 his pastor. I received and enjoyed his  
 affectionate friendship.

**Tragedy of a Farm**  
 A domestic tragedy involving the  
 death of a man who first attempted  
 to murder his wife is reported from  
 King's Lynn.

Robert Greenacre, a North Run-  
 ton farmer, who was lodging with  
 his wife and three children in Lynn,  
 had been despondent of late. On  
 Tuesday night Mrs. Greenacre was  
 putting her seven-year-old son to  
 bed when her husband entered the  
 room with a revolver. The revolver  
 was fired twice, one bullet striking  
 Mrs. Greenacre on the right jaw  
 the other missing her.

The terrified woman and her child  
 rushed downstairs, and police officers  
 who entered the room later found  
 Greenacre dead with his throat cut.  
 Mrs. Greenacre is not dangerously  
 wounded.

**EAST INDIANS ARE SAID TO BE IN REVOLT**

**Serious Uprising Feared in the Union of South Africa.**

**Authorities Are Afraid Disorder May Break Out Any Time.**

[Canadian Press Despatch]  
 DURBAN, Natal, Union of South Africa, Nov. 18.—The strike of East Indians spread to-day right along to the south coast and practically every workman of that race in Natal had laid down his tools this morning. The atmosphere was, however, not so much disturbed as it had been yesterday, the white women and children having overcome their first paroxysm of fear, but the authorities consider it possible that disorders may break out at any moment, as serious allegations are being made concerning the ill-treatment of the strikers in their compounds, all of which stories are believed by the East Indians.

One East Indian died in the coal mining town of Dundee some twenty miles north of Ladysmith, which was besieged so long by the Boers in the late war. It is alleged that the man's death was brought about by flogging and this with the arrest of about 2,000 of their nationals for defiance of the federal law prohibiting the emigration of Asiatics from one state to another of the Union of South Africa has greatly excited the East Indians, of whom there are many thousands in Natal, and the other colonies of South Africa.

In order to draw the attention of the imperial government to this condition of things, these men had marched across the Transvaal border from Natal and most of the East Indians have refused to pay the poll tax of \$15 per head imposed on all 18 years of age.

The East Indians are practically all the labor in Natal including the farms, the railroads, the sugar, tea and wattle plantations, and the mines and most of the mechanics and domestic are East Indians a general strike of the men of this race throughout South Africa would tie up all the industries. In Natal alone there were according to the census of 1911 over 100,000 East Indians and other Asiatics while in the other colonies there are many thousands more.

The government is disinclined to declare martial law as the employment of imperial troops for the suppression of the trouble among the East Indians would be likely to cause a movement of discontent in British India where the people already are considerably irritated over the treatment of East Indians in the British colonies.

**Started Robbery**  
 LADYSMITH, Natal, Union of South Africa, Nov. 18.—About 1,000 East Indians started rioting here this afternoon, and claiming as British subjects equal rights with white men. The mounted police finally dispersed the mob, but the East Indians appear to be dangerously inflamed. The disaffection is regarded here as so grave that a force of armed townsmen is being enrolled and the police are being provided with revolvers.

**Bandit Had Merry Time**

[Canadian Press Despatch]  
 SAN FRANCISCO, Nov. 18.—For more than an hour last night a masked highwayman was in complete charge of the mail car on the Southern Pacific's Shore Line Limited No. 77 from Los Angeles between San Jose and this city while the three mail clerks lay on the floor bound with ropes and their heads covered with sacks.

The bandit carefully helped himself to all the registered mail going through the letters and packages and discarding the money orders and other articles which he did not want.

The robber entered the side door of the mail car as the train was leaving San Jose for San Francisco. It runs from San Jose to San Francisco without a stop. Until the train reaches the outskirts of the city, the man engaged in rifling the mail and keeping up a running conversation and warnings to the three helplessly, the clerk good night, jumped from the car and escaped.

The amount of the robber's booty could not be learned.

**THE WORST.**  
 Patient—Doctor, I must positively insist upon knowing the worst.  
 Doctor—Well, I guess my bill will be about \$83.

