## IT WON'T HURT BOSTON.

The Portland, Me., Advertiser points out that Boston has no occasion to be jealous of Portland. What is taking place in transportation matters, it says, is not designed to hurt Boston, but Montreal. Indeed, more business for Portland is more business for the railroads, and the prominent lines to Boston and Central Massachusetts.

To quote: "What is taking place is simply the transference to Portland of a part of the business which Montreal has enjoyed until now for many years. That can injure Boston in no way and indirectly it will benefit Boston."

It is quite probable that our Maine friend is correct, and Boston will suffer no harm. It is also quite true that "for fifty years Portland has played a very important part in the railroad economy of New England," and the indications are that "in the nature of things it will continue to do so."

All this must be exceedingly gratifying to the average Canadian, who reflects that Portland would not be playing any very important part in the railroad economy of New England, or anywhere else, had it not been built up by the trade of a Canadian railway system which cost the people of Canada many millions of dollars. The mere transference to Portland of a part of the business which Montreal has enjoyed for years should be accepted with equanimity, provided it does not hurt Boston.

## CANADIAN PRODUCTS NOT PREFERRED.

The trade figures made public are usually given in values instead of quantities, and owing to fluctuations in prices, it is impossible to tell from the figures of value, what the actual increase in business has been. During the last five years, probably on account of the increased quantity of gold in the world, prices have generally been much higher all over the world than for twenty years before. It would be well for the Dominion government in every case, to publish both quantities and values.

The last monthly report of the Minister of Trade and Commerce reproduces the British returns of imports of some of the principal food products into the United Kingdom during the last three years. These returns show that in 1898 the quantity of Canadian butter imported into the United Kingdom was 156,865 cwt.; in 1899 it was 250,983 cwt.; and in 1900 it was 318,313 cwt. The other colonies exporting butter to England were New South Wales, Victoria and New Zealand. All of these colonies have steadily increased their exports of butter. New South Wales sent 31,391 cwt. of butter to Britain in 1898; 43,561 cwt. in 1899; and 81,436 cwt. in 1900. Victoria sent 124,223 cwt. in 1898; 211,744 cwt. in 1899; and 261,603 cwt. in 1900. New Zealand sent 69,919 cwt. in 1898; 111,639 cwt. in 1899; and 261,603 cwt. in 1900. This quantity of butter imported into the United Kingdom from foreign countries was 3,209,093 cwt. in 1898; 3,398,851 cwt. in 1899; and 3,878,516 cwt. in 1900.

In 1898 the quantity of cheese imported from Canada was 1,432,181 cwt.; in 1899 it was 2,337,198 cwt.; in 1900 it was 1,541,872 cwt. Australia sent 44,608 cwt. of cheese to Britain in 1898; and 86,513 cwt. in 1899. While the quantities imported into the United Kingdom from foreign countries were 862,663 cwt. in 1898; 1,014,821 cwt. in 1899; and 1,113,420 cwt. in 1900.

Canada is the only colony that exports bacon and hams to the United Kingdom. In 1898 the quantity of bacon imported from Canada was 535,879 cwt.; in 1899 it was 453,698 cwt.; and in 1900 529,861 cwt.

The quantities of hams imported from Canada in 1898 was 117,181 cwt.; in 1899 it was 150,698 cwt.; and in 1900 it reached 196,182 cwt. From foreign countries the United Kingdom imported 5,715,443 cwt. of bacon and 1,854,871 cwt. of hams in 1898; 5,350,810 cwt. of bacon, and 1,827,923 cwt. of hams in 1899; and 5,111,622 cwt. of bacon and 1,606,494 cwt. of hams in 1900.

Canada is the only colony from which the United Kingdom imports eggs. The quantity was 745,355 gt. in 1898; 616,867 gt. in 1899; and 807,702 gt. in 1900. From foreign countries the United Kingdom imported 14,424,582 gt. in 1898; 16,174,700 gt. in 1899; and 16,881,838 gt. in 1900.

