Canadian Record Broken At Chatham Track Yesterday

Exposes Trotted Mile in 2.10, Won the 16 Trot and Lowered Stallion Trotting Record for Canada—Roy Vola Won the 14 Class and Touz the 24.

Chatham, N. B., July 9.—The sensation of the first day's meeting in the Maritime Circuit harness racing here this afternoon was the breaking of the stallion trotting record of the Dominion by The Exposer (2.06), owned by H. C. Jewett, of Fredericton. In the first heat of the 2.16 trot and pace class, The Exposer trottad a mile in 2.10 flat, coming within a half a second of the pacing record for the track and lowering the stallion trotting record in Canada.

The track was fast and all the classes were marked by fast time, there being some surprises. The Exposer won the 2.16 class in straight heats with the Montreal mare, Lady Gratton second. In the 2.14 class Roy Volo, owned by W. B. Lint, of Fredericton, won after five heats while in the 2.24 class Touz, owned by W. G. Fenwick, Bathurst, captured first money, with Singer, owned by Michaud and Faulkner, of Montreal, second.

When the Huns Were Off Our Coast

THE outbreak of war brought a new problem to Canada—the guarding of our coast from German raiders and submarines. Everything that was done at the time was shrouded in mystery, for the censorship did not permit any mention to be made of defense measures. Now, however, it is possible to tell about it, and Thomas M. Fraser gives the complete story of coast defense in an article in the July issue of MACLEAN'S MAGAZINE.

He describes how the coast was patrolled; the troopships convoyed; the seas swept of mines; the shores guarded; the harbors watched. Altogether a complete and fascinating story of a page in Canadian history that may never again be duplicated.

The July number of MACLEAN'S will have a very great interest for readers in the Maritime Provinces. It contains the following articles:

"The Land of National Leaders"

An article on the political aspect of the Eastern Provinces and the achievements of their leading statesmen.

"The Spirit of the Maritimes"

An article on the attitude that the people of the Maritimes are adopting toward the big problems of the day, particularly with reference to the results of Confederation. It is a close and outspoken exposition of the situation and shows the reasons why the people of the East are not satisfied.

Bonar Law, the man from the Maritimes, who has been the able lieutenant of Lloyd George at all crises in Great Britain, appears on the cover in a handsome three-color reproduction.

Other Big Features of the Number

"With the Snowball Brigade"
By Captain Louis Keene
Just back from Siberia—Captain Keene tells some sensational and intensely gripping things about conditions in that country which the Canadian forces are helping to stabilize. It is a record of international complications, strange atrocities and almost unbelievable living conditions.

"The Four Tommies"
By Robert W. Service
A war poem of unusual strength.

"Solving the Problem of the Arctic"
By Vilhjalmur Stefansson
The fourth instalment of his remarkable story of the five years he spent in the north for the Canadian Government, appearing exclusively in MACLEAN'S.

Four Magnificent Stories
The best fiction obtainable is found in this issue: "Owners' Up," a race horse story by W. A. Fraser; "His Majesty's Well Beloved," by Baroness Orczy; "Petite Simunde," by Arthur Beverley Baxter; "Bunkered," by Allen C. Shore.

—Every Home in the Maritime Provinces should have a copy of this July MacLean's and place it in their library for reference.

CHAMPIONS DEFEATED PORTLANDS.

Last evening on the Victoria Square the North End Champions defeated the Portlands by a score of seven to five. The game was fast throughout and was marked by several fine plays. Howard weakened in two innings and the Champions piled up the winning runs. Batteries for the Champions, Moore and Moore; for the Portlands, Howard and Laskey. Mr. Lettaney umpired the game. Tomorrow the Champions play the Victors on the Victoria Square.

To Ward Off Summer Complexion Ills

To keep the face smooth, white and beautiful all summer, there's nothing quite so good as ordinary mercolized wax. Discolored or freckled skin, so common at this season, is gently, gradually absorbed by the wax and replaced by the newer, fresher skin beneath. The face exhibits no trace of the wax, which is applied at bedtime and washed off mornings. Greasy creams, powders and rouges, on the other hand, are apt to appear more conspicuous than usual these days of excessive respiration. Just get an ounce of mercolized wax at any drugstore and use it like cold cream. This will help any skin at once and in a week or so the complexion will look remarkably clear, young and healthy.

STOMACH TROUBLES ARE DUE TO ACIDITY

Tells Safe, Certain, Speedy Relief For Acid Indigestion.

So-called stomach troubles, such as indigestion, gas, sourness, stomach ache and inability to retain food are in probably nine cases out of ten, simply evidence that excessive secretion of acid is taking place in the stomach, causing the formation of gas and acid indigestion.

Gas distends the stomach and causes that full, oppressive, burning feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the excess development or secretion of acid.

To stop or prevent this souring of the food contents of the stomach and to neutralize the acid, and make it bland and harmless, a teaspoonful of bisurated magnesia, a good and effective corrector of acid stomach, should be taken in a quarter of a glass of hot or cold water after eating or whenever gas, sourness or acidity is felt. This sweetens the stomach and neutralizes the acidity in a few moments and is a perfectly harmless and inexpensive remedy to use.

An antiacid, such as bisurated magnesia which can be obtained from any druggist in either powder or tablet form enables the stomach to do its work properly without the aid of artificial digestion. Magnesia comes in several forms, so be certain to ask for and take only Bisurated Magnesia, which is especially prepared for the above purpose.
