Saturday, September 9th, 1916.

THE SITUATION

The Balkans are once more very much in the limelight and a tremendous battle is raging on the Southern Roumanian front. The Bulgarians reinforced by Austrians and Turks are marching in two columns and have taken two fortified border positions, while the main portion of the Roumanian army has been invading Transylvania.

On the Verdun front it has become a case of the hunter hunted, or as a despatch from there puts it, the flame which the Crown Prince kindled, is surging back on himself and his forces. The troops of the Czar continue to hammer away near Halicz.

Announcement is made that the second Canadian war loan will be for one hundred million dollars and will run for fifteen years on the same terms as the first loan. It is not so much a patriotic duty, but a distinct monetary advantage for Canadians of all classes to subscribe.

SAYING FAREWELL.

The Duke and Duchess of Connaught and their daughter, Princess Patricia, are paying a series of farewell visits in the Dominion before their departure for the Old Land.

When the appointment of His Royal Highness to the post of Governor-General was first mooted, misgivings were expressed in certain quarters with regard to the pomp and vanity which might thus become associated with Rideau Hall. Those who made such criticisms little knew of the common and domestic sense which has fortunately characterized members of the reigning British House.

Let The Experience Teach—The truth is that we have none of us known ourselves what we were capable of under the stress of war until we tried. Two years ago it would have been considered a total impossibility that this country could have between four and five million of men serving in Army and Navy, and millions more occupied solely in munitions and in construction and repair for the Navy, without bankrupting the country and bringing civil life to a standstill.

And that which can be said of him also applies in large measure to his consort and daughter, who have during their stay in Canada shown infinite grace and tact. The people of the Dominion have been proud to have them and will sincerely wish for all three many years of mutual happiness together.

CHIC HAT AND SMART COLLARETTE FOR AUTUMN WEAR.

Lovely new Smolin "Blue Bird" model of the new shade of cerise panna velvet with facing of Alice Blue. Shirred Tam-o-Shanter crown and ornaments of jet, and collarette of Kelinsky and ermine adds to the attractiveness of the hat.

NOTES AND COMMENTS

London, for the year, shows a decrease in population of 754. The large number of enlistments accounts for the falling off as in other places.

The decision of the Brantford druggists not to handle liquor even on prescription, raises the question of what local doctors will do in those cases in which they deem such a necessity, for alcohol, from a medical standpoint, has its uses as well as abuses.

Sarah Bernhardt is about to make another farewell tour of the States. She does that about as often as the Emperor of Austria is reported to be dying.

This is what Judge Prendergast, himself a Liberal by the way, had to say in his charge about the chief witness against Sir Rodmond Roblin and the rest of the accused Manitoba Ministers:

"As to the credibility of Horwood's evidence, the jury would have to consider how it was the change came about in Horwood's attitude. It was stated by the crown that he had become disgusted with the whole thing, and the defence had put the matter in another way. It was for the jury to consider what his motives were, and how it was he had come to take the stand he had taken in view of the statements he had made before the public accounts committee. While nothing had been said against Horwood's character prior to the sitting of that committee, there was obviously no doubt that he perjured himself before the public accounts committee. Whatever his motives were, he perjured himself before that committee with respect to the Salt books."

THE WORLD'S PRESS

GERMAN BUYERS BUSY—Philadelphia Ledger:—The amount of German buying in the United States is immense, but very few people know it. A Philadelphia manufacturer told me only a week ago the story of a bank loan of \$1,000,000. This cash was borrowed to pay for wool purchased by a German, which wool is to be kept stored in South America until the war is over. That is merely a sample. Cotton and other American raw materials, including copper, have been bought in vast quantities and paid for with good American cash.

Let The Experience Teach—The truth is that we have none of us known ourselves what we were capable of under the stress of war until we tried. Two years ago it would have been considered a total impossibility that this country could have between four and five million of men serving in Army and Navy, and millions more occupied solely in munitions and in construction and repair for the Navy, without bankrupting the country and bringing civil life to a standstill.

Springfield Republican:—Plainly only an extraordinary coup can now save the central power. New schemes

ies crowd upon them, the "ring of iron" is nearly welded; frontiers are lengthened, flanks are threatened, the initiative is lost, and unless some desperate Napoleonic stroke can be successfully made, the end is but a matter of time. Has Hindenburg the genius for such a master-stroke? He has at any rate the bull-dog fighting qualities for a last-ditch struggle, and under his control a fierce and strenuous prosecution of the war would be certain. But the honor which comes thus late to an old man is a perilous power. Even a Napoleon in a war like this would be a frail reed to lean upon.

DISTRIBUTION OF SEED GRAIN

And Potatoes from the Dominion Experimental Farm 1916-1917.

By instructions of the Hon. Minister of Agriculture a distribution of superior sorts of grain and potatoes will be made during the coming winter and spring to Canadian farmers. The samples for spring distribution will consist of spring wheat (about 5 lbs.), white oats (about 4 lbs.), barley (about 5 lbs.), and field peas (about 5 lbs.). These will be sent out from Ottawa. A distribution of potatoes in samples of about 3 lbs. will be carried on from several of the experimental farms, the Central farm at Ottawa supplying only the provinces of Ontario and Quebec. All samples will be sent free by mail.

DATES FOR ONT. FALL FAIRS

Table listing dates for Ontario Fall Fairs across various regions including Binbrook, Blackstock, Blenheim, etc.
