### CURED OF DYSPESIA

BY USING  
**BURDOCK BLOOD  
BITTERS**

The symptoms of dyspepsia are so numerous and diversified in different individuals that probably no description could exactly represent them as they occur in any given case, but a few of the most prominent are a rising and souring of food, pain, flatulence and distention of the abdomen, a sensation of discomfort after every meal, which is sometimes followed by sickness and vomiting.

To get rid of dyspepsia a careful arrangement of the diet is necessary and due time must be given for the digestion of the meal.

You will find that Burdock Blood Bitters will help with this digestion. It does this by toning up the stomach in such a way that the dyspepsia soon disappears.

Mr. Robt. Baldwin, Winnifred, Alta., writes:—"I cannot speak too highly of Burdock Blood Bitters for curing dyspepsia, of which I have been a sufferer for years. I have tried a good many doctors and proprietary medicines, to no one day's profit. I would try something different. I got a bottle of B. B. B. from our local store, as it was about the only remedy he kept, and I can honestly say that I was more than pleased with the result, as I got better right away. I will always recommend it to other sufferers."
