Leading People of Northumberland Turn Out to Receive His Honor.

The Address Presented-My Own Canadian Home by the School Children.

Chatham, Sept. 25 .- His honor Lieutenant Governor Fraser, accompanied by Mrs. Fraser, left Fredericton this morning by the regular Canada Eastern train, and was met at Chatham Junction by Hon. Surveyor General Tweedie, John Shirreff, high sheriff of Northumberland, and F. E. Winslow of Chatham. Proceeding by Intercolonial train from the junction, they arrived at Newcastle station, where a large concourse of citizens awaited them, representing all sec-

tions of the county. The Newcastle Field Battery, stationed near the freight house, fired a salute of fiteen guns as his honor, accompanied by the gentlemen already named and Major Campbell, A. D. C., emerged from the train, the band of the 73rd battaion being present and playing the national anthem between the salvos of the artillery salute.

Hon. Speaker Burchill and Messrs. Robinson and O'Brien, M. P. P.'s, officials of the county and other prominent persons, including His Lordship Bishop Rogers, Senator Snowball and Judge Wilkinson, were present. The lieuteuant governor and Mrs. Fraser, accompanied by the high sheriff and the warden of the county, D.G. Smith, occupied the leading official carriage, and were preceded by that containing J. McKane and R. A. Lawlor, as marshals of the procession, and followed by carriages in which were the Bishop, Senator Snowball, Judge Wilkinson, Hon. Speaker Burchill, Hon. Mr. Tweedie, Messrs. Robinson and O'-Brien, Col. Call, Major Campbell and a large number of other citizens, besides hundreds on foot.

The children of the public schools were grouped in front of the court house, and greeted his honor and Mrs. Fraser by singing My Own Canadian Home, after which little Hazel Hickson and Marjory Davidson presented bouquets to Mrs. Fraser, his honor making a brief and very appropriate acknowledgment, and both he and Mrs. Fraser kissing the chil-

Principal Yorston was then presented, and his honor expressed his thanks. The procession passed through some of the principal streets, and his honor was greeted in many places. He passed along, quite a demonstration being made at Mr. Hickson's mill d and cheered when the lustily, his honor bowing his acknow-

ledgments. Masonic hall being reached, it was found that it was already crowded by a large audience of ladies and gentlemen, representing all classes in the community. The stage was beautifully decorated, and many ladies and gentlemen were present upon it to re-

ceive his honor and party. The music ending, Warden Smith, after a few introductory words, read and presented to his honor an address from the people of the county, which was as follows:

To His Honor the Honorable John James Fraser, Lieut. Governor of the Province of New Brunswick:

New Brunswick:
May it please your honor:
On behalf of the people of the county of

Northumberland, whose pride it is to share in the common heritage of loyalty to the queen and the recognized institutions of their country, we welcome you today on the Miramichi as the lieutenant governor of the province of New Brunswick, and our welcome is made the warmer by your being accompanied by Mrs. Fraser, who so graciously assists you in the discharge of the social duties of your high position.

We honor you in your capacity of lieutenant governor and appreciate the fact that our gracious sovereign called you to the office as a just recognition of your pre-eminent fitness for and experience in the discharge of your important public duties.

Our welcome is nevertheless largely divested of the elements of formalism and conventionality, for it springs from the heartiness and sincerity of feeling which are always inseparable from warm personal interest and regard; that interest and regard which exist because being a native of this county who started life with the equipment for its experiences and opportunities which the good fortune of birth, home training and education in Northumberland gave you. Although making your home and spending your riper years in another important section of the province, you have never failed to keep yourself in touch with the Miramich and its people. We need not assure you that we have watched with satisfaction your successful career at the bar; recognized with admiration your ability as a legislator and your wisdom, prudence and integrity in the executive and as a leader of the government, while we noted with pride your deserved promotion to the supreme court bench, the crowning reward of a life dedicated to the service of the people.

