Thoney Not Slated To Head Red Sox

There was some talk of Jack Thoney taking over the management of the Boston Americans, but it has all blown over now. Thoney made his name with the Toronto eastern league team, and was certainly the candy kid with Leads for a couple of seasons. Now he is making good with the Red Sox and friction between the owner and certain players led to the report that Thoney was to take the team in hand. Thoney by his speed, has won the nickname of "Bullet." He

is a fine outfielder and a fast and daring man on the bases, but has never been exceptionally strong with the willow. However, he knows the game thoroughly. Thoney is one of the most unfortunate players in the business, having been out of the game several times by accidents. An accident to his throwing arm this spring has kept him out of his fight up to date, and it is doubtful if he will ever again play regularly. But his knowledge of baseball should make him a valuable man at the head of any club.

MANY JUNIOR BALL GAMES LAST NIGHT

In the junior baseball league series last night a particularly fast game was played between the Pirates and the team representing the Ludlow street church. Y. M. C. Six innings were played and the church team was victorious by the score of 3 to 2.

In the junior inter-society league series last evening the C. M. B. A. defeated the F. M. A. in a fast game.

Commercial League.
Before a large crowd on the E. D. C. grounds last evening the M. R. A. team defeated the B. & P. team. The following is the score by innings:
B. & P. 0 1 2 0-7
M. R. A. 0 2 0 6 X-8
Batteries—Mahoney and McGowan; Girvan and Spruiell.
Jerry Stubbs acted as umpire.

The Pirates defeated the Erins on the St. Peter's grounds last evening by a score of 21-6. The game was loosely played throughout and the Pirates showed their superiority in every department of the game. The battery for the winners was McNulty and Pierce and for the losers McIntyre and Kylin. A league comprising the junior teams of the North End will be formed today. Five teams will be represented, the Pirates, Fort Howe, Stars, the Silver Stars and the Erins. The games will be played on St. Peter's field. J. Haggerty holds the position of official referee.

POLICE CHIEF DONS GLOVES AT CHATHAM

Up in Chatham even the guardians of the peace are disciples of the art of Johnson and of Jeffries. The burly chief, O. B. Lawson, has consented to don the mitts and will box Dan McDonald, the champion wrestler in a six round bout on Monday evening next in the new Opera House.

The big attraction at the exhibition however, will be the appearance of Ed Bristol, of Butte, Montana, and Bill St. Clair, of Kansas City, who will spar 10 rounds. Both men are clever and will weight in at 150 lbs. Some very fast work may be expected. There will likewise be a good array of local talent from the different societies.

BOY VAULTER MAY BE CHAMP

DAVID REAVIS.

As David Reavis of Falls City, Neb., keeps up his present pace he will some day be the champion pole vaulter of the world. He is barely 17 years of age and he has already come within 1 1/2 inches of the world's high school record. In the Nebraska high school field meet at Omaha he won the event at 10 feet 6 inches. He was permitted to try for a new state record. He cleared the bar at 11 feet 4 inches, breaking the state record by 13 inches and coming within 1 1/2 inches of the world's high school record.
Reavis expects to take the first two years of his collegiate work at Nebraska University and the last two years at Yale. His high school record exceeds the State College record.

Rothsday Winners at Record-Breaking Meet

Honors at Interscholastic Meet Were Fairly Evenly Divided—St. John Men Break Two Out of Four Records—Walsh Wins Sensational Mile, Beating Intercollegiate Record.

