A Handsome Offer.

Rev. Mr Murray of Shubenacadie is expected to preach in the Presbyterian church on Sunday next.

We are in receipt of a bundle of North West papers from Professor Tufts, for which we would return thanks.

The Methodist Camp Meeting opened at Berwick yesterday. A large number of persons are expected to be in attendance.

Haying Tools, Franklin & Fuller. The open season for duck-shooting began on Monday. The sportsmen in the vicinity prefer to wait, however, until the young birds are able to fly.

In St John's church on Sunday next, the 7th, at 8 A. M., the holy communion will be administered, and at 11 A. M. there will be morning service and sermon with holy communion.

G. E. DeWitt, Esq., M. D., of Halifax, whose family have been residing in our town since the first of May, has taken up a permanent residence here and will practice his profession.

Complaints have come to us that some of the boys have been placing indecent writing upon fences and in other public places, greatly to the annoyance of the public. The penalty attached to this offence is a severe one, and will probably be enforced if persisted in.

Don't miss the last chance to get a harness at Patriquin's.

We are informed that some persons in the vicinity are in the habit of destroying rabbits and other song-birds, protected by law. If continued in the offenders will probably meet with the punishment due, as the matter is being taken hold of by those who are in earnest.

The Water Commissioners have been making some needed repairs at the upper reservoir. The service has given us an abundant supply of pure water and it is every day growing in the public favor. We don't take second place with any water system in the Maritime Provinces.

Burpee Witter's Discount Sale is already attracting the attention of cash buyers.

The Firemen's Band have occupied their stand on the College campus the last two Friday evenings, and their music was much enjoyed by the large number who turned out to hear them play. Our band has now become a fully established institution and is already a credit to the town.

Have you tried ORANGE PHOSPHATE? Nothing so healthy and cooling in the drink as this line known. Try it.

We have been requested by the board of health to ask all persons to put their premises in a clean and healthy condition, and to apply disinfectants where necessary. In cases where this is not done the board has the power to have the necessary work performed at the expense of the owner of the property.

Ask for Minard's Liniment and take no other.

Best Paris Green and Plaster. Franklin & Fuller.

Rev. M. B. Shaw writes from Vizianagaram, India, June 23d, that after eight months drought there has been a fair rainfall, in that place, but there must be heavy, steady rains for two months in order to secure a good rice crop next fall. There have been twenty-eight deaths from cholera in the cantonment since June 1st, nearly all Mahomedan Sepoys.

Pure Paris Green, 15 cents lb. Prat & Collins.

Paris Green, PUREST, 15c per pound, at DRUGSTORE.

Aylesford Items. Dr Balcom has ten cases of typhoid fever under his care. Impure water, it is thought, is largely the cause of this disease. Many wells are not properly protected from filth, and when the water gets low it becomes dangerously bad.

Do not forget about the bargains in Harness, at Patriquin's.

20 per cent. discount on Lay Spreads, Summer Rugs, Fly Nets, at Patriquin's.

Cannot something be done to abate the fire-cracker nuisance? During the past week the air has been full of complaints. They have been thrown under horses' feet and in people's windows, and have caused a great amount of annoyance. The boys can hardly be blamed for using them, however, when they are to be had, and the chief blame should rest on those who sell them, and not on the boys.

See Burpee Witter's advt. of Discount Sale. Bargains can be found in every department.

Fruit men report that the crop of apples in Ontario will be of higher quality than last year, though probably not quite so large. Small fruits generally are light.

They are in favor of encouraging trade with England and believe that steamship companies might do more to put Canadian fruit on the British market in better condition. At the present time it is more profitable to ship to England than to New York.

Do not go with a poor collar when you can get them at Patriquin's from \$2.00 up.

Archbishop Ireland says: "He is ignorant of human nature who does not see that a thousand will drink when temptation presses upon them for the hundred who will put themselves to some difficulty to seek out liquor. Our working classes are, we might say, compelled to drink and become drunkards, so strong are the temptations by which we are beset."

Charles Lamb, looking back upon his childhood, wrote this as a warning to others: "Could the youth to whom the flavor of his first glass was delicious look into my desolation and be made to understand what a dreary thing it is when a man feels himself going down a precipice with open eyes and a passive will, to see his destruction and not to have power of will to stop it, and yet to feel it all the way enacting from himself, to perceive all goodness emptied out of him, and yet not to be able to forget the time when he was otherwise--how he would avoid the first temptation to drink."

Chief Justice Noah Davis, of New York, recently said: "There is an average of more than two persons murdered in New York city weekly, and are 67,000 persons arrested annually for crime, and nine-tenths of the crimes committed are traced directly to the grog shops." He says further: "I have sat on the bench twenty-six years, and have sentenced to death many, and have seen many who legalize the drunkard-making. 'How long, O Lord, how long!' until the drunkard-makers, the crime-manufacturers, are brought to judgement!"

Talking of the enforcement of licensing regulations, General New Deal says: "You must make the penalty heavy enough; prohibition only succeeds where evasion of the law is made uncomfortable. A fortnight ago in this city we sent a woman to prison for three years for selling drink; that is the penalty for a third conviction."

This sounded, for the moment, harsh but as I remembered that the sale of strong drink meant not only imprisonment, but social and eternal ruin, to numbered thousands, I felt these laws not harsh but humane.

"How about high license?" I enquired. "High license" he answered, "is a fraud and a failure, and the greatest hindrance to the cause."
