

WINNIPEG TRADE BOARD STANDS FOR FULL USE OF CANADIAN PORTS

WEST FAVORABLE TO PLEA OF EAST

Premier Bracken and Creer Approve Mission of Maritimes

(Continued from page 1) Two members came to me after the meeting to say that they would hereafter use only Canadian ports for their business.

Two speakers urged that the Winnipeg Board take the initiative for a round table conference of the business men of all the provinces to consider the problems of the different parts of Canada and endeavor to find a remedy.

All Land Mission. The meeting was most enthusiastic. My mission was described by one speaker as of the utmost value to all Canada.

The Maritime Provinces Association entertained me at lunch today and a dozen former St. John or New Brunswick people bade me welcome, and all the members present lauded my mission.

I had interviews with Premier Bracken and Hon. T. A. Creer, and they were most sympathetic. The Premier asking me to call on him again on my return, and Mr. Creer saying he would see me again at Ottawa.

Favor Conference. The West is greatly taken with the suggestion that our different problems should be made the subject of a conference embracing representatives of the whole country, who would be practical men earnestly seeking a solution of the problems of each of the four great sections, the Maritimes, the Central Provinces, the Prairies and British Columbia.

After tonight's meeting many men came forward to express their personal interest and appreciation of the presentation of the case for the Maritimes.

When You Catch Cold Rub on Musterole

Musterole is easy to apply and it gets in its good work right away. Often it prevents a cold from turning into influenza or pneumonia. Just apply Musterole with the fingers. It does all the good work of grandmother's mustard plaster without the blister.

Musterole is a clean white ointment made of oil of mustard and other home remedies. It is recommended by many doctors and nurses. Try Musterole for sore throat, cold on the chest, rheumatism, lumbago, neuralgia, congestion, chills, asthma, neuritis, congestion, pains and aches of the back and joints, sprains, sore muscles, bruises, chilblains, frost-bite—colds of all sorts. Seldom fails to deliver results. 40c. and 75c., at all drugists.

Biggest Thing Yet Attempted For Business

McKenna Finds All Ready to Back National Ports

(Continued from page 1) The Free Press calls for application of the entire British preference on such goods only as are brought through Canadian ports. This is in line with a general feeling here, and there is no doubt but that Frank White, London's M.P. will support that attitude in Parliament.

Tails of Common Interest. Today's proposed meeting at St. Thomas did not take place, as there were local conditions which intervened. However, I visited that important railway centre, which harbors three United States railroads, the Pere Marquette, Wabash and Michigan Central, the latter running to London over municipal electric rails.

THE AWAKENING. The Moncton Times. It is well that there is an awakening in the Maritimes. Certainly in the terms of Confederation and the conditions under which the Transcontinental and Grand Trunk Pacific railways were built have not been carried out. Probably a good deal of the neglect of our interest is due to inactivity and lack of assertiveness on the part of our representatives in Parliament, many of whom seem to regard the obtaining of an appropriation for a wharf here, or a public building there—something that will give them a little patronage or a little prestige in their constituencies—as the limit of their obligations.

The Maritimes must get away from small things. They must take the broad view of all national economic problems. And if their just claims in the larger sense are recognized, as they have not been in all cases, they will have no just cause for complaint if they fail to keep up with other parts of the Dominion in a material sense.

BENEFIT TO ALL. THE work of these gentlemen (Messrs. McKenna and Belding of The Telegraph-Journal and Times-Star) should result in benefit to all parts of Canada and making real the motto, "Canada for Canadians."

Many Make Request To Hear Travelogue. Under the auspices of the Duke of Rothesay chapter of the I. O. O. E., Mrs. E. Atherton Smith will give a special travelogue on "New York to the Himalayas" in aid of the memorial hall fund of the chapter. Mrs. Smith has received from far afield many pressing invitations to deliver her round the world travelogue, but has been obliged to decline all invitations except those at home. She hopes to be able to respond to the many requests of local organizations and to give various travelogues in aid of special causes, and her generosity in this regard is well known as is also her ability to delight, entertain and inform. Some invitations which Mrs. Smith has refused have come from as far away as Portage La Prairie and Stratford, Ont.

LONDON EDITORS EAGER TO HELP

McKenna Finds All Ready to Back National Ports

(Continued from page 1) The success attending this method of presenting our case again moves me to repeat that a good follow-up of this campaign by an official, who will devote his entire time to the work, is the only method which will fix the responsibility for the diversion of the product of this country to foreign cities.

All Want to Help. I have ascertained beyond question that in any community I have visited not one person has expressed any desire other than to get in the game and help us. The whole propaganda, that Canadian shippers are wedded to the United States ports is, so far as I can ascertain, a house of cards built up by interested railway officials. That such a campaign has caused endless and needless ill-feeling in the Maritime Provinces is evident.
