

A Clergyman's Advice.

THE ALMOST MIRACULOUS CURE OF JOHN MACDONALD, CAPE NORTH, N. S.

For Years He was Afflicted With Spinal Trouble and Paralysis of the Legs—Was Treated by the Best Specialists in Victoria General Hospital, at Halifax, Without Benefit—Dr. Williams' Pink Pills Have Restored Him.

Mr. John McDonald, a well known merchant at Cape North, N. S., was for many years a sufferer from spinal trouble, which eventually resulted in partial paralysis. Treatment of many kinds was resorted to, but without avail, until finally Dr. Williams' Pink Pills were used, with the result that Mr. McDonald is again enjoying almost perfect health.

Mr. McDonald's story is given as follows in his own words:—"Almost thirteen years ago I caught a bad cold which lodged in my back, producing a terrible pain. Physicians were at first resorted to, but they had no effect, and the trouble became so bad that I could hardly walk, and could not go out of doors after dark, as I would be almost certain to fall if I attempted to walk. Medical treatment did me no good. I tried six different doctors, but the result was always the same. I spent \$30 dollars for an electric belt, but it was simply money wasted. Years went on and I was continually growing worse, until in the spring of 1895 my lower limbs would scarcely support me. In June of that year I went to the Victoria General Hospital, Halifax, where I remained for two months under the treatment of the best specialists, but when I returned home I was actually worse than when I entered the hospital. This thoroughly discouraged me, and I gave up all hope of ever getting better. I continued to grow worse until about the first of January, 1896, when I had become so bad that I could not stand alone, as my legs were like sticks under me. My only means of locomotion was crutches, and my legs dragged after me like useless pieces of timber; I could not raise them one inch from the floor. About the first of the following April, Rev. Mr. MacLeod strongly urged me to try Dr. Williams' Pink Pills. I had tried so many things without benefit, that I did not think the pills could help me, but nevertheless decided to give them a trial. After using six boxes I could see that there was a slight improvement, and I continued using the pills until I had taken thirty boxes, and by that time my new life and vigor had returned to my legs, and I have since been able to attend to my business behind the counter without the aid of crutches, or even a stick. Under God's blessing Dr. Williams' Pink Pills have restored me to new measure of health and energy I never expected to enjoy in this world.

My restoration has caused a great wonderment in this section, and as a result I have sold many gross of Dr. Williams' Pink Pills in my store, and many of those who have bought them from me tell me they have cured them of their troubles.

Dr. Williams' Pink Pills act directly on the blood and nerves. They do not purge, and therefore do not weaken like other medicines. They give strength from the first pill to the last used. There are many dealers who offer pink colored substitutes, because the substitute gives them a greater profit, but these should always be refused, as substitutes are either dangerous or absolutely worthless.

Young Men Should Remember. That it takes more than muscle to make a man. That bigness is not greatness. That it requires pluck to be patient. That selfishness is the most unmanly thing in the world. That consideration for mother and sister does more to mark a gentleman than the kind of necktie he wears. That piety is not priggishness. That the whole man is a holy man. That to follow the crowd is a confession of weakness. That the street corners are a poor college. That one real friend is worth a score of acquaintances. That to be afraid to be one's noblest self is the greatest cowardice. That it is never too soon to begin to make a man of one's self. That what is put into the brain to-day will be taken out of it ten years hence. That the only manliness worth possessing is shown in the life of the Son of man.

Rival Beauties. Paul Kruger is not a handsome man. It is said that he is the ugliest man in the Transvaal, but he met what he considered his match one day. Being out on the veldt shooting, he fell in with an Irish Outlander of ferocious appearance, whom he immediately covered with his rifle. "O! say!" said the Hibernian, "what are ye going to do?" "My people," replied Oom Paul, "told me I ever I came across an uglier man than I was to shoot him. And I think I have found him."

"Well," said the Hibernian, after a good look at Kruger, "shoot away, for if I am as ugly as you are I don't want to live."