Your observations amongst us will doubt rour observations almongst us will doubless impress you with the fact that we have progressed materially as a county in many respects and kept pace with even more favored localities, nevertheless it is not always possible for us by reason of natural or articles. ored localities, hevertheless it is not always possible for us by reason of natural or artificial disabilities to merit the reputation we are said to enjoy for readiness to extend "Miramichi hospitality" to those whom we desire to honor, and while we feel that the manifestations of our welcome may be inadequate to convey to you and Mrs. Fraser a full sense of its sincerity, we also believe that your knowledge of us and our efforts to place your too short stay with us among the pleasant memories of your official visitations, will convince you that we most highly appreciate the honor your presence contations, will convince you that we most highly appreciate the honor your presence confers upon the people of your native county. We earnestly hope that your visit may be one of pleasure and satisfaction to yourself and Mrs. Fraser; that you may long enjoy the health necessary to the efficient discharge of the duties of your exalted position, and that this may be but one of many occasions when we shall have the privilege of extending to you both a hearty Miramichi extending to you both a hearty Miramichi

His honor made a reply, dealing with all the features of the address, and expressed in a most cordial and effective manner his appreciation of the welcome accorded to Mrs. Fraser

During the delivery of his reply and at his conclusion there were bursts of applause, and three hearty cheers were proposed or the Queen and the governor by the warden, and respond-

everybody thoroughly enjoyed it. A public reception at Newcastle, followed by a yacht race and steamboat and yacht excursion on the river and aquatic display, takes place tomorrow, followed by a reception in honor of the governor and Mrs. Fraser, to be given by Hon. Surveyor General and Mrs. Tweedie at Chatham.

> The Trials. Jovs and Tribulations of a Silly Gentleman Named Bondaroff.

St. Petersburg, Sept. 10.-Among the blessings of advanced civilization which have rapidly spread from Western Europe to Russia, the hire system of purchase is one of the most highly prized. The czar's subjects have exmoney can supply. You may now obtain your furniture, your boots, your medical instruments, your coffin, or your grave, by paying regularly a few roubles a month for a long term of months or years, and the only drawback-it is one- is that as soon as you cease paying the instalments arranged for was brought on, although at once claimed by the merchant. This does not matter very much as long as it is only your piano or sofa that is violently taken possession of and hauled away in a somewhat ostentatious manner in the broad daylight; but when it comes to the coat on your back or the nicely-ironed shirt with the paste diamond buttons in which you are about to visit a min-Oriana, although it was practically a ister or a governor, the sensation you feel on seeing the "stalwarts" arrive at your door is more easily imagined than described. And yet there are worse quandaries than even that, as the following curious incident will show:

The government of Kieff is one of the most civilized in all Russia, and the city of Nyeshin is one of the most cultured in the entire government of Kieff. It possesses a philological faculty, with a large college attached, in which numbers of young men are trained for the position of grammar school teachers or university professors. Some time ago a very enterprising dentist, named Wimpel, migrated to this flourishing city in the hope of succeeding by pulling out other people's teeth to procure enough for his own to bite. But it was very uphill work at first, and he felt discouraged by the result. He once, in a moment of passion, irritated an elderly lady who has a large following in the city, and this made matters infinitely worse. She came in one evening, accompanied by some friends, to ask for toothpowder, although the dentist shrewdly suspected that she had no earthly use for it. But he showed her three different kinds, all of which she sharply criticised, and then severely censured him for not keeping some Parisian variety which she patronised. He thereupon lost his temper, and rudely asked her whether she wanted tooth-powder or tooth-see-1, "because," he added, "I only keep the former." When, owing to this and a number of other causes, M. Wimpel's prospects looked glum, he bethought himself of the hire-purchase system, and he advertised forthwith that gentlemen and ladies could have magnificent sets of artificial teeth made to order on payment of small weekly instalments, the property to become their own when the entire sum was paid in full. This idea greatly pleased the citizens of Nyeshin, who flocked in numbers to the enterprising dentist, whose charges, in spite of the credit system, were found to be very reasonable indeed.

Among his other customers there

was one gentleman named Bandaroff, who had seen better times, and now found it hard to make both ends meet. He was in debt to every one except the butcher and the baker, for, not possessing a tooth in his head, he could eat nothing tougher than gruel, soup, and arrowroot. He ordered therefore, a complete set of grinders on the hire system, and it was arranged that they should cost no more than £2 10s., the price to be paid in very small but regular instalments. The teeth were duly delivered, and Bondaroff was a changed man. He looked ten years younger, and his health was rapidly improving, for he now could eat more meat and bread and fruit in a single day than he could tude towards his benefactor, he went about the city praising the conscientious work and the moderate charges gan minutely to criticise them, and by during the remainder of the season. the time they finished Bondaroff was made thoroughly uncomfortable. His indignation at having been thus "sold" no bounds. "I have been paying my for five long months," he exclaimed, "but I'm blessed if I pay another copeck." "That is cold comfort, replied Ronoff and Schelmmer; "what you should do is to sue Wimpel for your money, and when you recover it, as you must, we engage to make you a magnificent set of teeth for seven roubles (14s.)." This new proof of his having been victimised made Bondaroff thirst for vengeance, and then and there.