**Bandit Had Merry Time**

[Canadian Press Despatch]  
 SAN FRANCISCO, Nov. 18.—For more than an hour last night a masked highwayman was in complete charge of the mail car on the Southern Pacific's Shore Line Limited No. 77 from Los Angeles between San Jose and this city while the three mail clerks lay on the floor bound with ropes and their heads covered with sacks.

The bandit carefully helped himself to all the registered mail going through the letters and packages and discarding the money orders and other articles which he did not want.

The robber entered the side door of the mail car as the train was leaving San Jose for San Francisco. It runs from San Jose to San Francisco without a stop.  age: "Well sir, when you have pages you must expect leaves."

**Britain Has A Great Aero Gun**

[Canadian Press Despatch]  
 NEW YORK, Nov. 18.—A cable from London to the Herald says: Great Britain has acquired what the War Office considers the ideal aeroplane gun. It is the latest model of the air-cooled, gas-operated Lewis rifle, already experimented with by the United States army.

Firing upwards of one thousand shots a minute, it is to be made a weapon of offence for aeroplanes in the British service. An unofficial test of the new gun is to be made at the Bisley range on November 27.

The aeroplane gun invented by Col. Isaac N. Lewis was first successfully tested at College Park, Md., in April, 1912. From the simple experiment of seeing one officer pour service rifle bullets into targets while travelling fifty miles an hour, aeroplane strategists foresee that armed forces below will be at their mercy. The effectiveness of the fire remained one of a gatling playing a hose on a jower bed.

The gun weighs only fifty pounds and shoots with no recoil or flame. The gun has an automatic air-cooling device whereby the barrel is kept continually cooled by a blast of air and after a certain temperature is reached increased rapidly of fire tends to reduce the temperature.

**Wreckage From Hydrus Washed Up at Pt. Elgin**

**Theory is that Crew of the Missing Steamer Had No Time to Put Lifebelts on—Close Search of Lake Huron to be Made.**

GODERICH, Nov. 18.—Lake Huron was in an ugly mood yesterday, and frowned on the plans of humanity to scour her waste spaces for the bodies of her victims. The patrolling trip to be made by the Government vessel Lamton and the tug Horton had to be postponed, due to the rough water stirred up on the lake by a 30-mile gale from the south-west. It was not in any sense dangerous weather, but the authorities came to the conclusion that it would be useless to operate with other than reasonably calm weather.

If the swells have moderated during the night a start will be made by the two search steamers to-day. The intention is that the Lamton shall steam 22 miles out from the mouth of the harbor and the Horton 16 miles. Both boats will then turn south and follow the short line as far as Kettle Point, about 35 miles down the lake from here. Then they will turn about and come north at distances of ten and six miles from the shore. When the trip

**ASQUITH'S OFFER OF A COMPROMISE**

**Is to be Submitted Only as a Basis of Discussion.**

LONDON, Nov. 18.—Although there is no official confirmation of the report that the government is about to offer a compromise to Ulster on the Home Rule Bill, exempting that province from the Act for a term of years, it is generally regarded that the report is close to the mark. It is understood, however, that it is to be submitted only as a basis for discussion, and present indications are that its acceptance is very unlikely.

The Nationalists look upon the plan as impairing the idea of Irish unity, and the Unionists feel that the temporary respite will not remove their objections to the bill.

John K. Redmond, the Nationalist leader, said in a speech at Northampton yesterday that his party would welcome a settlement by consent, but he added, "we are not going to sacrifice in the moment of victory the fruits of our long battle."

An appeal is published this morning from the British League to support Ulster. The league calls for recruits to help the Orangemen fight for the preservation of the union with England if the Liberal government refuses to appeal to the country.

"We want men who have been trained to bear arms and accustomed both to command and to obey," the appeal says. It is signed by many prominent Unionists, including the Duke of Bedford, Admiral Lord Charles Bessford, Viscount Castlereagh and Viscount Lewisham.

