WOULD respectfully call public attention to the large and complete assortment of Rosewood and Managany Plano-FONTES, which he is now offering for Bale at his WARE-ROOMS; they consist of the Harmonic, Grand Square and Cottage Style, six, six and a-half, and seven Cetawas, with Metallic Frames.

These Instruments being of his own manufacture, he has no hesitation in saying, that, in brillinacy and volume of tone, durability of work-manship, and excellence of finish, they are inferior to more imported into this Province.

From greatly increased facilities for manufacturing, he begin leave to state, that the above Instruments will be field at a great reduction from former prices; and that all orders for Pianos, Charch, Parlour Reed Organs, Eolophone, and Harmonicons, of any size and capacity, will be executed with promptunes, and warranted to give entire satisfaction. He has just finished a few beautiful and fine-toned Melodeous, in Rosewood and Mahogany cases, from four, four and-a-half, of two Octaves—to the inspection of which he would invite the Musical Connoisseurs of Montreal.

THESE truly valuable WATERS are distinguished for the large quantity of Bromine and Iodine they contain, and are acknowledged superior to all other Medicinal Waters. They are the most agreeable refreshment of the description that have yet appeared. They can be used cold to the greatest degree in the most oppressive heat of Summer, and that without altering or affecting injuriously the health of the gerson using them; upon the contrary, they are found to improve and attengthen. RIVIERS DES PRAIRIES, March 1, 1850.

SIR.—Since you are desirous to ascertain the effect which the Waters of the Point du Jour Springs have produced on myself, I must inform you, that I have med them medicinally at their Source, and have found them highly adubtious. I was at the time to affected by the consequences of a severe disease of the Digestive Organs, that my Physician judged it right to suspend for a time all active remedies, even for the expression of Dyspepsia and an absolute Retention of the Bowels, under both of which I was suffering severely. He prescribed for my relief the Mineral Waters, and I made use of those of the Point du Jour, as being the nearest. I was at the time so weak, that it was with difficulty I kept my feet. However, at the exprasion of three weeks, I was reasored by using the Waters. These Waters are of a paseous nature, containing a large quantity of saline particles, and agrecable in the taste—taken in a large does they are strongly laxative, but their pugative properties are unsitueded with gripings,—thous even who have been using them have not been weakened or enervated in their constitution in consequence; upon the contrary, by using them they find their appetite increased, and their digestion readered mora regular. After a dose of 3 or 4 four glasses, I found that they had the effect of increasing the urinary secretions at first, and that these decreased in the same proportion that the alvine secretious increased, The action of the servous and sanguarry systems were thereby moderately augmented, and, instead of finding myself unrouse and salety. The Proprietors have their Depot established at No. 6, Jacques Cartier Place, next door to the Hotel of Serafino Giraldi, Esq. The distance for conveying the Waters to the Depot is so trifling, that we are enabled to have a constant supply fresh, and are consequently in possession of a better market than any other person. LET THOSE WHO SUFFER TRY 1T?

It will prove itself in a few minutes. As soon as it is taken internally, or applied externally, its beneficial effects are seen. It is better than all other remedies.

HERE IS THE PROOF.

There is no other remedy that chaims to subdue the cruel pangs of pam in seconds, minutes, or even hours. They require the patient to use does after does better a favorable change is promised. Not so with Radway? Ready Relief, Its effects are instantaneous; the first does that in asken; or the first external application com-

nees its great work of relief from pain.

BEAR IN MIND,

mences its great work of relief from pain.

BEAR IN MIND,

That Radway's Ready Relief will cure either of the above-mentioned Diseases in one-tenth the time it takes any other Remedy to give even Partial Relief.

This sentence is constantly in the mouth of every person, in order to explain certain; complaints. Those who use it often, we think, have but a faint idea of its precise meaning. We will offer an explanation, which we believe to be the opiation of a majority of the most learned physicians. A person, for instance, has been over exerting any particular set of muscles—of the throat, from violent speaking—of the loins, by too much stooping or bending, or these or any other part of the body; these parts or muscles are, consequently, weakened and relaxed, and become a fair prey for any disease. The person who has been thus acting, accidentally or otherwise, exposes himself to the cold air, the perspiration immediately ceases, and the blood, which had been but just now circulating rapidly throughout the surface of the body, is repelled in-wardly, and is sure to settle in those parts which have wardly, and is sure to settle in those parts which hav-been previously wearied and reluxed. Here, then, we have an accumulation of blood, a compession, which give rise to all the pain and stiffness attendant upon such com-plaint. When this takes place in the throat, we hav-what is called Sore Throat; when in the loins, Lumbage or Stiff Hack; when in the chest, Pleurisy. We also have it in the shoulder-blade, side, and other parts. RADWAY'S READY RELIEF,

RADWAY'S READY RELIEF,
Taken Internally and applied Externally.

