## ALCOHOLISM IS A CURABLE DISEASE.

The treatment for alcoholism which is represented in Canada by the Rev. H. C. Dixon is a certain cure for all the evils which arise from the use of liquor. Positively no bad results—a home treatment, and much less expensive than going to an institute. It is within the reach of all. That it is a disease is beyond question and should be treated as such. The Hon. L. S. Coffin, known all over the United States for his work among the intemperate, wrote a few days ago and said: "It is the only sure scientific cure I know of; I have seen it lead a man at many times and have never known it to fail." The Canadian cures are already growing in numbers, and not a complaint has been received.
