SIGN OF BLAOK BEAR

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes paints running sores on the arms, legs, or feet; which developes ulcers in the eyes, ears, or nose, often causing biladness or deafness; which is the origin of pimples, cancerous growths, or many other manifestations usually ascribed to "humors." It is a more formidable enemy than consumption or cancer alone, for scrotula combines the worst possible features of both. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How can it be cured? By taking Hood's Sarsaparilla, which, by the cures it has secomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. For all affections of the blood Hood's Sarsaparilla's unequalled, and some of the cures it has effected are really wonderful. If you furfer from scrotula in any of its various forms, be sure to give Hood's Sarsaparilla a trial.

THE CANADIANS DEFEATED.

WISSAHICKON, Pa., July 15.—In the international cricket match to-day play was resumed at 11:15, when the over night not outs, Hamilton and Lyons, went to the wickets to face the bowling of Brown and Bailey. The Canadians made a good show, putting together a total of 141 before they were disposed of, out of which Saunders, Lyon, Gillespie and Ferrie played good cricket for their respective scores. The Canadians having to follow their innings, only reached the small score of 97, Lyon again distinguishing himself with a patent inning of 34, which proves that he fairly earned his place on this International team. The inning closed for 97, leaving the Americans victors by a single inning and 31 runs.

The men are delighted with their position. They say that the two weeks they will spend in that pleasant and healthful spot will brace them up for the city again.

Messrs. Brown, of London, two youths, aged about 12, are the guests of number 5 and 6 camps respectively. They stole away from the city to the Port, and the boys kindly took them in to act as bootblacks.

The familiar figure of Mr. John Frice may often be seen on the grounds disposing of his wares to the boys.

The genial John Gauld, is postoffice orderly. John is very fond of fishing, and procuring a pole and some bait started to fish out of his tent Monday night. One of the men caught the string and tried to fool him, although he avows he had a sucker at the end.

The mosquitoes at the Port are veritable wonders and it is almost impossible to hear the last post owing to the noise they make. Lieut. W. C. Coo mistook this sound for that of a partridge Monday night, but changed his mind after loading an air-gun. Capt. Payne is acting commander in Lieut. Tracy's absence.

Private McNamara's melodious voice is heard singing "Annie Rooney" from reveille to the last post.

A few more men are expected down this week. There are about twenty tents standing at the present time.

Lieut.-Col. Tracy left for the city yesterday morning and will return on Saturday. Before going he addressed a few words to the men complimenting them upon their appearance and orderly conduct, and impressing upon them the necessity of its continuance.

the history of the society and matters of internal interest. He explained that the old dental society had been dissolved because it contained certain undesirable men, and that the present society was organized to build up a professional standing for dentists and purge themselves of those whose only object is to obtain the almighty dollar by any means calculated to gain the custom of the ignorant in the community. He urged that they faithfully and fully observe the code of ethics of the society and expressed a warm belief in dental democracy. Those with large practices should aid their less fortunate brethren. He pressed upon the society the importance of putting the college upon a more permanent basis, and urged the need of sustaining a good dental journal.

On the invitation of Dr. Bosanko, it was decided to hold the next annual meeting at Barrie on the second Tuesday of July, 1891.

The object of the society is to raise the standard of the profession and have a code of ethics presented to every member for signature.
