Vessels' Manila Line, 60 ftms long, 4 inches round, very little used. Also Fog Horn and Patent Log. Offered at a bargain. Apply to C. E. Russell, Guardian Office.

Proclamation

By His Excellency Sir WALTER EDWARD DAVINSON, Knight Commander of the Most Distinguished Order of St. Michael and St. George, Governor and Commander-in-Chief in and over the Island of Newfoundland and its Dependencies.

WHEREAS it has been represented to me that a large number of persons in this Colony are desirous of observing a Public Bank Holiday to be observed as a Day of Thanksgiving to Almighty God for the many mercies He has been pleased to bestow upon this Colony during the past year.

I do, therefore, by this my Proclamation, order and direct that MONDAY, the TWENTY FOURTH day of JANUARY instant, be set apart for the purpose aforesaid, to be observed as a Public and Bank Holiday throughout this Colony, of which all persons concerned are hereby required to take due notice and govern themselves accordingly.

Given under my Hand and Seal at the Government House St. John's, this 11th day of January, A. D. 1916.

By His Excellency's Command,
JOHN R. BENNETT,
Colonial Secretary.

Heavy Duty "Imperial" Engines

10, 20 and 30 Horsepower

Beside the Models A, M and B line of "IMPERIAL" MOTOR ENGINES, which are becoming so deservedly popular in this country, the company manufactures a HEAVY DUTY LINE, Model C. These are made to meet the demand for a slow speed engine for tow boats, schooners and large fishing boats.

They are of the well known two cycle three port type, and are the latest word in two cycle engine construction. The cylinders are cast with solid heads, and are separate from the crank case, which is in two parts. Die cast, nickel babbitt bushings are used in connecting rod and main bearings. The pistons have three rings. A large Plunger Pump gives ample water circulation and keeps the cylinders at the proper temperature. Fully equipped. Fully guaranteed.

Made in 10, 20 and 30 horse power, 1, 2 and 3 cylinders. The 10 horse power has a bore and stroke of 5 1/2 x 6 inches, turns a 22-inch 2-blade propeller 450 revolutions per minute, and weighs 490 lbs. If interested get full particulars and price from

C. E. RUSSELL

Agent for the "Imperial,"
Guardian Office, Bay Roberts.

Wake Them Up

The train continues to come down the Shore Line every night, and yet there is no mail delivered to a single town between Brigus Junction and Tilton. We know of parents, mothers especially, who have boys at the front. Some of them subscribe for a St. John's newspaper, but they are so anxious about their boys that three nights during the week they send to the train for a newspaper, at a cost of 24 per copy, because they cannot get a nightly mail.

When will the glory of the Postoffice Department fade? What are our representatives in the Government doing that they don't look after the people's interest.

Come, Messrs. Piccott, Young and Grimes, representatives of Hr. Grace and Port de Grave Districts, wake up the Postoffice Dept. and let them know the train is waiting for you.

You were elected by the people to look after their interests. And do you who the people are looking to get their rights in this matter. Surely they are entitled to a nightly mail as well as Harbor Grace, Carbonear, and other places along the line.

Thanksgiving Day

His Excellency the Governor has issued a Proclamation setting apart, as a Public and Bank Holiday, Monday, Jan. 24th, instant, to be observed as a Day of Thanksgiving to Almighty God for the many mercies He has been pleased to bestow upon this colony during the past year.

The Coal Situation

The St. John's Daily Star in its Tuesday's issue took up the question of the shortage of coal in Conception Bay, basing its remarks on articles published in last week's issues of the Hr. Grace Standard and the Guardian. It urges the Government and Opposition to give the Cutports their attention as well as St. John's. The Mail and Advocate in its Wednesday's issue also refers to the matter, and speaking of the large quantities of coal expected to arrive at St. John's, says "that if Conception Bay remains ice free a load may be sent to the Bay and landed at Harbor Grace and Bay Roberts, or where required most urgently."

The agitation started by the Mail and Advocate is bearing fruit. If you want to get anything in this country there is nothing that will succeed as quickly and as surely as an agitation. The authorities are very often as "stubborn as a mule" or as hard to move as a jaw tooth. Meanwhile, the people are still wanting coal.

From Mrs. Walter Crosbie of Bay Roberts, we have received the following letter.—"Please find enclosed \$30.50, being the proceeds of a pork and cabbage supper at my house. Will you kindly pass it to the Soldiers' Cot Fund? We shall very gladly do so. From other sources we learn that the Supper was held on Jan. 6th, and that the names and fuller particulars will appear in the Bay Roberts Guardian. It is also whispered that another of those enjoyable events will follow next week.—Daily News.

