

FERNIE'S CELEBRATION

TOWN GAILY DECORATED AND CROWDED WITH VISITORS

EXCELLENT PROGRAM OF SPORTS WELL CARRIED OUT.

(Special to The Daily News)
Ferne, July 3.—Canada's annual day was ushered in with blue skies and brilliant sunshine, and a more ideal celebration which took place. Never did the town present a more attractive and animated appearance and from early morning till late at night the tastefully decorated streets were thronged with happy and prosperous looking holiday makers, while the ubiquitous small boy made his presence felt by the lavish expenditure of giant fire crackers and other juvenile delights.

The morning trains brought in large delegations from the surrounding towns and it is doubtful if there ever before was called upon to entertain so many visitors.

The citizens vied with each other in beautifying their residences, and the display of electric lights, streamers and the strings of electric lights everywhere in evidence added a most artistic effect to the naturally picturesque surroundings of the town.

The sports of the day opened with the horse races on Victoria avenue, after which a procession was formed and marched to the recreation grounds to the music of the Italian band, where the long program of sports was successfully carried out.

One of the most interesting features of the morning was the football match between teams from Fernie and Coal Creek, for the prize of \$100, and which resulted in a victory for the former by the score of 6 to 0. It was a well contested game and added much to the enjoyment of the morning program.

At 4 o'clock in the afternoon speeches were delivered by W. R. Ross, P. P. L. P. Eckstein, and J. P. Hawthornthwaite, M. P. P., to a very large audience and the remarks were listened to with close attention.

The principal event of the evening was the display of fireworks and garden party at the residence of G. G. S. Lindsay, K. C., which was thoroughly enjoyed by a large party of invited guests.

The grounds were beautifully decorated and artistically lighted by numerous Chinese lanterns and altogether presented a very picturesque appearance while the proverbial hospitality of Mr. and Mrs. Lindsay made the guests feel perfectly at home.

WHAT APPLES TO PLANT

MAXWELL SMITH'S ADVICE TO FRUIT GROWERS OF THE INTERIOR.

TWELVE VARIETIES THAT HE BELIEVES TO BE MONEY-MAKERS

In a circular letter just issued Maxwell Smith, Dominion fruit inspector, says: "I am so frequently asked what varieties of apples I should advise planting in the Okanagan valley and other districts in British Columbia, having similar climate and soil conditions, that I have prepared the following list, and while there are, of course, a number of other good varieties, I can with a reasonable degree of confidence, recommend the following as money makers:

Duchess of Oldenburg, Wealthy, McIntosh Red, Gravenstein, Cox's Orange Pippin, Fameuse, Northern Spy, Esopus Spitzenburg, Jonathan, Delicious, Stayman Winesap, Yellow Newton Pippin.

Of these twelve, eight are highly colored varieties of rare beauty, viz., Duchess of Oldenburg, Wealthy McIntosh Red, Fameuse, Esopus Spitzenburg, Jonathan, Delicious and Stayman Winesap, but the other four, viz., Gravenstein, Cox's Orange Pippin, Northern Spy, and Yellow Newton Pippin, possess such excellent qualities and are so well known in the markets of the world, that I hardly think we can afford to leave them out of the list. I should like to point out also that the keeping qualities of these 12 varieties are fairly well indicated by the order in which they are named, beginning with the Duchess of Oldenburg, which does not keep successfully longer than the end of September and ending with the Yellow Newton Pippin, which, under proper conditions may be kept over until May.

There are four of these varieties, viz., Cox's Orange Pippin, Esopus Spitzenburg, Stayman Winesap, and Yellow Newton Pippin, concerning which particular care should be exercised to give the proper name when ordering, as there are other inferior varieties bearing similar names; that is to say, there are Orange Pippins, Stayman Winesaps and Yellow Newton Pippins, which are of very inferior quality to the Cox Orange Pippin, the Esopus Spitzenburg, Stayman Winesap and Yellow Newton Pippin.

While I submit the names of 12 varieties I should not advise any grower to plant more than four of these and for convenience I should recommend dividing them into three groups, about as follows: Group 1—Stayman Winesap, Jonathan, Wealthy and Duchess of Oldenburg. Group 2—Delicious, Esopus Spitzenburg, Fameuse, McIntosh Red. Group 3—Yellow Newton Pippin, Northern Spy, Gravenstein, Cox's Orange Pippin.

