JULY 1st CELEBRATION

At Hantsport
An enthusiastic meeting was held in T. Morgan's tansoral rooms last Friday to make arrangements for Hantsport's Dominion day celebration. F. Pentz was chosen chairman and Judson Newcomb secretary. After a discussion of ways and means of some length, a committee, composed of Messrs Cyrus Mitchner, F. A. Coffill, H. Cohoon and E. L. Gertridge, was appointed to canvass the town for contributions for prizes for races and other events to be given. On account of the shortness of time for preparations it was proposed to hire a first-class outside dramatic company to give an entertainment during the evening of July 1st. No doubt every thing will go swimmingly, every body is pushing the good work, along and the grand success of Hantsport's celebration will be repeated if not excelled.

HANTSPORT TO CHEVERIE

The writer started on the steamer Avon from Hantsport wharf Friday morning, striking the other side of river at Card's beach, from which place I went ashore to Cheverie. On the way up river a porpoise was seen, but he didn't come to the top so Captain Tertry could get a shot. Capt. Liswell and Capt. Mann keep a good line of general merchandise at Burlington and trade is brisk. J. H. Armstrong, blacksmith in the village, reports business fairly prosperous. It is rumored one of Burlington's young men is about to purchase one of the newspapers at Windsor. N. P. Burgess & Sons, wheelwrights at Burlington, are fitted up for all kinds of heavy work in their line and do a general repair business.

Among new buildings lately constructed at Kempst is an addition to the residence of Mrs. Mosher. Dr. Hayes of Parrboro and Mr. Pears of London, England, were in Cheverie last Thursday, prospecting for petroleum. They are trying to form a stock company in order to develop what is considered a safe and paying deposit of petroleum in the lime stone cliffs at that place. Messrs. Smith operates one of Cheverie's plaster quarries. They also own a valuable deposit of plaster in a hill about three miles from the shore, which would pay well if opened up, the specimens showing a superior grade of plaster. Capt. Rodman Prat and son run a large general store and are largely interested in shipbuilding, employing a number of men. A fine three masted schooner, the Theta, was recently launched and another will be put on the stocks right away. The Theta is being loaded with plaster from John D. Burgess' quarry, near by, Capt. Geo. Holmes is now master of the new vessel and may well be proud of his charge. Memorial Division, Sons of Temperance had a lunch in connection with the launching of the Theta on the 18th. Proceeds \$57.75 to go towards repairing hall. Capt. I. J. Dexter has lumber on Millard's Liniment Cures Colds etc.

the ground for the erection of a small store near his residence. The post office will be removed to new store when completed.

What might have been a serious accident happened at Somerville last week. Two boys were out in a boat. One of them stepped on gunwale of boat, tipping it over. The boy who could swim got safely ashore, but the other, unless help had arrived, would have been drowned. However, beyond getting a good scare nothing serious happened. Repairs are being made at Grant's wharf. The Masters Bros., are fitting up a hotel for summer tourists and general travel. Alex. Young one of Somerville's most enterprising, shop keepers, reports trade good.

NOW I FEEL REAL WELL

Mr. W. H. La Blance Bonfield Ontario writes:—I was once a sufferer from Catarrh and while using Dr. Chase's Catarrh Cure I was recommended to use also Dr Chase's Nerve Food to build up the system. My nerves were exhausted and I was too weak to do a day's work when I began using it and now am strong and healthy and feel real well. I am perfectly sure that any one who uses Dr. Chase's Nerve Food will believe as I do that it is the best strengthener and restorative obtainable.

RHEUMATIC WARPED LIMBS

Mrs. H. Wills Chesley Ont. writes:—My boy was all crippled up with rheumatic. Although we doctored he was in this way for about one year and the pain was terrible. Reading of many cases where Dr. Chase's Kidney Liver Pill had cured rheumatic we got a box. Before they were half gone he began to improve and is now quite well. I am very glad to recommend them to others: One pill a dose 25c a box.

Hantsport Advance. Again death has entered our town, the grim reaper taking away at the age of 87, Mrs Mary Jane Coalfeet. Her death occurred Saturday morning at the residence of her son, Capt Clarence Coalfeet, who is the only child of her family living. All of her brothers and sisters have passed away, except one, Capt Edward Davison, who is the last survivor of a large and worthy family. The funeral was held Sunday afternoon, Rev Mr White conducting the services, and the Methodist choir furnishing appropriate music. There was a large number present to pay their last respects to the departed. Burial at Hantsport cemetery. Mrs. Coalfeet was one of the oldest residents, having lived here for some 80 years, and leaves a large circle of friends to mourn their loss.

Scotch Village

In the death of Councillor O. C. Murphy, which occurred at his home on Sunday, May 26th, West Hants has lost one of her most promising young men. Having an attack of Pneumonia last fall, he never fully recovered from it, and against a second he could not battle. Everything possible was done to save him. Dr's. Weeks being in attendance two or three times daily, and in his brother Nelson he had an exceptional nurse, but all to no avail. On Wednesday the remains were placed in the Newport Cemetery. Rev's. Messrs Fraser, Presbyterians, and Crandall, Baptist officiating at the house and the Forsters took charge of the burial. The deceased would be 44 years old in June next and leaves a widow and four small children to mourn their loss. Loved and revered by his intimate friends, and honored and respected by all, his loss seems irreparable, but what must it be as husband father and brother. His hand was ever open to help as his heart was generous and warm. The widow has the heartfelt sympathy of all in her bereavement and she has the assurance of his "abundant entrance". Mr. Walter Sanderson is reported very ill. Quite a number of logs are floating with the tide, adrift, on the Kennebec.
