Receipts at the city market of live stock, as reported by the railways, were 98 car loads, composed of 1760 cattle, 866 hogs, 399 sheep and lambs, with 107 calves.

The quality of fat cattle generally was far from being as good as on Monday's market; while there were a few fair, and some lots of good cattle, the bulk were of the common and medium classes. There were many loads that had a few good cattle mixed with medium and common.

Should there be a heavy delivery of cattle prices will undoubtedly go lower. Exporters—There was one load of fairly good export steers that had been well fed, that sold at \$3.30. These same cattle would have sold for \$5.50 two or three weeks ago.
