## FOR CONCRETE ROAD PAVEMENT, WALKS, BUILDING FLOORS, ETC.

We are the *originators* of this wire reinforcement in flat sheets, and it is coming into universal use wherever introduced. We have supplied many carloads of it this past season.

The standard mesh for road pavement is 6 x 12 inches; for bridges and building floors, the standard is 3 x 6 inches. Also, other meshes as desired. All sheets 4 feet wide, and any length specified that can be loaded in cars.

Samples will be sent upon request.

We also supply Iron Fire Escapes, Iron Fences, Office Wire Work, and all kinds of Builders' Wire and Iron Work.