The belligerents next met in the order to obtain possession of the teeth, which, after all, were ony hired out. and belonged to him, the rightful owner. He might, he said, have sent his man to fetch them at any time of the day he liked, just as if they were a piece of furniture, for the written contract signed by Bondaroff invested him with this right. But being a forward, and everything points to a well-disposed, charitable man, he made it a rule to treat his clients with consideration and indulgence. He must, however, insist on getting back agreed to go on paying the instalmaintained that the teeth were not worth an oyster shell, and asked the 14,824 boxes; do. last year, 49,559 boxes. court to have his money refunded to him, that he might have the where- | Labor's capital draws no interest.

withal to pay for the new set which Ronoff and Schlemmer have undertaken to make for 14s. In support of his contention he asked that Ronoff be examined as an expert, and his opinion of the teeth be accepted by the court. This request the judge very properly refused: but before doing so he put a few questions to the willing expert. "You are a dentist, I understand?" "I am," "You possess a diploma, of course, entitling you to practice?" "All the city appreciates my skill, and people travel from-"Answer the question please, have you a diploma?" "Certainly I have." 'Where did you obtain it?" "My late grandmother was a certificated dentist." "So I understand; but who gave tended it to almost every want which you your diploma?" "My grandmother bequeathed me her's when she was dying; but my own studies and skill

are ---." "That will do," interrupted the judge, "you may stand down." The decision of the Nveshin court is that the teeth delivered by Wimpel are good servicable grinders, as Bondaroff himself often declared them to the article ceases to be yours and is be, and that the dentist is under no obligation to return the money he received for them-that, on the contrary, Bondaroff must either continue to wipe out his debt by paying the stipulated instalments, or else deliver up the artificial teeth, which, according to the terms of the contract, are technically only lent out on hire. Th result seems satisfactory enough, but many of the fair citizens of Nyeshin are delighted that the law suit has A Remarkable Scene at the State come to an end, whatever the result, because they were apprehensive lest they should be summoned to give evidence in favor of the finished workmanshin and the moderate charges of the dentist Wimpel.

order. The secretaries left their desks and jumped into chairs and cheered with the multitude. Bourke Cochran, John R. Fellows, Mayor Gilroy, Thomas F. Grady, and other leaders jumped upon the press tables and urged on the applause. The only persons in the hall who were seated were those few who during the choas, were endeavoring to complete the stories. Finally from sheer exhaustion, the vast audience ceased long enough to allow Senator Hill's voice to be heard, and in a husky tone he said :- "I am grateful to the democracy of the empire state for the courteous kindness and support in the past, but I must say to you that I cannot be your candidate." There were cries of "no" and "you are the only man," but in the inter-

vals Senator Hill managed to insist that the roll of delegates should be called.

The clerk thereupon began the calling of the roll. Several county leaders arose and announced their delegation as for Senator Hill.

New York was reached and Senator Guy jumped on his feet. There were cries of "platform," but he stood on a chair and the delegates listened breathlessly to what he had to say. He sald: if Ireland were coerced or taunted too 'It is incumbent upon us to select a man who in the largest measure rep- to parliament to give left handed, or resents the hopes, the expectations, the if necessary, direct aid to socialists principles of the democratic party and who can best meet the needs of the present party. (Renewed cheering.) In the name of that democracy, against the wish of our presiding officer, and, if need be, in defiance of it, I place in nomination here, I present the name of that greatest living exponent of democratic principles, Senator David B. He had barely finished when the same scene that occurred when Hill's name was first mentioned was repeat-

Senator Hill said out of the din: "The rules of the assembly are in force here and the roll call should be allowed to proceed."

The gavel was banged several times and as the applause subsided somewhat, it was almost immediately resumed when, jumping up on the press tables, and from there to the stage, Bourke Cochran faced the audience and waved both hands for

In an instant the noise subsided. Then Mr. Cochran spoke and eloquently seconded the nomination of When Cochran had finished, pandemonium reigned for at least five

minutes. Vainly did Senator Hill call upon the delegates for order. At the sound of his voice, the applause took on a new impetus. At last when some quiet was restored, the senator demanded that the roll-call proceed, under the rules of the assembly adopted as the rules of the convention. Clerk DeFrees began the calling of the roll amid cries of "call slowly." As each county was called, its leader arose and declared.