In planting an orchard I should strongly advise against planting a large block of any one variety. The reason for this is the advisability of getting different varieties in close proximity so as to render effective the operation of interpollination, the action of wind and honey gathering insects.

Dated 26th day of June, 1906.

F. G. FAUQUIER.

VOL. 5

SIX MONTHS' ORE OUTPUT

Splendid Showing Made in First Half of Year by Mines of Boundary

Tonnage Nearly Fifty Per Cent Greater Than for Same Period of 1905—Estimated Value of Output Over \$3,000,000

(Special to The Daily News)
Phoenix, July 13.—Figures showing the approximate tonnage of the mines of the Boundary for the first six months of 1906 have been made up, showing that the big mines of Boundary have sent out \$3,026,250 tons of ore in the half year ending June 30. During the first half of the year 1905, the record for the same properties was \$2,013,333 tons. Therefore the increase over the corresponding period of last year has been nearly 50 per cent. The value of ore shipped is not easy to ascertain, as the mine and smelter officials will not make this public as yet. However, with the good prices of metals, and figuring at a low average of \$5 a ton, the value of Boundary's output thus far this year has been over \$3,000,000 which is also about 50 per cent more than for the first six months of 1905. The present rate of ore shipping is at the rate of 1,250,000 tons per annum, with the certainty of this rate being increased inside of two or three months, when enlargements at the three district smelters are completed. Herewith is given a table, showing the tonnage output of Boundary mines for 1905 and for 1906, by months, for the first six months of each year, for purposes of comparison:

	1905	1906
January	66,074	104,378
February	72,671	105,428
March	90,047	112,638
April	80,102	107,738
May	84,044	100,634
June	67,255	102,567
Totals	453,193	633,526

The ore record for June is slightly larger than for May, notwithstanding the fact that the British Columbia Copper Co.'s smelter is out of commission, owing to extensive enlargements in progress at the reduction works. Granby shipped nearly 12,000 tons more in June than in May, and Dominion Copper sent out about 2000 tons more than in the previous month. Following are the figures from each property:

Granby mines	78,426
B. C. Copper Co.	2,521
Emma	1,293
	3,819

Dominion Copper Co.—13,509

Rawhide 4,196 |

Sunset 2,491 |

Mountain Rose 233 |

Providence 20,679 |

Skylark 85 |

Sally 20 |

NORTON VS. FULTON

Attorney-General of Province Defendant in Novel Suit.

Vancouver, July 13.—The case of W. T. Norton against the Hon. F. T. Fulton, attorney-general, is now before the civil assizes. Mr. Fulton is present at the trial and is represented by Messrs. C. B. McNeill, K. C., and E. V. Bodwell, K. C. Mr. Norton is represented by the Messrs. Ed. Vipond, Alex. McLean & Deacon. The case is a most interesting one and is probably the first of the kind ever tried in British Columbia.

Norton had a timber license last year which expired on January 1 of this year, and he applied for another license, which was refused. He then presented to Mr. Fulton a petition to be presented to the lieutenant-governor in council, asking for leave to sue for the license on a writ. Mr. Fulton refused to present the petition to the lieutenant-governor in council and Norton immediately started a suit for damages against the attorney-general. The case will probably last several days.

STRIKE ON NOBLE FIVE

Good Leads of Galena and Dry Ore—Work Will Be Pushed.

A discovery has been made on the Noble Five group, at the head of Brown creek, which will be a factor in the production of the Trout Lake Mining division, says the Lardeau Mining Review. This property had been staked a number of years ago on the strength of finding some big boulders of galena lying at the base of an almost perpendicular cliff. It was not, however, until last year that the ore in place was found by Sid Graham and Jim Snell, who prospected the face of the cliff with the assistance of rope ladders held in place by steel driven into the rock. The men, Ed Vipond, Alex. McLean, Sid Graham, and Bert Fowler extracted and shipped nearly a car of ore during the latter part of the season, which gave high values.