Its first action, when freely applied, is to blunt the acute sensibilities of the nerves, and almost instantly relieves the pain; its secondary action is to excite perspiration, and redden the parts over which it is applied almost to a glow, thereby determining the blood from the injured parts to the surface. In these cases, the READY RELIEF should be applied freely, as the same time rubbing the parts with a piece of flaunel, and it will be found in every case to give immediate and permanent relief.

N.E.—If convenient, a piece of flaunel saturated with the RELIEF, and tied or pinned around the parts, does good service.

good service, as ABAD COUGH CURED IN TEN MINUTES, ABAD COUGH CURED IN TEN MINUTES, AF, Rigdon, of Brooklyn, the celebrated Church Sing and Organ-Player, on the night of the 10th of Decembers was attacked with a severe fit of coughing—so that coughed from 9 o'clock until 12 o'clock, P. M., with three minutes intermission. One of the Clerks of Ra way & Co., who sleeps in the next room, got up and gave him a tea-spoonful of the Relief internally, and buthed his throat, neck, and chest; he also saturated a piece of fiannel with the Relief, and lad it over his chest. In a few seconds the coughing ceased, he could expectorate freely, and raised with perfect case a great quantity of phlegm. The Relief instantly acothed the irritation of the throat and chest; and in the irritation of the throat and chest; and in ten minutes he was entirely free from pain, and such into a cound and pleasant sleep. In the storaing he was free from hourseness and cough, and has not been troubled since. Let every individual who is troubled with a cough, sore throat, infinences, or hourseness, pursue the same plan, and we will warrant them a speedy cure.

If you have a stiff joint, a wrenched limb, a swelled leg, a bruise, or any thing short of a broken bone. Madway's Ready Relief will cure you. The isma have been reasoned to the free use of their limbs by \$ few applications of the Relief. The cripple, who has imped from spot to spot upon his crutch, has been relieved of his painful afflictions, and unabled to stand creet, as God designed that Man should stand, by a few times using the Relief.

AGE VERSUS VOUTH.

Badway's Ready Relief renews the trager of youth in old age. The old man of seventy is invigorated by its attempthening and exhibitrating effects; it is avoided by its strengthening and exhibitrating effects; it is avoided by its surroughes to life—the heavy and languist motion of the functions of the body is quickened to a leastly eclionated the hitherte dull and mepish old man becomes gettive and vigorous in old age, and his tile prolonged to the full number of his days.

FOR ALL PAINS,
Whether internal or external, take Radway's Relief, or apply it externally, it will releave pain and care disease quicker than any numedy in use.

HERUMATISM CURED IN TWO HOURS.

Mr. Jones, of Clifton, Va., writes s—A hely in this place has been confined to her room for four manish with Resumsting; also purchased a bottle of Radway's Realy Kellef—in two hours she was take for Radway's Realy Kellef—in two hours she was take for Radway's Realy Kellef—in two hours she was take to leave the room, and in the evening the walked out.

These Medicines have now been before the public for a period of FIFTREN YRABS, and during that time have maintained a high character in almost every part of the globs for their attractionary and immediate power of restoring period boolth to pursons suffering under nearly every kind of disease to which the humer frame is liable. IN MANY THOUSANDS

of certificated instances, they have even rescued sufferent from the very verge of an untimely grave, after all the decaptive neutrums of the day had utterly failed; and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a partial blessing. So great, indeed, has their efficacy invariably and infallibly proved, that it has appeared scarcely less than miraculcus to those who were acquainted with the beautifully philosophical principles upon which they are compaunded, and upon which they consequently act. It was to their manifest and consible action in purifying the springs and channels of life, and enduing them with renewed tone and vigor, that they were indebted for their name.

and channels of life, and enduing them with renewed tone and vigor, that they were indebted for their name.

Unlike the host of paralcous quackeries which heast of vegetable ingredients, the LIFE MEDICINES are purely and solely vegetable; and contain neither Mercury, nor Antimeny, nor Arsonic, nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmacoutical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before administered in so happily efficacious a combination.

