The presentation was made by John MacDonald. Mr. Killorn, who is a clerk in the customs express department, though taken completely by surprise, thanked the donors in a neat speech. After wishing Mr. Killorn a long and happy wedded life the gathering dispersed with the singing of "For He's a Jolly Good Fellow."

EMPLOYER AND RETURNED MAN

Matter Comes Up at Meeting of Association of Workmen's Compensation Boards.

At this morning's session of the annual meeting of the Canadian Association of Workmen's Compensation Boards, merit rating, method of computing interest, after care of pensioners, construction of a provincial balance sheet, rehabilitation plan of the D. S. C. R., cost of second injuries, industrial poisoning and repairs to pyroelectric teeth were discussed carefully. There were no prepared papers, at each question came up the various members of the board gave their opinions and offered suggestions for improvement of the regulations now in force. The care of pyroelectric teeth was considered carefully and the medical members of the board gave opinions which they formed from cases which they had treated.

At the afternoon meeting E. H. Scammel, of Ottawa, assistant deputy minister of the D. S. C. R., delivered an address on the subject of the returned man. He said that the average employer hesitated to take a slightly disabled man into his factory because he was more likely to be injured and thus cause expense to the concern. The Dominion government, though the D. S. C. R. has set aside a sum for the purpose of paying the injured returned man who is employed. Any man who is a pensioner of 20 per cent or more will be looked after by this fund.

The Workmen's Compensation Board of the province in which the accident occurred will assess the liability but the employer will not be liable.

Mr. Scammel asked the various boards to co-operate with him in explaining this matter to the employers and thus secure employment for the returned man. Several members of the board advanced suggestions for the betterment of the scheme and all promised to do their utmost to help it along.

TRAFFIC CASES

No By-law to Cover One Reported in Police Court Today.

Most of the time in the police court this morning was taken up with by-law reports. A report, governing which apparently there is no city by-law, was made by Policeman Dykeman against Joseph Kelleher, a motorman with the Power Company, for stopping his car between seventy and eighty feet from a white pole. The policeman said that Kelleher had topped his car, Union St., yesterday afternoon in front of the Opera House and some passengers got off. He had made the report and said in view of the by-law dealing with buses which read that they must stop within fifty feet of a white pole.

H. H. McLean, Jr., for the power company said that there was no by-law covering this report and asked for a dismissal but stating that, if brought into effect such a law might prove a good thing. There was no law to compel cars to stop at white poles or within fifty feet of them.

The court held the view also that there was no by-law to deal with this report. He commended the policeman, the wedding to take place at an early date.

A BIT CRITICAL OF OUR MERCHANTS

Trade Commissioner Speaks of Visit in the Interests of Trade Expansion.

Speaking to a Times reporter this morning, Hugh A. Chisholm, Canadian trade commissioner to the Caribbean Sea district, said that he had interviewed exporters and importers of St. John with a view to encouraging trade to the West Indies and the far East. He said that he has met with some success, but as a whole he found the various concerns a little too much conservative; that they looked too much to the Canadian market, and not enough to the world market, which, on account of the cheaper haul, were as close as our own western market.

He said that they complained of the lack of ships, but if the shipping companies were sure of freight they would provide the service. He said that it was noticeable that the merchants of both St. John and Halifax did not pull together as well as those of the upper Canadian cities. He hoped, however, that his visit might do some service in this regard. He paid a strong tribute to the Canadian Government Merchant Marine and said that they were doing excellent work in this direction. Mr. Chisholm left for Montreal this afternoon.
