A Good Place To Buy Good Clothes

Cool, Comfortable Suits

Not every suit that looks cool is cool. Lots of us have learned that to our discomfort. But you may take your choice from among our "Summer Favorites" with the assurance that appearances will not deceive you. The fabrics are loosely woven to permit passage of the air. The coats are half-lined. The suits are cut generously—though well-fitting. Everything is done to insure comfort, while style and elegance are not neglected.

Moir's Chocolates

Are an added charm to the pleasure of attending the opera. Their delightful deliciousness keeps one in rare good humor, so that the clever dialogue and catchy songs are heartily appreciated and the parts that drag, if any, are readily overlooked.

When you buy Moir's Chocolates, note the fine smoothness of the pure rich chocolate coating and the delicate flavor of the widely varied centers. Taste them once and you'll always prefer Moir's.

FRAUDS ALLEGED; EMPLOYE AT OTTAWA SOUGHT BY POLICE

Ottawa, June 24.—In connection with the investigation into recently discovered irregularities in the government printing bureau, F. H. Gouldthorpe who for twenty years has been superintendent of stationery in the bureau, is missing, and is thought to be in the United States. The Dominion police are now looking for Gouldthorpe, who if located he would doubtless be brought back to Canada to face the serious charge of fraud.

Subsequent to the inquiry into the affairs of the marine department the criminal code was so amended as to make the taking of a commission or a bribe in connection with the purchase of government supplies an offence punishable by imprisonment.

The closest reticence is being maintained as to the other employees of the bureau dismissed and suspended, as Mr. Murphy objects to giving out names until he has made his report to the governor-general-in-council.

HINTS FOR THE HOUSEKEEPER

TO WASH RUGS.
Tuck the rug on a bit of bare floor, the back porch being as good a place as any. Scrub thoroughly with warm ammonia, soda and rinse with many clean waters until the soap is removed. Allow the rug to dry on the floor without removing the back, then take it up and it will not shrink, roll or pull out of shape.

A preparation for washing carpets and rugs is made of four ounces of any good soap dissolved in four ounces of boiling water; when cold, add five ounces of ammonia, two and one-half ounces of alcohol, two and one-half ounces of glycerine, and two and one-half ounces of chloroform. Bottle this and cork tightly.

To clean a carpet add a teaspoonful of the preparation to a pail of tepid water. The same preparation is also useful for cleaning men's clothing.

The Evening Chit-Chat

By RUTH CAMERON

LEARN to tell your little troubles and frettings to your pillow, dearie. That is the advice that a dear old aunt of mine who died recently has given me ever since I was big enough to know what trouble meant. And I think it is mighty good advice.

I mean for little troubles, of course. There are many griefs so big that it isn't safe to try to bear them all alone. In a very beautiful story of a girl who was fighting a great sorrow, the author makes the family doctor say: "You must watch that little girl. Sorrow in the tongue will talk itself cured if you give it a chance; but sorrow in the eyes has a wicked, wicked way now and then of leaking into the brain."

But, of course, that means great sorrow; not just little everyday trouble. I know a woman who for years and years used her husband as a sort of exhaust valve for her irritation at all the petty annoyances that came to her during the day. The moment he entered his home she began to pour her troubles, one after another, into his ears. And now that woman considers herself very hardy treated by fate and her husband when she finds that he has begun to enjoy rather too much the society of his charming and entertaining young stenographer, who doubtless never lets him know she has a trouble in the world.

What right has that woman to feel aggrieved? She is quarrelling with fate and result. Of course, love isn't good for much unless it is ready to halve the sorrows as well as double the joys of life, but that means repeated. And not only does this habit of using your family and friends as an annoyance exhaust valve drive love and friendship away from you, but it weakens you.

Petty annoyances must come to all of us. The happy man is not he who has the fewest, but he who can be the least affected by them. Learn to forget as much as you can the little annoyances of the day the minute they are past, and to carry those that you can't forget to your pillow and bury them there, rather than in your friends' ears, and you will be both stronger and more popular.