**Good Work Sum of \$3,000 Raised in Short Time for Lake Sufferers.**

[Canadian Press Despatch]  
 WINNIPEG, Man., Nov. 18.—A well attended meeting of the exporters and elevator men held in the Grain Exchange yesterday afternoon, a committee of five, of which President Godfrey is one, was appointed to go through the building and solicit subscription for the general fund to be raised by the Dominion Marine Association for the benefit of the widows and orphans of the victims of the great lake disaster. By six o'clock a committee had collected \$3,000 and not more than half of the building was covered. The collection is continuing.

**Canadian Mormons Assessed \$70,000**

[Canadian Press Despatch]  
 SALT LAKE CITY, Nov. 18.—About \$70,000 was the amount set by the Canadian president of the Mormon Church here yesterday as representing the tithe of the Mormon residents of Canada. Tithes are paid to headquarters at Salt Lake City, Utah, and no questions are asked as to what is done with the money. It is estimated there are 7,000 Mormons resident in Alberta.

**AGREEMENT RATIFIED**

TORONTO, Nov. 18.—John McKay & Company, firm of auditors retained by Mayor Hocken to report on advisability of Toronto purchasing the street railway and T. E. L. at prices quoted by Sir William Mackenzie, has presented his report. It is an almost unqualified endorsement of the proposition providing the contracts for power can be renewed. The report is able to be an important factor in a fierce controversy which is now being waged in the city for and against the deal. If Hon. Adam Beck endorses the deal it will probably be submitted to the ratepayers in January. The price asked for the two franchises and rolling stock, etc. is \$30,000,000.

**WAITING GAME IS NOW BEING PLAYED**

**Latest Phases of Mexican Crisis Discussed To-day.**

**Blockade of the Mexican Ports by U. S. Not Decided On.**

[Canadian Press Despatch]  
 WASHINGTON, Nov. 18.—President Wilson and the cabinet met to-day and discussed the latest phases of the Mexican situation. Overnight developments apparently brought no change, but keen interest was shown in the organization of the new Mexican congress. Some officials were inclined to believe that body would heed the warning of the United States and take no action on concessions.

Talk of a blockade of Mexican ports was revived, but high officials said such a step had not been determined upon. Many moves are under consideration, but foremost advisers of the administration are counselling patience, while the constitutionalists pursue their campaign.

The report that Carranza might need to have the embargo on arms lifted to ensure his success, strengthened the conviction of many officials that such a step would be taken only in a remote contingency. Confidence prevailed that the United States might wait a few days for the full effect of the recent constitutionalist victories and for the attitude of foreign governments to become more emphasized.

**MAIL SENTENCES AND HARD LABOR**

Toronto Hard Book Men Were Summarily Dealt With Today.

[Canadian Press Despatch]  
 TORONTO, Nov. 18.—Magistrate Kingsford gave the handbook agents in Toronto a hard blow and a severe warning this morning when he imposed sentences on A. J. Allen, Fred Whyte and Clarence Helliwell, who were arrested in connection with the case of A. J. Denison, the Massey-Harris employee, who was convicted of stealing \$27,000 from the company and which he claimed was lost in betting. Allen pleaded guilty through his counsel to taking Denison's money though he claimed he thought it was money of a syndicate of bettors and that he didn't know Denison was in the deal. There was about \$8,000 in transactions passed through Allen's hands and he got a sentence of six months and a fine of \$500 or six months. If the fine is paid he goes to the reformatory for twelve months. Whyte claimed to be an employee and just carried the money to and fro, was fined \$100 and six months and he paid his fine. Clarence Helliwell was the last of the trio. He took the bets from Whyte and although his counsel claimed that the magistrate had not the power to try the case summarily, he was found guilty and given six months and a fine of \$500 or an additional six months.

**ONCE SECTIONMAN, BECAME PRESIDENT**

[Canadian Press Despatch]  
 WINNIPEG, Nov. 18.—Assistant City Engineer Russell D. Wilson was elected yesterday afternoon, while on a trip off inspection over the city pipe line six miles north of the city. Mr. Wilson seized hold of a live wire carrying 13,000 volts. It is not likely that an inquest will be held into the death by accidental electrocution of the assistant engineer. Last night the city council met and passed a resolution expressing profound regret and adjourned out of respect. Wilson was 34 years of age and born at Sharon, Ont. He came to Winnipeg twelve years ago and has been assistant engineer for five years. He was a graduate of Toronto university.