Some three weeks ago work was resumed at the old workings, and one man out prospecting, with the result of the

discovery of another body of ore of even more importance than the first. The find shows from 5 to 8 inches of galena and from 15 to 20 inches of dry ore. Work will be pushed on both leads, and as much ore as can be consistently got out by legitimate mining methods shipped.

The group has in all five claims, and is situated about six miles from the Ten Mile terminal of the wagon road; or it can be easily reached by the Eight Mile trail over the summit from Trout lake.

THAW IS SHORT OF CASH

THE ELABORATE DEFENCE PLANS COME TO A STANDSTILL

LAWYERS AWAIT ARRIVAL OF HIS MOTHER FROM EUROPE

New York, July 13.—Harry K. Thaw, in the Tombs for the murder of Stanford White, is reported to be short of funds and, it is stated, that the elaborate plans which have been made for his defence cannot be put into execution until the prisoner's mother arrives from Europe and approves the necessary expenditures.

Harry Thaw's income under his father's will is but \$2500 a year and all that he has spent above that amount has come from his mother's purse. In an interview he has given, he has been in jail some as high as \$80,000 a year, none of which he has available now in the hour of his need. What money the young man has been supplied by his counsel pending the arrival of Mrs. William Thaw. It was reported today that Thaw's counsel have decided to abandon the insanity plea.

SALVADOR AND GUATEMALA

Confirmation of Deal of Insurgent Leader—Revolutionists Hopeful.

Mexico, July 13.—Today advices from Salvador confirm the news of the battle of Elcarigo and the killing of a number of Salvadoran troops under general Ragalado, but announce a victory gained by general Toledo and the insurgent forces on the same day at a point further north where the Guatemalan army was routed with heavy loss. In an interview here, general Carras, the Guatemalan insurgent, laments the loss of general Ragalado, but says there will be no change in the program of the revolutionists.

General Toledo is now at the head of the revolutionists who claim they will be in Guatemala city within a fortnight. General Toledo now has artillery which he lacked when he was defeated in June. The revolutionists now claim Nicaragua will take part in the war and allow her gunboats to aid the revolutionists which they insist will result in the speedy downfall of president Cabrera, of Guatemala.

During the day a cablegram was received at the state department from Mr. Brown, secretary of the American legation at Guatemala City, reporting continued fighting near where Ragalado was killed.

Minister Merry, at San Salvador, said today that Salvador was willing to cease hostilities but complained against the aggressive attitude of Guatemala.

ATLANTIC LINER DAMAGED

Deutschland Collides With Pier at Dover and Must Be Docked.

Dover, Eng., July 13.—The Deutschland, which left Hamburg yesterday for New York, while leaving Dover this morning collided with the Prince of Wales pier and twisted her stem. The steamer, which was anchored off the admiralty pier to investigate the extent of the damage she had sustained and it was found to be so great that she was unable to proceed and must be docked for repairs.

The Deutschland was split from her bow rails to her keel but the watertight compartments prevented her taking much water.

CANADA CAPTURES KOLAPORE CUP

England Wins Elcho Challenge Shield—Irishman's Unique Score.

Bisley, Eng., July 13.—Canada won the Kolapore cup today by a score of 729. England won the Elcho challenge shield with a score of 1658, defeating Ireland whose score was 1602 and Scotland which scored 1685. These were the only entries. Last year Scotland won the shield with a score of 1394. England's score this year is the lowest since 1896, when Scotland won the shield with exactly the same score. At the final range in the Elcho contest today Maurice Blood of the Irish team scored a full complement of bull's eyes, an achievement unique in Elcho matches at 1000 yards.

WILL REMAIN NEUTRAL

Detroit, July 13.—The International Association of Photo Engravers today rescinded the open shop resolution, declaring that they will remain neutral in disputes between capital and labor.

George A. Howell, of Toronto, was elected president.

WHITEWATER MILL RUNNING

The Whitewater mill is running full blast again after having been shut down for many years, says the Kaslo Echo. The mill, which was built by the late Logan McPhee, and his associates are operating the Whitewater and the Whitewater Deep under a lease and have been stacking up millings ore of a good grade all winter with the intention of running it through the mill in the summer. Logan McPhee, formerly of the Payne mill is in charge of the concern.

trator, while J. W. Watson is in charge of the operations at the mine. J. W. Power has a four horse team busy hauling ore from the mill to Whitewater. This makes two mills in active operation in the vicinity of Kaslo and speaks well for the steady increase in mining operations generally around here.

