BEAUTIFYING THE CITY

It was announced yesterday at a meeting of the Arboricultural Society that 200 trees would be ready for planting this spring and that the I. O. R. would assist the society in beautifying the surroundings of the Union Depot. A letter was read from residents of the Marsh road asking that trees be planted there.

Plans were made for the summer as follows: To complete the tree planting in Duke street; to plant on the north side of McKeenburgh and Queen streets between German and Charlotte; also to continue the work in Waterloo street; to plant in King street, Carleton, and in part of Adelaide street, North End; to beautify Market square as outlined some months ago.

Quick and Permanent
Relief from Rheumatism

It is not exposure to cold or wet that is the real cause of rheumatism—it is bad kidneys. So long as the kidneys are doing their work properly, filtering from the blood all the Uric Acid formed there from the waste products of the body, rheumatism cannot exist. It is only when the kidneys fail, and the blood becomes loaded with this Uric Acid, that the slightest exposure stiffens up the joints or muscles and sends a boy

Father Morrissey's No. 7 Tablets

promptly relieve and permanently cure rheumatism by putting the kidneys into perfect shape for their work. Once the strengthened, invigorated kidneys get the Uric Acid cleared out of the blood the rheumatic pains disappear. If they ever show symptoms of returning a few No. 7 Tablets will tone the kidneys up again and keep you free from the dreaded rheumatism.

Father Morrissey's No. 7 Tablets have proved their value in hundreds of cases where other remedies have failed entirely.

Baseball Leagues to be Formed—
A Swimming Campaign

The Young Men's Christian Association will close its gymnasium classes this week with a grand exhibition covering different phases of the work that was taken during the winter season. A list of the work taught in the gymnasium might be of interest to the citizens, and is given by E. J. Robertson, physical instructor, as follows:

Games—Basket ball, bowling, hand ball, volley ball and indoor baseball.

Athletic Events—High and broad jumps, weight lifting and shot putting, fence vaulting, running, relay races of all kinds.

Light Gymnastics—Free work, vends, dumb bells, and Indian clubs.

Heavy Gymnastics—German horse, parallel bars, horizontal bar, high and low, flying rings, overhead ladder, spring board, mats, and Japanese ladders.

Special—Tumbling, wrestling, boxing, swimming, diving, gymnastics, etc.

Contests have been held for each of the six classes covering all these events and much interest has been taken and good development obtained by the men and boys.

Plans for summer work have been outlined. Baseball leagues for working boys and for school boys will be in order as soon as the ground opens up.

A Sunday school athletic league will be organized taking in all the churches in the city, running through the months of May and June two nights a week, with one event each night. Ribbons and points will be awarded to the winners and a trophy will be given to the Sunday school making the largest number of points in the combined contest.

It is planned to run a swimming campaign one day a week for April and May giving the boys of the city an opportunity to learn free of charge. It is hoped to reach every boy in the city between the ages of twelve and twenty.

Gipsy hikes and canoe trips will again be in order this summer, and the boys that had the pleasure of taking the hike to Fredericton last summer, will hold a Gipsy banquet on Saturday night of this week in the association building. The association has been fortunate in securing Wm. McIntosh who will talk on "The Sea, his historical points of interest; places to fish and camp, and how best to enjoy two weeks by canoe on the stretch of water." The public are invited to this talk which will take place at 9 o'clock.

LADY MACDONALD DEAD.

Lady Macdonald, widow of General Sir Hector Macdonald, died in Edinburgh recently. It is eight years since her famous husband shot himself in the head while in Edinburgh in 1882, when Sir Hector was a subaltern in the Gordon Highlanders.

Lady Macdonald was then Miss Christina Duncan, whose father was a teacher, and afterwards a shipowner, of Perth. In June, 1884, Sir Hector, whose regiment was ordered to the south of England, persuaded her to contract a secret marriage according to Scottish law. The day of the romance came just ten years later, when Lady Macdonald was granted a decree of divorce.

The Evening Chit-Chat

By RUTH CAMERON

THE man-whothinks is about to take part of his summer vacation. The other half he will take in late September or October. Say his critics: "But it must be terrible to have to work all through the hot summer."

And this is the explanation of his conduct which the man-whothinks gives—that is, when he cares enough for the critic to bother to give any.

"I used to take my summer vacation regular as clock work, the first two weeks of August up to five years ago. Thought I couldn't get through the summer unless I did, and then things happened so I had to take a week in May and a week in October and I liked it so well."

"In the first place I never feel so much like going on a vacation as I do when the ice is just out of the lakes."

"In the second place, I am never more tired than I am at the end of the winter rush. I don't see how I ever got through the summer without the strength I build up in that."

"And in the third place, think of the joy of escaping the summer crowds. I am sure to get a star room and the best of attention. I always meet a few interesting people but never get into a mob."

"And anyway in my mind the most comfortable place in summer is home. I don't know any time when I appreciate my own tub and shower, my own cool and well screened room and the surety of knowing just what I'm getting to eat any more than in July and August."

It's a mighty bad time to change your diet. How many people are sick if they stay at home and take proper care of themselves? But, just look at the people who go off and overeat and overdo in the hot weather and get upset by it.

"And then if there's anything more thoroughly dirty and uncomfortable than travelling in summer I have yet to find it. I remember one year when I went to Lake Umbagog, because I'd heard what a beautiful and restful spot it was. I had to take a sleeper that left at eleven. It took me until three o'clock to get to sleep on account of the heat and I was called at half past five. I waited three hours at the little junction, where you could get a 45 old dopes of horses ever tottered down. I came so near having a sunstroke that there wasn't any fun in it. It was a restful spot when you got there, all right, but it took me about half the time I was there to get over that journey and the other half getting up courage for the return trip. No, sir, no travelling in summer for mine, not if there's any way of getting out of it."

Sometimes the critics of the man-whothinks are converted so that they allow their intention of trying his plan some time. Always they admit, "There's something in that."

I Give Men This
Vitality of Youth

Vitality is the thing which makes success; it gives men that compelling power which sends them forth eager and equipped to meet and overcome all obstacles; it is the thing which gives the young soldier courage to face death; it is the thing which inspires and holds the sweetheart's love and faith. No matter what your age, I can give you this same vital power. I can restore the vigor you lost, no matter what early or later indiscretions have sapped your strength; I can make you "young" and keep you "young" from an intimate and studious observation of possibly 100,000 men. I say to you that VITALITY means all the difference between a manly man and a weakling; it makes the man who bubbles with vigor, who feels young and keeps you feeling power will exert a pleasing influence young forever.

The trouble with some men who are always willing to help their friends is that they have no time to do things for themselves.

If soup is to be good it must never be allowed to get cold in the saucepan, but must be strained off directly it is sufficiently cooked.