As a wise philosopher puts it: "Learn to consume your own smoke." "The atmosphere is darkened by the murmurings and whimpers of men and women over non-existent troubles; the smiles that are inevitably incident to the hurly-burly of the day's routine. Things cannot always go your way. Learn to accept in silence the minor aggravations, cultivate the gift of taciturnity (about them), and consume your own smoke with an extra draught of hard work, so that those about you may not be annoyed with the dust and set of your complaints."

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color

The finest counter of a female face, the sweetest smile of a female mouth, loses something if the hair is covered with scurf, dandruff, and falling hair, it is now known to be caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The parasite is called the germ, and it is called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

LOVE'S ETERNITY
Between the stars the light waves on and on
Roll from the scenes of earth's past history
Up to the margins of eternity.
No day is lost of all that ever shone,
Each with its story into space hath gone.
So that, tonight, some distant world may see,
Looking at earth the Cross of Calvary.
Or the green plain and camps at Marathon.

Dear heart, whose life is woven into mine,
Who art the light and music of my days,
We move towards death, yet let us have no fear;
If nothing dies, not even light's faintest rays.
Sure that vast love which links my soul with thine
Marks for eternity our union here.
(Frederick George Scott in Boston Transcript.)

OTHERS IMITATE BUT NONE EQUAL

Since the world was new there have been imitators. Great men and remarkable achievements are all imitated to a greater or less extent. An attempt at imitation is always a compliment—a tribute to the greatness of the man or the worthiness of the thing imitated.

That's Bully!

Herpicide Is a Scientific Achievement

The Original Remedy to Kill the Dandruff Germ and Up To Date the Only One That Does It

Others have tried to imitate it, but without success. It stands alone, the peer of all hair preparations. Used as directed, Herpicide removes the dead scarf-skin, which is so unsightly and annoying, checks further accumulation by killing the Dandruff Germ, stops falling hair and brings both scalp and hair back to normal health. Unless completely atrophied, the follicles take on new life, manifested by a strong, vigorous growth of hair.

Completely Bald For 8 Years

Pontiac, Illinois.
I was almost completely bald for the last eight years and tried every remedy advertised without benefit. Herpicide immediately removed the itching and feverish irritation. I now have a fine silky growth of hair started which is growing every day. There was no sign of hair before.

G. P. R. AND TRAINMEN

BOTH STAND FIRM

Montreal, June 24.—A critical stage has been reached in the negotiations between the Canadian Pacific trainmen and the company and unless one or the other recedes they may soon come to grips.

Considerable advances in the negotiations were made yesterday which will clear the ground for prompt action, either for peace or open hostilities. A letter was sent by J. W. Leonard, who is handling the situation for the C. P. R., to the union officials, stating that the company had accepted the finding of the board and was prepared to stand by it, although they regard it as excessive.

This was immediately responded to by the union representatives, who sent to Mr. Leonard an ultimatum to the effect that they still demand the standard territorial rate of pay, and will not recede from that position.

No answer has yet been received by the men from Mr. Leonard, but the latter yesterday afternoon gave a statement which amounts to a practical rejection of the men's demand, he declaring that the company had spoken its last word on the matter, and was prepared to stand pat.

Matters have not progressed so far with the Grand Trunk and the men are expecting conferences during the next few days with Vice-President Fitzhugh, but in this case as with the C. P. R., they declare they will strictly adhere to their demand for the standard rate, and will accept nothing less. This will mean a considerable greater average increase for the Grand Trunk than for the C. P. R.

INTERESTING QUARREL
Yes; it is a very pretty quarrel as it stands.
No hard words, I hope.
None whatever. My folks are trying to play the piano late enough every night to make the lawn-mower artists next door overlook themselves next morning.

BORED JUST THE OPPOSITE.