The first operation is to lossen from the coats of the stomach and bowels the various impurities and crudities constantly settling round them; and to remove the hardened faces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind to produce habitual Costiveness, with all its train of evils, or sudden Diarrhoa with its imminent dangers. This fact is well known to all regular anatomists who examine the human bowels after death; and hence the prejudice of these well-informed men against the quack medicines of the age. The second effect of the VEGETABLE LIFE MEDICINES is to cleanse the kidneys and the bladder; and, by this means, the liver and lungs, before a passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, not more freely through the veins, ronews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

The following are among the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be infailible:

DESPENSIA, by thoroughly cleansing the first and second descretely and creating a flow of mure

lible:

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind; FLATULENCY, Loss of Appetite, Heartburn, Headacas, Restlessness, Ill-temper, Anxiety, Lenguer, and Melancholy, which are the general symptome of Dyspepsia, will vanish, as a natural consequence of its cure.

Costiveness, by cleansing the whole length of the intestiner with a solvent process, and without violence: all violent purges leave the bowels costive within two days.

within two days.

Diar see and Cholera, by removing the sharp acrid fluids by which these complaints are eccasioned, and by promoting the lubricative secre

tion of the mucous membrane.

Fevers of all kinds, by restoring the blood to a egular circulation, through the process of perspi-suon in such cases, and the thorough solution of

all intestinal obstruction in others.

The Life Medicines have been known to cure RHEUMATISM permanently in three weeks, and GOUT in half that time, by removing ocal inflammation from the muscles and

of the joints.

Dropsies of all kinds, by freeing and strengthening the kidneys and bladder: they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the on of GRAVEL Also Worms, by dislodging from the turning of the bowels the slimy matter to which these

of the bowels the slimy matter to which these creatures adhere.

Asthma and Consumption, by relieving the air-vessels of the lungs from the mucous which even slight colds will eccasion, and which, if not removed, becomes hardened, and produces these dreadful diseases.

Scurvy, Ulcers, and Inveterate Scres, by the perfect purity which these LIFE MEDICINES give to the blood, and all the humors.

Scorbutic Eruptions and Bad Complexions, by their alterative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of SALT RHEUM, and a striking improvement in the clearness of the skin-COMMON COLDS and INFLUENZA will-always be cured by one dose, or by two even in

the worst cases.

PILES. As a remedy for this most distressing and obstinate malady, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well known to hundreds in this city, that the former proprietor of these valuable Medicines was himself afflicted with this complaint for upwards of "MIRTY-FIVE TRARS; and that he tried in vain every remedy prescribed within the whole compass of the Materia Medica. He however at length tried the Medicine which is now offered to the public, and he was cured in a very short time, after his recovery had been pronounced not only improbable, but absolutely impossible, by any human means.

FEVER AND AGUE.

For this scourge of the western country these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these medicines is permanent—TRY THEM, BE SATISFIED, AND BE CURED.

HALSEY:-I believe your Wine and Pills have been the means of saving my life. When I commenced taking them, I had at the point of death, with Dropsy, Piles, a ma. My Physicians had given me over a pic-cure, and my family had lost all hope of my re-covery. While in this direction station, your Forest Wine and Pills were procured for me, and before I had fainshed the first bottle of the Wice, and box of Pills, I experienced great relief; my body and limbs, which were greatly snoiles, became sensitly reduced. Hopes of my recovery began now to revive, and after continuing he use of your medicines for about a mouth, the fries and Asthma were completely cured. The Diopsy, with which my life was placed in such great da ger, was also nearly gone. I have continued the use of your Medicines until the present time, and I now enjoy as perfect health as ever I do m my life, although I am more than sixty years of age.

I ascribe my recovery entirely to the use of your excellent Medicines. Several of my sections have also used them with similar success in obstinate complaints, and I can cheerfully recommend them to the public.

N. MATHEWS. Yours, respectfully, Newark, Dec. 19, 1847.

But, what a pity it is that the decenion used by others should be the means of dissuading many laboring under disease, from making trial and being many labor to the means of the m many laboring under disease, from making our and being cured by your excellent remedies. Humanly speaking, they have saved my lie; when I commenced making use of them, I was a wretched conduit. Would to God that every poor sufferer would avail himself of the same remedies!
