Associated Press learns today that the pressing forward of the coronation was due to the personal INSISTENCE OF THE KING. LAST SHOT OF THE WAR

His doctors were at first opposed to such an early date, but the King clined to agree to any other plans until he is crowned, and the doctors, How the New Zealander Was finally realizing that more danger was likely to arise in opposing His Majesty on this point, agreed to it. They now see the King was right, and that it is far better for him to get through the turmoil of the coronation as soon as possible than to have it hanging over him for months.