FOUND

I have in my possession since December 4th, 1915, a watch. Owner can have same by proving property and paying expenses. Apply to Isaac Moran, Coley's Pt. East.

Wanted

NEWS IN A LINE

The first Annual Convention of the Conception Bay District Council of the F. P. U. will be held in the F. P. U. Hall here on Tuesday, Jan. 18th, at 4 p.m.

Mr. Piccott, M. H. A., left by the Stepano Wednesday night on a holiday trip to Canada and the United States. The trip will occupy some weeks.

We beg to thank the publishers of the "Colonial Commerce" for a copy of their excellent periodical for December. They announce it is their intention to publish it monthly during the winter, and after that fortnightly.

Mr. P. K. Devine, who succeeded his brother, the late M. A. Devine, as Editor of the Trade Review, is the publisher. The magazine will deal specially with general trade matter, and no better step could be devised in order that the trade of the country may be boosted, than the present venture.

Rev. D. R. Bailey, B. A., is now ministering to the people of the C. of E. Mission of Port de Grave, succeeding Rev. F. Severn.

Mr. Philip Snow returned from Carbonear by Tuesday's train. She was accompanied by Miss Maggie Parsons, who came to visit Mrs. Snow.

One day this week we received no St. John's mail whatever by the noon train. Quite often the Daily News is taken on to Carbonear and returned by the 5 o'clock train. No wonder the people are crying out for better management in our public departments.

Rev. N. M. Gay, M. A., in his addresses on Sunday at the Methodist churches, presented powerful pleas for a recognition of our indebtedness to God for every good and perfect gift. Mr. Gay is a very acceptable and convincing speaker. Bay Roberts would welcome him again.

Notice
THE NEWFOUNDLAND AGRICULTURAL BOARD will be placing its orders for garden and field seeds, fertilizers, etc., early in January. Intending purchasers will therefore please notify the Board of their requirements as early as possible. The seeds imported by the Board will be of the highest quality and will be sold at cost.

NEWFOUNDLAND AGRICULTURAL BOARD.

The Fenian Attitude

The Fenian attitude toward Britain and her allies is presented most obtrusively every week in the Irish World, of New York. A score of articles appear in each issue, cursing England, and glorifying those who hate her. The enlistment of the Irish Nationalist makes the editor furious. It carries him the length of denouncing John Redmond, because the Irish leader has urged his followers to do their bit. The following is a fair sample of the work of this infatuated editor:

"The incomparable leader," John E. Redmond, has promised General French "the competent military authority," 1,100 recruits a week to make up "wastage." Mark this Irishman and Irishwomen. Those 1,100 sons of Ireland are not even to increase the army, they are merely to repair "wastage." Eleven hundred young Irishmen are killed or hopelessly crippled every week. The wastage in the Irish regiments is 100 per cent a year. So that Ireland may expect none to return from the war but the permanently crippled.

A year ago Mr. Redmond was protesting that his object in getting recruits for the English army was that they might obtain military training and become able to defend Ireland against all her enemies. None came back but hopeless cripples, a burden on Ireland and not a defense for her. And her enemies are safeguarded with Mr. Redmond's approval. He knows he is sending his countrymen to die for England, he knows that England is as over the ocean as a tyrant of Ireland, he knows that at the end of the war, his country will be a desolation, and he knows that his countrymen will be a burden on Ireland and not a defense for her.

Getting Fleet Ready

These days a goodly number of men are at work getting the sailing fleet ready, including the shipwright and the blacksmith and the rigger. All the wooden fleet, several of which have been looked upon as obsolete, will be sent to the scrap heap, and the fleet re-equipped, and it is a matter of conjecture if they will not do equally as well as they did in the days before the introduction of the steel fleet. The following steamers are being made ready, but the Captains in several instances have not been chosen—Eagle, Terra Nova, Viking, Ranger, Neptune, Diana, Erik, Bloodhound, Newfoundland.

Died

On Tuesday, Jan. 11th, after a short illness, George Badcock, aged 15 years, youngest son of the late Edward and Frances Badcock. He leaves a sister and brother to mourn their sad loss. Funeral took place to the R. C. Cemetery on Thursday morning at 9.30 o'clock. Rev. Dr. Murphy, of Brigus, officiated at the church and cemetery.

SUNDAY SERVICES

January 16th, 1916.