A large crowd saw the Rothsday Collegiate School win the interscholastic meet on the E. D. C. grounds yesterday afternoon. Rothsday came first with 42 points, St. John second with 28 points, Sussex High School with 20 points, Walsh's remarkable record was not seen as a team. The meet was eminently successful, four records having been broken and good scores being made in the other six events. Particularly speedy was the one mile run which Walsh, of the St. John High School, did in the fast time of 4 mins., 47 seconds, cutting down his own record of last year by 14 seconds and beating the intercollegiate record by 5 seconds. Walsh's remarkable record was made in the pouring rain when he was forced to run through deep pools of water, some of which were ankle deep. Melrose, also of the local High School, came second, pushing the runner, and Hewson, of Rothsday, placed, competitors were hampered considerably by the rain.
In the hammer throw LeBlanc, of Moncton, lengthened Hall's, of Rothsday, 1909 record by 5 feet, 2 1/2 inches making a throw of 90 feet. Teed, of Rothsday, came second with a throw of 87 feet, 2 inches, also breaking the former record and McDonald, of St. John, threw 81 feet, 11 inches.
McKay, of Moncton, lowered Finley's last year record in the 440 yard dash by 4 1/2 seconds, doing it in 56.15 seconds. Machum, of St. John, threw 81 feet, 11 inches. It is thought that he also was faster than the record, Walsh, of St. John, was third.

Records Go.
Another record broken by a local athlete was the shot put in which Gorman distanced R. Smith's 1909 record by 30 inches, making a long put of 35 feet, 2 1/2 inches. Melrose came second in this event and Hewson, of Rothsday, placed. Competitors were hampered considerably by the rain.

Pole Vault Omitted.
The pole vault was left out because of the heavy rain and the 9 points divided, three points being given to each school.
In the 220 yard dash, Sterne, of Rothsday, came within 2.5 of a second of breaking the record made by Macdonald, of Fredericton last year. The record is 24.35 seconds while Sterne's time was 25 seconds flat. Macdonald was second and Machum third.

AERIAL AND AUTO SPORT

Prize Offered for First Twin Screw Aeroplane—Glidden Entries Have Closed—From Quebec to Mexico.
New York, June 9.—Dr. J. B. Walker, editor of the Scientific American, announces that Edwin Gould will offer a prize of \$15,000 to the first aviator who designs a twin screw aeroplane driven by twin motors more efficient than the present single propeller type which all flights thus far have been made.

Paris, June 9.—Marquonnet and Fegant of the French army aviation corps flew from Chalons-Sur-Marne to the gates of Paris a distance of 105.6 miles, in two hours and fifty minutes without a stop today. This constitutes a new record for a twin screw aeroplane carrying two persons. One took observations and photographs while the other piloted the machine.

Mayor Gaynor has announced that he had approved of the Cullen-Good speed bill which gives authority to the Brooklyn park commissioner to exclude automobiles, bicycles and motor cycles from that portion of the Ocean parkway between 22nd avenue and Kings highway. Mayor Gaynor filed the following memorandum with the bill: There is no road in the borough of Brooklyn where those who own and love trotting horses may exercise and speed them. They used to do it to do it on the Ocean parkway until the automobiles became so numerous that they were crowded off. All that this act does is to enable the local authorities to set off one and one-half miles of the Ocean parkway for the use of horsemen at certain times, the automobiles meanwhile being obliged to take a side road. The owners of automobiles are generally quite content with this, as they deem it more than just, while a few of their number oppose it, being too selfish apparently to see the rights of others. Very much has been done for the owners of automobiles and they should not begrudge this little to the owners of horses.

Atlantic City, N. J., June 9.—Final arrangements for a big aerial meet in Atlantic City from July 3 to 10 were made yesterday at a meeting of the Atlantic City Aero Club with Glenn Curtiss and other leaders in air navigation, who have promised to compete for the \$35,000 worth of airship prizes to be offered for the several contests. A flight over the ocean and events for amateur newcomers in the field of aviation will be included in the several days' programme. Big hotel men are offering the prizes. Curtiss has returned to New York, where he will interest other aviators in the meet and the promoters in this city have offered to increase the prize list to \$100,000 in the event of other big aviators entering the lists.