Don't Put a Bird in the Window. Never put a bird in the window said a bird fancier to the reporter. The other day, I rarely go into the street, a man, or even on a mild day in winter, that I do not see emeralds hung in the windows. Even if the sun is not beaming, a draft in blowing all the time over the delicate body. People have been told a thousand times that they must not put a bird in the draft, yet how few remember that there is always a draft in an open window.

Canadian Patriotic Fund Association.

The following circular letter has been received by Mayor Thomson from Lieutenant Governor Daly:

Government House, Halifax, N. S. 10th February, 1900. DEAR SIR,—I beg to enclose herewith for your consideration a circular and letter explanatory of the objects of the Canadian Patriotic Fund Association which has been organized by His Excellency the Governor General, and to which the patronage of Her Gracious Majesty the Queen has been given. I would request you to be good enough to make known as publicly as possible the purpose of this Association, and I would also earnestly solicit your interest and active co-operation by taking what ever steps you may consider advisable for augmenting the Fund.

The patriotic and benevolent purposes of this Association are such as commend themselves forcibly to every Canadian, and I have no doubt that its appeal for assistance will meet with a ready and generous response from the people of Nova Scotia.

I am, dear sir, Yours faithfully, M. B. DALY, Lt.-Governor.

AIMS AND OBJECTS.

The object of the Canadian Patriotic Fund Association is the creation of a Fund for the following purposes, viz.:

- 1 For the benefit of the widows, orphans, and other dependents of officers and men of the military forces of Canada, who may unfortunately lose their lives in or in connection with the war operations in South Africa.
2 For the benefit of the soldiers themselves or their (whether combatant or non-combatant) on duty in South Africa with the authority of the Government of Canada, and their families or dependents, who may have been disabled by wounds, sickness, etc.
3 For the benefit of the wives and children and dependents separated at home from those serving in South Africa.
In order to effect the above object, it is necessary that public sympathy with this truly national and patriotic endeavor must be fully aroused, and every opportunity afforded whereby the contributions, however limited in amount, of every citizen in the Dominion may be readily received and duly acknowledged.

With this end in view, it has been arranged that subscriptions will be received at any Branch of any chartered Bank in the Dominion, at any Government or Post Office Savings Bank, or at the office of any Loan Company, and transmitted to Ottawa at par.

In order to insure a just and equitable distribution of the Fund, it will be necessary to invoke the aid of philanthropic individuals and charitable associations in every local centre, by whom cases requiring relief may be properly inquired into, and reported upon to the Secretary.

It will be the earnest endeavor of the Association to insure that no deserving case shall go without the fullest relief which its funds can afford; and the Association therefore confidently appeals to the citizens of the Dominion for their co-operation and generous support.

A Blessing to the Homes of Canada.

No invention of the century now coming to a close has done so much for the homes of Canada as the Diamond Dyes. These reliable and never-fading dyes have saved more money for our Canadian families than all other combined agencies.

Diamond Dyes, with their magical re-creating powers, give to faded and dingy looking dresses, skirts, waists, blouses, shawls, capes, jackets, coats, vests, pants, and all fabrics, light or heavy, a second life—a condition of richness and beauty, in the majority of cases far ahead of the original colors and shades. It simply means that a new dress, coat, jacket or other article of wearing apparel is obtained at a cost of from ten to twenty cents. This work is now successfully carried on in tens of thousands of happy and prosperous homes in our Dominion.

If you have not yet tested the re-creating and reinvigorating powers of Diamond Dyes in your home, you are losing money every month. To achieve the victories that come to others in money-saving, you should try what Diamond Dyes can do on your faded and cast-off clothing.

As there are imitation package dyes sold in some stores for the sake of the extra profit, avoid these colors, as they are ruinous to any material; see that you get the Diamond Dyes that make old things look as good as new.

Women's "First's." Divorces in which women were complainants were almost unknown in 1815, and as late as 1837 it was reported that only three had been recorded in England. In 1815 women were first invited to membership in secret societies in England.

Trop Female Seminary was opened in 1821. It was the first institution in America for the higher education of women.

