I!" and won the last round and the match.

There was character. It may not have been ideal character. It certainly was not character in its highest expression. But it was the sum of the man's whole personality. All the power of him, all the pith and punch of invincible determination, went into the winning of his fight. The bulldog shows the same strength of will when he lets himself be choked or cut to pieces rather than let go his grip on the other dog's jugular.

It is this readiness to be killed, if need be, if one can not beat one's adversary, which wins the battles of life for men and the wars of nations for their existence. Such a readiness is a form of character and the product, whether aware or unaware, of a fight to achieve character. It is the reaction of the spirit to the long working of life and circumstances upon the raw and plastic ore of human nature.

Make men, then, and do so honorably. Get understanding—for the sake of social service as well as your own health. Win power over men through right methods of approach and appeal. But with all your getting and gains achieve character above all.

Nothing can take the place of character. It knows of no substitute. Cleverness, cunning, and shrewdness are paper money. Character is the gold which alone has the value. Pierpont Morgan rated character above collateral as security for loans and credit. Character is the all assets.—Spokane Spokesman Review.

#### Nuxated Iron Makes Strong, Vigorous, Iron Men and Beautiful Healthy Rosy Cheeked Women

Dr. Howard James, formerly Resident Physician of a New York City Hospital and Assistant Physician of the Manhattan State Hospital of New York, says:

"Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. A patient of mine remarked to me (after having been on a six weeks' course of Nuxated Iron), 'Say, Doctor, that there stuff is like magic!'

"If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of nuxated iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. From my own experience with Nuxated Iron, I feel it is such a valuable remedy that it should be kept in every hospital and prescribed by every physician in this country."

Nuxated Iron, recommended above by Dr. James, is for sale by Wasson's Drug Store, and all good druggists on an absolute guarantee of success and satisfaction. From my own experience with Nuxated Iron, I feel it is such a valuable remedy that it should be kept in every hospital and prescribed by every physician in this country."