FOUR THOUSAND KILLED

INSURRECTION IN BRAZIL ASSUMING HUGE PROPORTIONS

ARMY OF 40,000 MEN SENT TO QUELL INSURGENTS.

London, July 13.—The Leader's correspondent at Lisbon says that according to intelligence received there the insurrection in Matto Grosso, Brazil, is swelling to huge proportions. The insurgents, it is reported, have organized a large army and are marching on Rio de Janeiro and already have captured several cities.

General Ribeiro, with 40,000 federal troops, has been sent against the revolutionists. Fearful carnage is reported and the killed are said to be already more than 4000.

VISIT TO BE POSTPONED

CHANNEL FLEET WILL NOT GO TO CROONSTADT YET AWHILE

INITIATIVE IN DECISION TAKEN BY RUSSIA.

St. Petersburg, July 13.—The visit of the Channel fleet to Russian waters has been postponed until a more propitious time. The initiative in this decision came from Russia which pointed out that the proposed visit had been welcomed with live satisfaction by the Russian government which saw in it an expression of sympathy for Russia on the part of Great Britain. Unfortunately, it added, certain political parties in Great Britain and Russia fomented a sharp agitation with a view to connecting the visit with questions of Russian international policy. The Russian government, in an interview here, general Carras, the Guatemalan insurgent, laments the loss of general Ragalado, but says there will be no change in the program of the revolutionists.

Later reports show that M. Sarraut is suffering from a deep wound in the right breast penetrating the lung. While the wound is considered not to be serious it is not necessarily dangerous. Laws finally were enacted today by the chamber of deputies reinstating Dreyfus, who obtains the rank of a chief of squadron and a pension, and Piquart, who is made a brigadier general. Both houses were overwhelmingly favorable to the bills.

WILL JOIN BOAT CLUB

Launceston Decides to Take Part in the N. P. A. A. O. Regatta

A well attended meeting of the executive and racing committee of the launch club was held at the office of George Hunter, N. P. A. A. O. regatta, in an interview here, general Carras, the Guatemalan insurgent, laments the loss of general Ragalado, but says there will be no change in the program of the revolutionists.

Among those present were Messrs. Bask, Hunter, DeVoe, McPhee, Dargensfeld, Weeks and Travers.

Norman Fraser, who was present in the interests of the Nelson boat club, presented a strong request from that organization that the launch club participate in the N. P. A. A. O. regatta in place of holding their races on Aug. 11 as announced.

After Mr. Fraser had withdrawn it was moved by E. C. Traves and seconded by J. McPhee and unanimously carried that the launch club should accept the invitation of the Nelson boat club to join in their regatta.

A special committee consisting of Messrs. McPhee, Hunter and Wells was appointed to meet the boat club committee and arrange a joint program, the details of which will be announced later.

It was decided to hold at least four races one each for the 36 foot, the 2 foot and the 16 foot classes, and a race for all.

FOR SELLING PUTRID MEAT

Fargo, N. D., July 13.—Manager Sirrs, of the Fargo branch of Armour & Co., packers, charged with selling unwholesome and putrid meat, was today fined \$50 by Judge Ryan. An appeal will be taken.

BOURKE COCHRANE TO MARRY

Manila, July 13.—The announcement of the engagement of Miss Annie McLean, daughter of Lieutenant-governor McLean, and congressman Bourke Cochrane was made today.

IS RESTORED TO THE ARMY

Bills Pass Chamber of Deputies After Scene of Strife

Albert Dreyfus Has Now Been Fully Vindicated—Real Blood-Letting Duel Arises Out of Controversy

Paris, June 13.—The scene of tumult which marked the enactment today of the law restoring Alfred Dreyfus to the army was followed by a bloody duel to the night in which under secretary of state Sarraut was dangerously wounded by the sword of M. Piquart-Conti. The duel assumed the aspect of a veritable combat between the government and the opposition, as M. Sarraut's seconds were ministers Clemenceau and Thomson, while M. Piquart-Conti's seconds were M. Millevoye and general Jacquet, who were drawn from the elements which bitterly resisted Dreyfus' rehabilitation.

