GOOD MANAGEMENT.
A suit of clothes which is regularly cleaned and pressed wears twice as long as one which is simply kept right on wearing. That's an important suggestion to remember, and a mighty sound practice to put into effect.

Ethel M. Dell's New Novel.
Miss Dell's new novel opens up a fresh field of romantic feeling, and she works it with the rapid skill and vigor which have put her in the front rank of novelists of the emotions.
"The Obstacle Race" is run by a heroine of sympathetic character, a young woman disillusioned with the world of fashion and frivolity, who endeavors to return to the less complex and more honest and human ways of life. The obstacles are the associations and entanglements from which it is so hard to fling away. With the aid of a great lover she ultimately conquers the last obstruction.
A dramatic narrative, worked out upon a delightful stage with the aid of a large and interesting company of actors—one of Miss Dell's most enthralling novels.
Only \$1.50 post paid.
