and twenty years of age. The carbine with which the crime was committed, a Lee-Enfield .303, and the empty cartridge, were taken possession of by the sergeant, who will turn them over to the provincial police to be submitted at the inquest and preliminary hearing. Gili was kept at the city police station for a few hours before being removed to the provincial jail.

He is a good looking young fellow, well built, and about five feet nine inches in height. He could not have been with the Engineers very long, as eighteen is the coungest at which he could have joined. Clinnick, the murdered man, was about the same age. Like his slayer, he is a native of the Old Country, and there was apparently no cause for animosity on either side. Particulars arent the deceased's birthplace and connections were not ob-tainable to-day, owing to the Work Point A terrible tragedy occurred at Work point barracks early last evening as the sult of which Gunner Clinnick lies of Gill and Mahoney toward each other, if through the heart, and Sap-Gill, a young engineer, is at jal jail charged with murder. was not under the influence of liquor when be affair took place about and came with the sudden-be affair took place about and came with the sudden-be did the shooting, while it is not at pre-sent clear that they had quarrelled direct-be the transfer from a clear sky. > menced Their Series of Addresses on Saturday Evening.

Messrs. A. Elliott and D. C. Anderson, the two expert judges and lecturers sent out by the department of agriculture to officiate at the fall fairs and deliver addresses, commenced their Island series on Saturday night at the Royal Oak. This morning they left for Duncans, where they speak to-night. Nanaimo to-morrow, Comox on Wednesday and Alberni on Saturday. They will return next Monday to Metchosin, where they will conclude their Island series. These are held under the aus-pices of the Farmers' Institutes of the various districts included in their tour. Mr. Anderson will hold forth on farming generally, while Mr. Elliott will make particular reference to dairying, sheep and hogs.

Both these gentlemen were here last spring. They combine the qualifications of lecturers and judges, and their ad-dresses are full of interest and instruc-