**RESUMED PRACTICE**

The many friends of Dr. Keane will be glad to hear that he has regained his health and is now engaged in actual practice. Office, George St. opp. the market.

**EXPLAINED AT LAST**

"Now they claim that the human body contains sulphur."  
 "In what amount?"  
 "Oh, in varying quantities."  
 "Well, that may account for some girls naking better matches than others."

**Stefansson Lost In Arctic Sea**

[Canadian Press Despatch]  
 NEW YORK, Nov. 18.—The New York Sun publishes the following special from Seattle, Wash.: Vilhjalmar Stefansson, Arctic explorer and discoverer of the white Eskimo, who was aboard the steamship Karluk when that vessel was last sighted off Flaxman Island on August 14, possibly is lost, as is the vessel and all of her people.

Nothing has been seen or heard of the Karluk since that date, despite the fact that an extensive search has been made for her. Whalers say there is little hope of her ever being discovered, as she is known to have encountered the heavy weather which prevailed off the Alaskan coast early in October. This is the opinion of members of the Canadian Arctic exploration party at Collision Point, according to a despatch received from Fairbanks to-day.

Stefansson left Victoria last summer with an expedition, outfitted by the Canadian Government, to make explorations and scientific research along the northern coast of the American continent.

Last Word Heard.  
 OTTAWA, Ont., Nov. 18.—The last word the naval department here had of the whereabouts of the Karluk was in a telegram from R. M. (Continued on Page 3)

**Mayor Hartman Favors Grant by City Council**

**In Connection With Relief Fund—Subscriptions Are Coming in—Sum of \$20,000 Subscribed**

Subscriptions are beginning to come in to Mayor Hartman for the relief fund for the sufferers from the recent lake tragedy. His Worship acknowledged this morning contributions as follows: W. F. Cookshutt, M.P. \$25; a sympathizer, \$5. The Mayor added his own gift of \$10 to the fund and opened up a special account in the Bank of Hamilton.

A telegram was received from Secretary Gildersleeve in Toronto this morning as follows: "General appeal for Destitution

Fund of Canada well received and supported by public. Have about \$20,000 subscribed for the \$50,000 required. Many churches in this locality are taking up Sunday collections, also theatres and moving pictures are giving receipts."

Mayor Hartman thinks the suggestions are good ones, and should be adopted here. He is also strongly favorable towards the city council making a grant. Berlin granted \$100, and the Mayor thinks that Brantford should do better.

**And Now the Jews Are Next**

[Canadian Press Despatch]  
 MONTREAL, Nov. 18.—If the law of Quebec can be invoked to effect a decree of the Roman Catholic Church annulling a marriage, then it should be available to quash the wedding of a Jew married in contravention of Hebrew religious law. It is the point that will be made when the application of Samuel Kaplan for an annulment of his marriage comes up for argument. Kaplan contends he violated the law in his church which forbids persons of one tribe marrying with a person of another tribe, and that the union has been duly annulled by a rabbi.

**Will Improve The Church**

At the annual congregational meeting of the Congregational church to be held late in December, plans for improvements to the church will be submitted for the approval of the congregation. A committee has the matter in hand, and will recommend the placing of stone steps at the front of the church, the installation of a modern heating system, that the interior be decorated, and it is quite likely new windows will also be recommended. This work would be proceeded with at the earliest possible date, and it is likely that Seward & Sons will do the work. The Sunday school was recently greatly improved.

**An Engineer Electrocuted**

[Canadian Press Despatch]  
 WINNIPEG, Nov. 18.—Assistant City Engineer Russell D. Wilson was electrocuted yesterday afternoon, while on a trip off inspection over the city pipe line six miles north of the city. Mr. Wilson seized hold of a live wire carrying 13,000 volts. It is not likely that an inquest will be held into the death by accidental electrocution of the assistant engineer. Last night the city council met and passed a resolution expressing profound regret and adjourned out of respect. Wilson was 34 years of age and born at Sharon, Ont. He came to Winnipeg twelve years ago and has been assistant engineer for five years. He was a graduate of Toronto university.