The meeting followed a fight on the floor of the chamber of deputies, in which M. Sarraut sprang from beside minister of the interior Clemenceau, sitting on the ministerial benches, at M. Piquart-Conti, who had been heaping denunciations on the members of the government as scoundrels. Sarraut struck Piquart-Conti a stunning blow in the face. A scene of uproar ensued, compelling the suspension of the session. The chamber of deputies met this morning for the purpose of hastening the parliamentary procedure, and war minister Etienne immediately presented two government bills, one raising capital Dreyfus to the rank of major of artillery and another promoting colonel Piquart to that of brigadier general.

M. Etienne asked for speedy action, adding that it was the government's intention to inscribe Dreyfus' name on the list of candidates for cross of the legion of honor. This announcement brought out a storm of applause. The debate on the bills and the voting occasioned several dramatic scenes.

"It is with pride that I register this vote," said M. Pressensens, socialist. A fight occurred in the centre of the chamber as M. Pressensens went on to demand that the government prosecute the bill.

M. Piquart-Conti, republican, shouted: "The government officers are scoundrels."

M. Sarraut, radical socialist, then stepped forward and struck M. Piquart-Conti a stunning blow in the face. A scene of tremendous confusion followed during which the aisles were invaded by struggling deputies.

President Briquet then suspended the session and ordered the chamber to be cleared, which measurably subdued the tumult.

"The restoration of Alfred Dreyfus and Piquart was passed by 477 to 20 votes."

Later in the afternoon M. Piquart-Conti sent a challenge to M. Sarraut. Early in the day, M. Etienne had the government bill restoring Dreyfus and Piquart to the army. M. Etienne's explanatory preamble to the Dreyfus bill said:

"A decision had judicially and definitely established the innocence of the accused, involving ipso facto, his reinstatement in the army and expunging his condemnation. The government, which is powerless to repair the immense material and moral injury sustained by the victim of a deplorable judicial error, restores to Dreyfus his place which he would have occupied if his military career had not been interrupted."

The preamble to the Piquart bill, said: "The preamble of the restoration of Dreyfus demonstrates the legitimacy of the action of truth at the risk of definitely breaking his career. We demand that parliament expunge the effects of his action by the conferment of the rank of lieutenant."

The chamber also voted to transfer the body of Emile Zola to the Pantheon. President Fallieres tonight signed the enactment for the rehabilitation of

Dreyfus and Piquart and the details of promulgation will appear in the official journal tomorrow. It also the nomination of Dreyfus to be a commander of squadron, the time elapsed since the dismissal from the army to count as full service.

The municipal council of Paris adopted a resolution to name a principal street "Emile Zola" in recognition of the late novelist's defence of Dreyfus.

TO BE BOWER OF ROSES

NELSON FLOWERS FOR WINNIPEG EXHIBITION

SUSTAINED INTEREST TAKEN IN THE KOOTENAY BOOTH

If J. E. Annable has his way, and he is loyally backed up by the ranchers and special Kootenay men of this district, the special Kootenay booth at the Winnipeg fair on July 23-28, inclusive, under Mr. Annable's personal supervision, will be a triumph of success and cannot fail to direct great attention to the resources of this section of the province.

"In order to make a good showing for Nelson, and district," said Mr. Annable yesterday, "I am anxious to dress up the booth more than handsomely and I know of no better way than by having hoes of Nelson roses sent on from here and there. These are plenty available just now and I want them in the bud and by the branch and singly. When they are sent to my office here they will be carefully packed in damp moss and sent on every day or every other day. It is impossible for me to personally apply to everyone who has roses and I sincerely hope all rose owners will join in and assist in making our booth literally a bower of roses."

"I received today from F. M. Black a branch of Royal Ann cherries from Mr. Black's ranch and have sent it on to Winnipeg, where it will be kept in the best of condition until the exhibition opens. It will be the finest cherry exhibit at the fair or I am mistaken."

