California Legislature May Pass Anti-Jap Legislation.

#### Segregation of Aliens and Jap Regulations For Schools.

San Francisco, Feb. 9.-The San Fran see Chronicle published to-day a spe cial despatch from Sacramento, predicting the passage of both the anti-Japanmeasures now being considered by the California Legislature. These are the bills providing for the segregation of undesirable aliens in the residence dis-trict of towns and cittee and the regula-tions providing for schools for the Jap-

The legislators are said to feel irri-

tated towards Speaker Stanton, because they consider that he has been guilty of biuffing. They believe that both the Speaker and the national administration are playing for delay without infinite reason, and this feeling is likely to cause the backers of the bills to insist

#### A GREAT PLAY.

#### Much Comment on "The Servant in the House.

Never before has a one-night show trical circles as has "The Servant in the House," which was presented at the Grand last night. The play was to-day the subject of discussion by many lovers of the drama, who saw the Miller players last evening. Many clergyman, as well as professional men, witnessed the performance and were impressed by it. While the story in its entirety was not altogether acceptable to some, the general veriety was that it was the novel. arogeneral exceptance to some, the general verdict was that it was the most helpful play that has been produced here for many moons. While the play was written by the Englishman—Charles Rann-Kennedy—and the scene is laid in England, the people of that country will not have the opportunity of sceing it until it has been presented in almost every other civilized country. The reason of this is that Kennedy's play was spurned by the English managers of note, and it was not till after it had been taken by New York managers that the London managers sought it. It will be presented in London on Easter Monday at the Duke of York's Theatre, which is controlled by Charles Frohman, a New Yorker. So far the play has been verdict was that it was the most Yorker. So far the play has bee translated into German, Danish, Norw gian, Italian and Russian, and before the first of March will be upon the boards in the larger cities of those countries.

schools will make the receipts \$39,255, without the municipal grant.

A new rate of 3-10 mille for the new technical school will be created. This will yield about \$11,000. The original estimate for the technical school called for an expenditure of over \$12,000, but the committee cut about \$3,000 off.
