

SUNDAY SCHOOL COLUMN.

GRADING.

The devising of some means of retaining adults in the Sunday school has been assisting the minds of Sunday school workers for many years.

The public school system here is also a comparatively new and complete course of study.

Our field secretary, Rev. Mr. Lucas, has spent the last week in Charlottetown.

The school in connection with the Baptist church in St. Stephen has formed a normal class under the leadership of the pastor.

Wm. Marshall of Bass River, Kent county, is canvassing every house in this district for members of the home class.

Fairville Methodist school has organized a home class department, and one has also been organized at the Methodist school at Bloomfield.

The third Pennfield parish Sunday school convention was held in the Presbyterian church, Pennfield Ridge, Nov. 23rd.

The devotional exercises were led by Rev. Mr. Frazer, pastor of the church, after which the pastor, A. C. Poole, took the chair and opened the convention by a few well chosen words.

The president called for a normal lesson from Rev. Mr. Lucas, secretary of the N. B. S. S. A.

At the evening session the church was well filled by an attentive congregation. After devotional exercises and prayer by Rev. Mr. Munro, the minutes and report of nominating committees were read.

A normal lesson was given by Rev. Mr. Lucas on the home class department. The remarks made by Mr. Lucas were very impressive and tended to a spiritual awakening in every thoughtful mind in the use we make of our Bibles.

tion that his heart is in the Sunday school work (You'll like to see my superintendents like him).

Stirring addresses were given by the pastors of the churches represented, and reports given by the superintendents present showed the schools in a fairly good condition.

The election of officers resulted as follows: President, Miss M. Russell; vice-president, Miss E. Magowan; secretary, Miss H. Lavers; additional members of executive committee, John Dewar and Rankine McIntyre.

A meeting in the same parish was held at Laetoe on Nov. 25th. It was well attended and was most encouraging to the field secretary.

Nothing is known here of the intention to knight Mr. Laurier, except that Ottawa cablegrams declare it probable. I learn this assertion is not correct.

Our secretary does not waste any time. He works 365 days in the year, and yet he cannot meet all the calls that the most intelligent and earnest officers and teachers are sending out for help in their educational work.

The school in connection with the Baptist church in St. Stephen has formed a normal class under the leadership of the pastor.

BOSTON LETTER.

Significant Admissions by Republicans that Bryan Was Defeated Only by the Rarest Kind of Good Luck.

A Frederickian Girl in Trouble at Lewiston. Me.—To Celebrate Queen Victoria's Accession to the Throne.

(From our own correspondent.) Boston, Nov. 23.—New Englanders are devoting all the time they can get to business just now, and seven-eighths of them are taking advantage of the improved conditions to earn dividends.

Preparations are being made in this city to celebrate the sixtieth anniversary of Queen Victoria's accession to the throne. The British Charitable Society has undertaken the arrangement.

Nothing is known here of the intention to knight Mr. Laurier, except that Ottawa cablegrams declare it probable. I learn this assertion is not correct.

Our secretary does not waste any time. He works 365 days in the year, and yet he cannot meet all the calls that the most intelligent and earnest officers and teachers are sending out for help in their educational work.

of the new states, who see colossal fortunes acquired by forbidden ways, by the fraudulent management of the railroads, by the perversion of corporate powers, bestowed by government for public use and for public ends, or by gambling in stocks or the necessities of life, should strive to improve the country.

PATENTS ON PNEUMATIC TIRES.

M. M. Marion & Laberge, engineers and experts in patents, 185 St. James street, Montreal, furnish the Sun with the following information:

In this class 366 patents have been granted. The invention of pneumatic tires was revived in the year 1838 and has since then been in connection with bicycles, and since that time in connection with sulkes and other light vehicles.

Patent of Palmer, June 16, 1891, No. 454,115, covers an outer shoe or cover, provided with hooked edges, to engage the rim of the wheel.

THE CUBAN REBELLION.

The United States Want the Trouble Stopped Within Three Months.

In the Cause of Humanity the Americans May Take a Hand.

Washington, Dec. 2.—Reports were circulated here today to the effect that Secretary Olney some time in November had given the Spanish government courteously but firmly to understand that the Cuban rebellion must be crushed within three months or the United States would be compelled to intervene to stop hostilities.

It is expected that the president will take early occasion to send to congress the report of Consul General Lee, recently submitted to the secretary of state on the result of his observations in Cuba.

A prominent member of the senate committee on foreign relations said today that it would not be possible for the president to send a pro-Spanish message to congress in view of the report which Consul General Lee had made to Secretary Olney.

The report of General Lee, besides the usual statistics of the rebellion, contains a number of interesting details.

CABLED FROM LONDON.

Canadian Representation on Judicial Committee of Privy Council.

(Special to the Sun.) Montreal, Que., Dec. 1.—The Star's London cable says: The anomalies created by Sir Henry Strong's selection for the Canadian seat in the judicial committee of the privy council, especially the fact that he must often adjudicate on his own Canadian judgments in creating comment.

Nothing is known here of the intention to knight Mr. Laurier, except that Ottawa cablegrams declare it probable. I learn this assertion is not correct.

style of construction to be adopted for the insulation of the cold storage room, and the method to be employed for the storing of ice and the cooling of the room will be furnished by application of the agricultural and dairy commissioner, Ottawa.

These require that the inside of the walls of the cold storage room shall have two dead air spaces measuring together not less than three inches in thickness, with an inside finish of zinc, with a one-inch lumber, with building paper between. The dead air space can be most economically and effectively made by the use of a thick tough building paper.

The bottom of the cold storage room shall be filled with mineral wool or sawdust to a depth of at least six inches to prevent the admission of cold air. Where the air can escape from the hollow space of a wall it becomes a nuisance rather than a dead air space, and is not efficient as a part of a wall insulation.

The bottom of the cold storage room shall be filled with mineral wool or sawdust to a depth of at least six inches to prevent the admission of cold air. Two Subscriptions, in one remittance - - \$4 Six Subscriptions, do do - - 10 Ten Subscriptions, do do - - 15

To all new subscribers for 1897, paying in advance now, we will send the paper weekly, from our receipt of the remittance, to January 1st, 1897, without charge.

SPECIMEN COPIES FREE. Address: LUTHER TUCKER & SON, Publishers, ALBANY, N. Y.

Carriage Sale. Owing to the wet autumn I have now on hand what otherwise would have been sold. A fine line of Carriages, Wagons and Buggies, including Gladstones, Phaetons and Cornish Buggies, Express, Concord and Side Spring Wagons, 1 Waggonette, Road Cart and about 20 second hand carriages of all prices and kinds, which I will sell at 20 PER CENT. DISCOUNT for spot cash rather than keep through the winter. I have also a fine line of Sleighs, Pumps, Sleds, etc., which I will sell cheap. This is a splendid opportunity to buy a first-class article very cheap. Cash and examine.

EDWARD MURPHY, City Road.

A POPULAR C. P. R. OFFICER.

Add His Testimony to the Merits of Dr. Agnew's Catarrhal Powder for Catarrh and Cold in the Head. He Says It Is Peerless. Mr. John McMurphy, the general purveyor of the P. O. at St. John, N. B., says: "I have used Dr. Agnew's Catarrhal Powder for cold in the head, and it is very effective, easy to apply, and does not cause any irritation. I have used it many times, and it has always cured me. I can recommend it to all who are afflicted with cold in the head, and I can assure you that it is a most valuable remedy."

CASTORIA. The healthiest and most effective of all purgatives. It is a most valuable remedy for all ailments of the bowels, and is especially adapted for children. It is sold in all drug stores.