"All Dominion Express agents have been notified by circular to express fruit to Winnipeg at half rates and that the government will guarantee payment. I am ordering a lot of printed tags to affix to shipments giving proper address, etc., and these can be obtained from me or from my office after I go to Winnipeg."

"I wish you would say again that in order to make our display attract universal attention we must send the fruit in large quantities of fruit, on branches, in jars and by the crate. We can sell the latter at good figures and I will see that the shippers get their money."

"The time is short now for making preparations to anyone applying for same. The fruit and exhibits sent in will be packed in the best of condition and taken to the fair by the Kootenay booth will be in feet square and will add to the B.C. booth. By making a separate display and giving my personal supervision at the fair, I hope to accomplish much for this district. Everything promises very well now and I hope the general interest in the exhibit will be maintained to the end."

TO OPERATE MEADOW LARK

Syndicate of Greenwood and Phoenix Men Formed to Work Mine

(Special to The Daily News)
Phoenix, July 13.—Papers were finally signed this week by which the Meadow Lark property, in Skylark camp, is taken under a working bond by a local syndicate and it is expected that operations at the property will be put under way next week.

The vendors are D. J. Sullivan, W. G. McMynn and J. J. Caulfield of Greenwood, J. J. Lapointe of Phoenix, and James McNeil of Vancouver, the amount named in the bond being \$20,000. No payment is to be made for five months, the entire payments being advanced over 18 months.

The deal was made by R. Dalby-Morkill of Phoenix, who has about completed the organization of a syndicate of Greenwood and Phoenix men for the development of the Meadow Lark mine.

The syndicate, which includes W. G. McMynn, W. J. Porter and R. D. Morkill of Phoenix and J. J. Caulfield, W. G. McMynn and others of Greenwood, has headquarters at the Meadow Lark Mining and Development syndicate which is located in Phoenix.

The Meadow Lark claim immediately adjoins the now well known Skylark mine which has been steadily operated for the last year and a half or two years, with such excellent results, by a Phoenix syndicate, doing business as the Skylark Development syndicate, Ltd. The ore body has been traced to within a few hundred feet of the Meadow Lark line, and there seems to be every chance of the latter property turning out to be valuable when sufficient development has been done to prove it up.

VATICAN UNSAFE

His Holiness Pope Pius X Has Been Compelled to Change His Quarters

Rome, June 13.—It has long been known that some parts of the Vatican are unsafe, but it has just been discovered that the pope's quarters are in a particularly dangerous position. The pope's quarters are situated in the palace of the Vatican, and the pope has been compelled to change his quarters to a safer place. The pope's quarters are situated in the palace of the Vatican, and the pope has been compelled to change his quarters to a safer place.

BAPTIST CONVENTION

New Westminster, July 13.—The report of the birth of four new churches in the home field, a splendid record of the good work being done, and very satisfactory report from the foreign mission treasury, were features of the provincial Baptist convention.

The election of officers and boards resulted in the following: President—Rev. J. W. Litch, B. A., Vancouver. Vice-presidents—Alfred Hugget, Victoria;

Rev. B. L. Dakin, B. A., Victoria; president of women's board—Rev. F. W. Auvahe, Grand Forks.

Mission board—C. S. Stevens, Kamloops; Rev. R. Lennie, B. C. King, Mrs. Tupper, J. J. Passmore, B. L. Weber, P. Lehoucq, J. Menzies, Rev. T. Ritchie, Rev. H. W. Percy, James Haynes, Rev. J. T. Tapp, Scott, B. S. Morgan, Rev. Dr. Ruge, W. Russell, Rev. F. H. McQueen, W. Marchant, Dr. McKechnie.

Educational board—A. J. Pineo, James Ritchie, Jas. Reekie, Rev. A. J. Saunders, J. M. Robinson, J. H. King, Mrs. Tupper, Miss B. Spencer, Rev. T. N. Ritchie, Thos. Dale, A. Perry, A. B. McNeill, Dr. Hackling, Rev. J. A. Banton, Rev. H. S. Estabrook.

Publication board—Rev. F. Betts, Rev. G. J. Bagshaw, Rev. B. Goodfield, Rev.