**SHOT HIMSELF**

QUEBEC, Nov. 18.—Seymour Blanchet, aged 34, son of the late Judge Blanchet, of the Quebec Superior Court, and grandson of the late General Seymour of the United States Army, shot himself in the head at the residence of his mother, Madame Blanchet, 45 Genevieve Avenue this morning. Little hope is held out for his recovery.

**THIS WAS EASY**

MONTREAL, Nov. 18.—Ferdinand Jasman, St. Laurent, who cut off the tails of twenty-four cows in order "keep the milk clean" as he said, has been fined \$10 and costs by Judge Lafontaine in the police court.

**DOOR OF VAULT REFUSES TO OPEN**

**London City Treasurer is Very Much Up in the Air.**

**Mechanics Even Cannot Get the Big Vault Open.**

[Canadian Press Despatch]  
 LONDON, Ont., Nov. 18.—With over \$700,000 city bonds, delivery of which was contracted for last Saturday and with several thousands dollars in cash locked away in its innermost recesses, the huge five ton safe in the office of the city treasurer has defied the efforts of Treasurer Bell, his assistants and a corps of locksmiths to open. For four days a gang of men from the works of the manufacturers have been drilling the burglar-proof doors. Sixteen drills have been broken in an effort to open the safe and it still defies the efforts of the mechanics to open.

It was Saturday morning when the combinations of the safe went wrong. Over \$700,000 in city of London bonds, purchased by a Toronto bond house were locked in an inner drawer. The contract for their sale called for delivery Saturday afternoon. Naturally this contract has not been fulfilled. Saturday and Sunday expert locksmiths attempted to get the "numbers to work right" with no avail. As a last resort the manufacturers were wired by the city treasurer a gang of men from the safe works arrived with the necessary drills and tackle. Since 1 p.m. yesterday they have been at work and have as yet only succeeded in drilling a few inches of the inner doors.

**Two Years For McEwen**

**Man Who Broke Into Wm. Kendrick's House at Paris.**

PARIS, Nov. 18.—Rev. Mr. Norwood of Memorial Church, London, Ontario, filed St. James' Church to the doors on three occasions on Sunday. His eloquence and earnestness were such that one hearing him in the morning returned for both later services. Several hundred people had to be turned away in the evening, the church being filled to the doors fully a quarter of an hour before the services were to commence. The new surplice choir was also instituted on Sunday.

Albert McEwen, who was convicted a week ago of housebreaking at the residence of Mr. Kendrick on the Flats, was yesterday sentenced by Magistrate Patterson to 2 1/2 years in Central prison. McEwen had several previous convictions.

These passed away in St. Joseph's Hospital, Hamilton, on Sunday morning. Miss Amelia Bruskey, daughter of the late Joseph Bruskey of Paris, and sister of Mrs. Thomas Flahiff. The remains have been brought to Paris, and will be interred this morning at 9.30 in the Roman Catholic cemetery. His Lordship Bishop Dowling of Hamilton will celebrate solemn requiem high mass in the Church of the Sacred Heart prior to the funeral services.

**Hydro Work Progresses**

The Hydro Electric system is steadily being installed. The Courier was informed this morning that all the conduits in the lower floor at the Greenview street station are laid, and the piping under the flooring is being laid to-day. The concrete floor will be finished to-morrow. The glazing is about finished. The painting is yet to be done.

Splendid progress is being made in laying the cable on Market street. Mr. Ireland said this morning that one of the foremen had laid a wire map on the sidewalk on Marlborough street, between George and Charlotte streets. When the foreman looked for the map it was gone. The department would like it returned.

**SENSIBLE VERDICT**

TORONTO, Nov. 18.—Haines, a passenger travelling from Guelph to Prescott on the G. T. R. was put off at Whitby by the conductor because he lost his hat check and the conductor did not know he had lifted his ticket. Haines sued and recovered \$250 damages. The appellate division court has just confirmed the award, dismissing the railway's appeal.

A seven year old girl was killed by an automobile.
