

CANADIAN AGRICULTURAL EMPORIUM

Best Selected Stocks of good Quality and Growth

Choices Imported Seed from American and European growers

Agricultural SEEDS

AND Seed Grain.

WHEAT—

ODESSA WHEAT. This variety has not yet been tried at the Emporium. Sample good. All reports received are most satisfactory. It has been tested in Canada and found first class in all respects. Our stock has been imported from the Western States. It is a red, chaffed bald wheat.

BROOK'S WHEAT. Not yet tried at the Emporium. It is a bald, white, chaffed variety.

RED FERN. A bearded wheat, with long head, short grain, and very hardy; resists rust and yields well. It makes first class flour.

FARROW WHEAT. Yields well. Quality inferior. FIVE WHEAT, RED RIVER WHEAT, and BALTIC WHEAT at market prices.

We advise our patrons to try the new varieties. Although many other classes have been tried at the Emporium, the three first are highly commended. We do not commend the Common Red Chaff Wheat, for although it is good to yield the quality is poor. These new varieties, we believe, will be found preferable to the Red River, Rio Grande, and many other well known sorts.

OATS.—AUSTRALIAN. A white oat of good quality. They gave great satisfaction to those that raised them the past season. First quality. Second quality.

BLACK TARTAR. Imported. BLACK POLAND. The blackest of all oats.

PEAS.—CROWN PEAS, a variety of good quality, GOLDEN VINE, BLACK-EYED MARROWFAT, WHITE MARROWFAT, at market prices.

POTATOES. SNOW FLAKE—One of the finest potatoes known. EXTRA EARLY VERMONT—Very good. BROWNELL'S BEAUTY—Good and hardy. COMPTON'S SURPRISE—Most excellent quality. LATE ROSE—Good cropper. EARLY ROSE—Surpassed by the above varieties.

Forty varieties were tried last year on the Emporium land, many of which are very high priced by some dealers, and the majority of them we cannot commend. The above named varieties were grown by us, and we safely recommend them as being really good and deserving cultivation.

ORCHARD GRASS.—Finest imported, per mail, free; best, 40 cents per pound. By rail or express, 30 cents per pound. This is a highly valuable grass for general cultivation.

CLOVER.—Alfalfa, or Chilian Clover, 50c per lb.; Lucerne, 30c per lb.; Bokhara, 40c per lb.; Trefoil or yellow, 25c per lb.; White Dutch, 40c per lb.; Sugar Cane, 50c per lb.
