

	PAGE.
Twenty-two thousand second feet minimum flow.....	110
United States Geological Survey discharge records.....	243
Upper Pinawa Concentration.....	247
"    "    "    "    Discharge capacity.....	321
"    "    "    "    Effect of Lake of the Woods regulation.....	248
"    "    "    "    Estimates of cost.....	246
"    "    "    "    Flooding.....	216
"    "    "    "    Foundation conditions.....	245
"    "    "    "    Head- and tailwater elevations.....	246
"    "    "    "    Ice conditions.....	246
"    "    "    "    Layout.....	248
"    "    "    "    Navigation.....	246
"    "    "    "    Pondage.....	246
"    "    "    "    Reach developed.....	245
"    "    "    "    Special considerations.....	243
"    "    "    "    Unwatering.....	248
Upper Seven Sisters Concentration.....	231
"    "    "    "    Discharge capacity.....	241
"    "    "    "    Effect of Lake of the Woods Regulation.....	319
"    "    "    "    Estimates of cost.....	248
"    "    "    "    Flooding.....	237
"    "    "    "    Foundation conditions.....	238
"    "    "    "    Head- and tailwater elevations.....	234
"    "    "    "    Ice conditions.....	238
"    "    "    "    Layout.....	238
"    "    "    "    Navigation.....	242
"    "    "    "    Pondage.....	237
"    "    "    "    Reach developed.....	234
"    "    "    "    Removal of weirs.....	237
"    "    "    "    Special considerations.....	244
"    "    "    "    Unwatering.....	242
Vermilion river.....	76
Wabigoon river, Run-off.....	75
Watershed, Winnipeg river.....	26
Water Supply Commission, City of Winnipeg.....	308
"    "    Diversion for Winnipeg.....	308
Weirs, Winnipeg Electric Railway Company (see Diversion weirs).....	66
Western Outlet of Lake of the Woods.....	28, 31, 318
White Dog rapids.....	74
Whitemouth river, Run-off.....	200, 201
Whitemud falls.....	93
White Otter or Big Clearwater lakes.....	265
Winnipeg, Cost of delivery of power to.....	287
"    "    History and growth of.....	290
"    "    Industrial development of.....	287
"    "    Market.....	16, 138, 320
Winnipeg Electric Railway Company Plant.....	138
"    "    "    "    Construction.....	142, 234, 217
"    "    "    "    Diversion weirs.....	320
"    "    "    "    Effect of Lake of the Woods Regulation.....	148
"    "    "    "    Flow required.....	148
"    "    "    "    Head available.....	146
"    "    "    "    Headrace.....	142
"    "    "    "    Historical.....	138
"    "    "    "    Installation.....	144
"    "    "    "    Power station.....	142
"    "    "    "    Transmission.....	147
Winnipeg municipal plant.....	16, 148, 318
"    "    "    "    Effect of regulation.....	318
"    "    "    "    Flow required.....	159
"    "    "    "    Forebay.....	152
"    "    "    "    Head available.....	157
"    "    "    "    Historical.....	148
"    "    "    "    Installation.....	155
"    "    "    "    Operation.....	159
"    "    "    "    Power.....	159
"    "    "    "    Power Station.....	152
"    "    "    "    Relation of Lake of the Woods Reference to.....	318
"    "    "    "    Scheme of development.....	150
"    "    "    "    Tailwater.....	250
"    "    "    "    Transmission.....	157
Winnipeg river basin, Control of run-off.....	207, Appendix II
"    "    "    "    Power Company.....	61, 64
"    "    "    "    Run-off.....	53
Winnipeg, Temperature records at.....	308
Winnipeg water supply.....	308
"    "    "    "    Board of Engineers.....	310
Woods, Lake of the (see Lake of the Woods).....