These are the only farm products given in tables. In 1898 about 10.8 per cent. of Britain's total imports of these articles, came from Canada. In 1900 about 10.4 per cent. of the total imports were from Canada. So far as these five leading farm products are concerned it is evident that the British people have not given Canadians a preference in return for a preference.

In the next report of the Minister of Trade and Commerce it would be well to give the quantities of all the food products imported into the United Kingdom. Perhaps if all the imports were given there might be a somewhat better showing for Canada, or perhaps it might be worse.

## BEFORE THE GRIPPE

is the proper time to prevent the ailment; too late when you're down with it.

SCOTT'S EMULSION is one of the best preventives known to medical science. It feeds the system with germ-destroying substances and distributes blood-food that fortifies the system against the invasion of the disease.

With SCOTT'S EMULSION come vital strength, solid flesh and rich blood—the surest safeguards against grippé.

See that it's SCOTT'S EMULSION that you get—the just-as-good kind won't do.

Send for free sample.

SCOTT & BOWNE, Toronto, Canada.

## IS IT HUMBUNG?

The question whether the preferential tariff shall be applied only to British goods brought direct from British ports to Canadian ports is one that can be discussed without political prejudice, because neither of the political parties have as yet committed themselves either in favor of or against the proposed discrimination. At the meeting of the Montreal Board of Trade yesterday Mr. Crathern expressed the hope that members of the House of Commons would support the proposal to discriminate in favor of Canadian ports. Mr. Hodgson replied that it was all humbug. He did not want to be hampered as to which route he should import his goods by.

Mr. Hodgson and other importers are now hampered as to where they shall buy their goods by the preferential tariff. They get a reduction of 33.33 per cent. in the duties if they buy in the United Kingdom instead of in the United States, Germany, or some other foreign country, and Mr. Hodgson thinks that is quite right. Now, if it is right to give a preference to British manufacturers, why should it be "humbug" to propose to give a preference to Canadian ports?

At present the preferential tariff is purely a matter of sentiment. We get no return for it. If it is right to favor British manufacturers for sentimental reasons, why is it wrong to be equally sentimental about Canadian ports?

At present a very large proportion of Canada's foreign commerce passes through American ports in both summer and winter, and the Grand Trunk Railway proposes to take a larger proportion of the business to Portland than ever before, making it the chief terminal in summer as well as winter.

The men engaged in handling Canadian business at American ports do not buy Canadian farm products or Canadian manufactured goods. If the business were done at Canadian ports all the workmen employed in handling it and the population dependent on them would become consumers of Canadian products of all kinds.

It is evidently not merely a question of sentiment; it is a matter of business.

There is just one reasonable objection that can be raised to such a discrimination from a business point of view. That objection is that the Americans might retaliate by making a tariff discrimination in favor of their own ports. The question to be decided then, is whether the American business coming to Canadian ports is equal in quantity to the Canadian business going to American ports. We have been trying for twenty-five years or more to divert American business to Montreal. To what extent have we succeeded in the past? Are we likely to be much more successful in the future? Can we afford to give up the American business for the sake of having a monopoly of the Canadian business? These are the questions that must be seriously considered before deciding to make our tariff discriminate in favor of Canadian ports.

## GENTLEMEN, ARE YOU BALD?

Investigate and see for yourself the Art Coverings in Wigs and Toupees. Prof. Dorendew's manufactures are worn on over 55,000 heads of all classes, and in all stations of life. They are the essence of perfection, light in weight, durable and a great benefit to health, and a protection to the head against Cold, Draughts, Catarrhs, etc. Trying on and demonstrating the completeness of these goods free of charge. He will be at the Garner House, Chatham, Friday, March 8.

## Cook's Cotton Root Compound

is successfully used monthly by over 10,000 Ladies. Safe, efficient, Laxative, your druggist for Cook's Cotton Root Compound. It is no other, it is all Virtue. It is a safe, reliable, and effective remedy for all ailments of the bowels. Price, No. 1, 51 per box; No. 2, 10 degrees stronger, 51 per box. No. 3, 15 degrees stronger, 51 per box.
