 Some of this year's special features announced are, exhibits by the government and the various provinces, paintings by English, Scottish, American and Canadian artists. American-greatest live stock show, manufactured by the government-gasoline, the Duke of Connaught, new grandstand, grandstand spectacle of Babylon with a thousand performers in picturesque costumes against a background of Oriental gorgeousness.

**WAY TO PERFECT YOUR STROKE.**  
 Here's a tip for the golf fans. Quite a few of the Red Sox stars are some champions in the bonnie Scotch game. They have a novel strat to obtain accuracy. Crossing a couple of matches on the floor in the dressing room so that the end of one is a frailty of an inch above boards, take an iron and proceed to try and light the match. A perfect swing, with plenty of force and snap behind it, will ignite the sulphur. And it takes some drive to hit exactly right without topping or taking the force out of the wall by glancing the head of the club off the board. Yet some of the players can do it time after time in really remarkable fashion.

## FOUR FAST BALL PLAYERS

**FAR EASTERN ATHLETICS FOR PACIFIC GAMES.**  
 New York, Sept. 2.—The withdrawals from the Olympic games at the Panama-Pacific International Exposition on account of the war will be more than compensated for by the announcement just made by James E. Sullivan, director of athletics, that more than 400 Oriental athletes, who will participate in the Far Eastern Olympic games in October have agreed to come to San Francisco in 1915. Besides these athletes, who have never participated in a big international series and whose skill with the javelin and on the cinder path is said to equal Sullivan's announcements that additional entries have come from Denmark, Norway, Sweden, the Canal Zone, Cuba, and Australasia, the Duke of Wellington, who has been named as the director of games in Shanghai, China, in which he pointed out that the records made by Oriental athletes are very close to the best marks made in the Olympic games in Stockholm. These athletes are principally Japanese and Chinese collegians, who have had the benefit of American tutors, and who have taken to the American pastimes with a spirit which the Shanghai authority says will force the American athletes to widen their best marks to win from the Orientals.

**SUNK BY GERMANS.**  
 Agents of the Munson Line in New York received the following cablegram yesterday from stmr Katherine Park, (Br.), Patterson at Rio Janeiro Aug. 30, from Santa Fe for New York: "Arrived here with crew of stmr Holmwood, (Br.), from Newport, E. July 29 for Bania Blanca, sunk by German cruiser."  
 Et. Johns, Nfld. Aug. 31.—Stmr Floriston, (Br.), from Montreal and Quebec, was beached at Pointe Quebec, having been in collision with an iceberg. Her bows are stove in, forehold full of water and she is likely to prove a total loss.

**STRUCK AN ICEBERG.**

## THEY STUDY BASEBALL IN COLLEGE NOW

Several years ago I was assigned by President B. E. Johnson of the American League, to umpire one of the very important college games, writes Billy Evans, the American League umpire, in the August St. Nicholas. It was between two of the larger institutions of learning, and a very bitter rivalry existed in all things pertaining to athletics.  
 I arrived several hours before the game was scheduled to begin, and to kill a little time took a stroll over the college campus. Accompanying the village college umpire was a big fellow following that came to cheer its players on to victory. It happened that two chaps, one from each of the schools, met on the campus in front of the law school building. After a handshake the visiting collegian inquired: "What course are you taking, Jack? I presume either engineering or medicine."  
 "Neither," replied the other. "I am studying law, but really specializing in baseball."  
 It did not take long after the game began to discover that the chap who was specializing in baseball was a real workman when it came to the national pastime. He was the sensation of the game. As a matter of fact at that very time he was under contract with a major league team at a big salary, and had received from the club in question a check for \$500 for consenting to sign with them rather than with one of the other five or six teams which were angling for his services. That chap is a big leaguer star today. I do not believe he pays much attention to the practice of law, for baseball yields him far too princely a salary.  
 Of late years a new field has been opened up for the college graduate. It is a course in baseball. All colleges large and small, make a special feature of this branch of sport and study. Staid professors refer to the record of this college baseball nine with much pride, and point to it as one of the strong reasons why all athletically inclined young men should attend their institutions.

**HORRORS OF WAR.**  
 "This warfare makes me sad at heart," Big "Shag," the magnate said. "It grieves me when I think of all the wounded and the dead. It grieves me when I think of all the misery and pain. It grieves me when I think of all the orphans of the slain. But when I count my gate receipts it grieves me most of all. For people haven't time these days to see the Hans play ball."

**SCHOONER NOTES.**  
 F. K. Warren announced the charter of the schooner Annie M. Parker, Norfolk, Va., to Demerara, New York. The vessel is at present on the Marine Slip, Dartmouth, being recaulked, after which she will proceed to the southern port.  
 The tern schooner Maple Leaf has been chartered by the same broker for part cargo of lumber at Halifax, complete at Gold River for New York. The American schooner Roger Drury, which has been discharging coal at William Roche's, is now in Bridgewater loading lumber for New York.

**APPLE SHIPMENTS.**  
 The Warren liners, the Sachem and the Sagamore are due to call at Halifax this month, the former on the 19th and the latter about the 26th. Both of these ships will call specially for apple shipments and also passengers.  
 The apple season will make a change in the Furness liner Digby's sailings, the next voyage of that ship from Halifax being to London instead of Liverpool. Her sailing date from Liverpool, where she is now, for Halifax is set at September 8th.

**Two Speed Demons.**  
 Frank Kramer, the bike rider, has been racing for many years. He got into the game back in the 90's—and he's been in it ever since. Others who were stars when Kramer first entered the cycling ranks long ago have started off into obscurity, but Kramer still remains, and the added years have not robbed him of his skill, his nerve, or the pedalling power of his legs.  
 Barney Oldfield, the racing daredevil, has been making flights against time for more than a dozen years. The life of an automobile speed demon is short-lived, at best. If he isn't killed, he's probably injured so that his racing days are ended. And if no accident befalls him he is forced to retire from the game as soon as age creeps on, for the pace is so swift, the life so nerve-racking, that few men can stick to it more than half a dozen years. Yet Barney still is here and doing the same old hair-raising stunts of years.