Francis Wright began lecturing on "Union of Church and State" in 1828. She was the first woman known to speak on a public platform in this country. The Female Anti-slavery society was formed in Philadelphia in 1838. It was believed to be the first woman's organization in the world. Oberlin college was established in the same year and was the first school in the world to offer a college education to women.

Some Don'ts that Prevent Colds.

This changeable weather makes colds especially rife. Did we but know just what a cold is, it would surely be easier than it is to secure immunity from it. According to its natural meaning, it would seem that a cold was an affection produced by exposure to low temperatures, to cold weather. Nothing could very well be further from the truth than this. Colds are not nearly so prevalent in very cold countries as in the temperate zone. They are not nearly so frequent high up among the Alps, as in the cities at the foot of the mountains. Nansen, the Arctic explorer, spent over two years amid the Arctic snows, with the temperature so low most of the time that the mercury was frozen in his thermometer, yet he and his men never suffered from a cold. They had been back in civilization scarcely a week before some of his companions were laid up with the grip. If we look at colds as infectious we are able to frame certain rational laws that will help us to escape them. They are about as follows:

Don't change very light clothing for heavy clothing all at once. Don't, for instance, change summer outer and inner garments for winter ones on the same day. One of the greatest mechanical feats nature performs is the keeping of the temperature under the most varying conditions of extreme heat and cold exactly at the same figure. During winter so much blood is not sent to the surface and heat is retained. Sudden changes in the condition of the skin must be avoided, or the circulation is disturbed and with it the ability to resist disease.

Don't wear extremely heavy clothing in the winter time. It's weight makes it a source of irritation to the skin which is not merely the external covering of the body. It is not the thickness of the clothing or its weight that protects from cold, but the amount of air it contains in its meshes. Air is a good non-conductor of heat, and so helps us to retain the heat we possess. If an individual is very sensitive to cold it would be better to wear a course of suits of lighter, thinner woolen underclothing than one very heavy suit. The layer of air between them makes them eminently protective.—E.C.

From Rest Cottage, known and loved by the world around, and every man, woman and child, there will now continue to go to every corner of this nation letters winged with the faith, hope and love of leaders consecrated to the great reform to which Miss Willard gave her life.

Here the organizing work will be planned, the local unions cheered and encouraged, the varying needs of a great organization carefully studied. Here at the noon hour and day will be held a public prayer and praise service a season of prayer for the renewing of spiritual power upon the temperance work and workers, a song of praise for blessings received and glorious hope for the future. What could be more fitting than this plan to make Rest Cottage the center of the correspondence and Christian fellowship that binds white-ribboners together in that bond of blessed unity that is its strength and glory.—Union Signal.

"Quench Not the Spirit." When I was a young boy, before I was a Christian, I was in a field one day with a man who was weeping. He was weeping, and he told me a strange story, which I have never forgotten. When he left home his mother gave him this text: "Seek first the kingdom of God." But he paid no heed to it. He said when he got settled in life, and his ambition to get money was gratified, it would be time enough then to seek the kingdom of God. He went from one village to another, and got nothing to do. When Sunday came he went into a village church, and what was his great surprise to hear the minister give out the text, "Seek first the kingdom of God." The text went down to the bottom of his heart.

Lunatics often assume a superiority of intellect to others that is quite amusing. A gentleman while walking along a road not far from the side of which ran a railway, encountered a number of insane people out for exercise.

"Where does this railway go to?" The lunatic looked at him scornfully for a moment and then replied: "It doesn't go anywhere. We kept here to run trains on."

Not long ago, in an elaborate article in the Scribner's Magazine, Joseph Kirkland gave the result of his research among the poor of Chicago, coming to the calm conclusion that Chicago's drink bill of much more than a million a week accounts practically for all the poverty that city has.

But this is not all. It is not enough that she starves in mind and starves in body. It is not enough that she be plunged in shame and distress of soul by what her husband and sons become. To brutal abuse. Yet, so familiar have most men become to all these facts that their hearts grow callous and indifferent. But Joseph's sympathy is not so easily hardened. She feels the curse.—Union Signal.
