1 Double Reed Cabinet Organ. net in regard to the Louisiana difficulty THE invention of the paper collar was of positive benefit to the world, furnishing as it did, a neat, clean, and most economical art cle of apparet. But it never did answer all the purposes for which it was designed, owing to the trail nature of the material. The problem has been to make a cloth collar as cheap as paper that would last longer and could be made always fresh and bright. The new "44" collar, now upon the market, fills these requirements per cetly. It is made entirely of cloth, three thicknesses being used; it so closely recembles the finest linen that it might be sold anywhere for linen; and, no matter how much it may e soiled, it can be cleaned and made as bright as ever by the application of a damp sponge or cloth.
