## MARKET REPORTS

### STOCKS, BONDS AND PRODUCE

#### CALL RATES BROKE AND STOCKS WENT UP WITH BOUND

Rates Reached Normal and is Believed to Mark the Passing of the Stringent Money Period.

New York, Nov. 13.—When call money rates broke to six per cent. in the final hour of trading the stock market rebounded today from its low levels and closed at appreciable advances throughout the list. Trading was heavy before the closing and many stocks, notably Motors, Oils, Steels, Equipments, Affiliated Industrials and a score of miscellaneous specialties showed gains for the day of from five to twenty points. Sales for the day approximated 2,200,000 shares. Rates for call loans held at 16 per cent. until about 5 o'clock, then they broke to 12 and rapidly went to 6, the normal rate. This was believed to mark the passing of the stringent money period.

Leaders in the rally which followed were the issues which broke most severely yesterday and the day before. The market was steadier at the opening today but the initial high rates for call money caused an avalanche of selling in the next hour or two. Factors which contributed to the lower rates, were the lending of money by brokers who offered their surplus funds, and announcement from Washington that the Federal Reserve Board had taken no action on credit conditions here.

One of the leaders of the spirited rally was General Motors, which opened at a fifteen point rise, only to lose its advantage and finally advanced by leaps and bounds to 325, an extreme recovery of forty-five points. Mexican Petroleum in which spirit seems at most altogether lacking yesterday, rose over thirty points.

The extent to which the short interest involuntarily participated in the rebound by covering of contracts is naturally a matter of debate, but the market's recuperative power suggested that no small part of the recent reversal was due to bearish aggressions.

Trading in bonds was confusing, recessions in Industrials being balanced by the strength of rails. Liberty issues made up part of their earlier heaviness. Total sales, par value, aggregated \$17,850,000.

MADE AN INSPECTION

Dr. J. F. L. Brown district medical health officer, paid a visit of inspection to Navy Island yesterday morning. According to the doctor, there is no sanitation on the island whatever, and the eight families that live there are surrounded by all sorts of disease traps. There is no water supply—all fresh and pure water must be brought from the mainland. The sanitation is also in a deplorable state and surrounding conditions generally are by no means fit to bring up children in. The doctor said that there are twelve children on the island, none of whom, so far as he could learn, attended school more than a few days of the year. There are some, ranging from ten to fourteen years of age, who when questioned said they were in grade one. Many of these children also need medical attention, and the medical health officer claims that if they were being sent to school they would be in a position to receive that attention. The matter will doubtless come before the Board of Health in a few days. The Navy Island property is owned by the city.