Trimming out the stuff which emanates in the brain of the feverish press agents and getting right down to the hard facts in the case, there are some angles to the Jeff-Johnson scrap which require better explanations than any I have yet seen. At this distance it appears to be up to some one with a grain of good common sense in his make up to take charge of things around the camps of the two scrappers, give the "Frisco politicians the office to keep their hands off, put the boot to Tex Rickard and his posing as referee, show Jeff what a monkey Sam Berger is making of him, and generally conduct things as they should be conducted.
Never in the history of the fighting game has a fight been so well and so freely advertised as the Jeff-Johnson scrap to be, has been up to date. The fight is important in that a white man who retired undefeated, is going to try to whip a negro, who forged to the front by knocking out the best of the white heavyweights fighting him. Both men claim the championship of the world, and on this point volumes have been written. It was decided finally that Jeff was the undefeated champion and that Johnson was the acting world's champion, or something like that.
But now it appears time the scrappers and their managers were cutting out the bunk and getting down to work. They are to fight on the afternoon of July 4, but up to this time Jeff's apparently has been training for a mixed Marathon fishing championship affair. Johnson's training has been mostly devoted to getting arrested for speeding his automobile, and eating chicken.

ST. JOHNS MAY LOSE E. RAMSEY

Eddie Ramsey, the crack second sacker of the All St. Johns may leave the city shortly to join the Woodstock team in the Northern Maine-New Brunswick League. Eddie, it is said, has received a flattering offer for his services and the speedy little infidel is said to be seriously considering the matter. Should Ramsey forsake Manager Tilley at this stage of the proceedings it would hamper the latter's chance considerably of capturing the series from McBride. For scooping up hot ones, swatting the leathery and running the pillows, Eddie is undoubtedly king of his class in the city. His batting this year so far although slightly below his last year's average, is still well upon the 300 mark, he being second high man on his team. He also leads in holding average and stolen bases.

WOODSTOCK LEAGUE AWAY TO GOOD START

Woodstock, June 9.—The baseball executive have purchased a 15 foot steamer with "Woodstock" painted in navy blue letters. This flag will fly from the flagpole to be erected in connection with the new grandstand. The baseball league series started on Monday with a victory for the Pirates and weather permitting, three games will be played each week on Monday, Wednesday and Friday evenings. This year's league promises to be the most successful one yet held in Woodstock. The new 90 foot flagpole has been erected, the well sunk and the diamond finished at the Connell park this week.
A couple of split log drags have been built for the lawn at Connell's foundry. It is claimed that the split log drag will fill all the holes in the road and after repeated use it rounds off the centre in such a manner as to leave a perfect drainage on each side.
The field of aviation will be included in the several days' programme. Big hotel men are offering the prizes. Curtiss has returned to New York, where he will interest other aviators in the meet and the promoters in this city have offered to increase the prize list to \$100,000 in the event of other big aviators entering the lists.

San Francisco, June 9.—Johnson has always been a systematic worker, but this afternoon he caught some of the newspaper men napping and incidentally they missed a real treat.
Without any intention of putting on the gloves the colored man strolled into the big pavilion where Al Kaufman was working and at the request of some of Kaufman's friends decided to do a little work himself.

Hartford, June 9.—The entries for the chief events of the grand circuit meet to be held here Labor day week were made public today. There are 17 entries for the 2.09 trot, \$10,000 purse. In the 2 1/2 trot for amateurs there are 15 entries.
The following well-known horses are listed in the free-for-all: Sonoma the 2.05 1/2; Baron May, 2.04 1/2; Allen Winter, 2.06 1/2; The Harvester, Paderwski and Sterling McKinley.

Chicago, June 9.—With the idea of bringing to this city as its guests, boat owners of Canadian and other parts of the Great Lakes, the Chicago Yacht Club has hung up a valuable cup and tempting cash prizes for a race between the visitors from Mackinac Island to Chicago. It is the desire of the local yachtmen to entertain the visiting sailors during the military tournament of the United States army to be held in Grand Park early in July, but incidentally the C. Y. C. officials expect to assure the competition of several large outside boats by its annual cruising race to Mackinac later in the month.
According to the announcement made yesterday by club officials, the first prize is to be a \$500 club trophy, the second \$200 in gold and the third \$100 in gold.

He wrestled around with the medicine ball to warm himself up and then finished with four rounds of fast boxing with Kaufman. Kaufman is a Sig fellow, and Johnson had the best work-out of his training.
