

The Weekly British Colonist.
AND CHRONICLE.

Tuesday, December 25, 1866.

European Affairs.

We have papers by this mail to the 8th of November, and a very interesting budget of news they contain. One of the most important political items that we notice is the wonderful strides that the Reform question is making. Mr Bright seems omnipresent. To-day we hear of him at Glasgow, holding forth to eager listeners on the all-important political topic of the day, and to-morrow he is at Dublin educating the people as to their rights and privileges, and depicting in terms of burning eloquence a New Britain, the Government of which shall depend for its existence upon the will of the workman as expressed through the ballot box. In his speech at the Irish capital, Mr Bright, alluding to the exodus to America, said: "You will remember that the ancient Hebrew, in his captivity, had his windows open towards Jerusalem when he prayed. You know that the follower of Mahomed, when he prays, turns his face towards Mecca; and the Irish peasant, when he asks for food, and freedom, and blessing, follows with his eye the setting sun." Mr Bright is a great Reformer—he is almost a Revolutionist. He is gathering a strong party about him. But will he always be able to control that party? or will it not, like the Republican party in America that sprung from Mr Seward's brain, surpass even its creator in radicalism, and aim at the accomplishment of ends the mere contemplation of which would appal Mr Bright? Mr Maurice has been elected Professor of "Casuistry, Moral Philosophy, and Moral Theology" of Cambridge University, a choice that has given very general satisfaction. Mr Tennyson has thrown the negro philanthropists into a fit of the horrors by sending a contribution to the Eyre Defence Fund. The trial of Mr Eyre, we learn by telegraph, is progressing in London—a cruel, vindictive and contemptible persecution of a faithful public officer who, had he acted otherwise, would have lost Jamaica, and would have suffered martyrdom for his want of pluck. Sir M. Peto, M.P., has called together all the committees which assisted at his election, and explained away his "fishy" conduct in connection with certain collapsed railway schemes. It is remarked that a vote of thanks was tendered the honorable gentleman; a person present attributing the irregularities to the laws! Sir Hugh Cairns is to have a peerage with the Lord Justiceship, and is promised the next reversion of the Great Seal which it may be in the power of the Conservatives to give. His successor as Solicitor General is Mr Rolt. Captain White, the Liberal candidate at Tipperary, has been elected by a majority of 687 votes over the Conservative candidate, Mr Waldron. From the continent we learn that Venetia has voted herself Italian by 641,758 to 69, which, considering that Venice was Italian by the will of Heaven, whether she voted it or no, is highly satisfactory. It is not often that a fact is recognized to be a fact by 9,999 out of every 10,000 men. The Emperor of the French has ordered a commission to report on the reorganization of the French army. The reason assigned is the "grave events which have just been accomplished in Germany," and the object, to "place the Army in a situation to assure the defence of the territory and the maintenance of French political influence." The inference is irresistible that Napoleon intends war. Somebody said to be a poor tailor—has been shooting at the Kaiser. There is no proof that the pistol was loaded, and the whole story looks very much as if the Viennese police, who are very clever, had got up a little drama to excite enthusiasm. Great discontent exists in Austria. At Prague the Kaiser was received in dead and ominous silence—silence so deep that the clink of the scabbards could be heard as he drove through the multitudes. A storm is brewing for Francis Joseph. La Presse has a story, which Renter

has telegraphed, of an alliance formed between St. Petersburg and Berlin. Prussia is to have the old Duchy, and Russia Galicia, and leave to do as she likes in European Turkey. Considering that Prussia is worried with the Poles of Posen, that the Principalities are governed by a Hohenzollern, that Germany and Russia must ultimately come to loggerheads in the Baltic, and that Count Bismarck is away from the King, we believe the whole of that story an invention, based upon some agreement between Russia and Prussia to keep Poland quiet. Such stories are extremely convenient just now, when the Emperor Napoleon wishes to convince his subjects that it is indispensable for him to increase the conscription. The Queen is making extensive improvements at Windsor Castle and is going, according to the newspaper report, to improve away the view of the two-mile long avenue commonly known as "The Long Walk." The grand staircase, it is asserted, will interfere with the view. A grand staircase is all very well, but a grand avenue to the grand staircase is far better, and cannot be quite so easily produced. And, as the castle completes the avenue, so the avenue completes the castle. The Bank return is favourable—the supply of bullion held by the establishment being £16,377,358 and the reserve £7,659,698—the Directors having made no change in their rates of discount. The minimum quotation remains therefore at 4½ per cent. In the open market the best bills are taken at 3½ per cent, but the most current minimum is 4 per cent. At Paris the supply of bullion held by the Bank continues to diminish, the stock being £26,314,000; and there is decidedly more firmness in the Money Market, the open market quotations being somewhat in excess of those current at the Bank. Yesterday, Consols left off at 89½, for money, and 89½, for account. The Bank of Holland has reduced its rate to 5 per cent.

LOCAL INTELLIGENCE.

Thursday, Dec. 20th, 1866.

At a Ball near Clear Lake, in California a drunken ruffian, named Alexander, forced his way into the room without presenting a ticket to the door-keeper. He drew a revolver, and waved it over his head, declaring that if there was any shooting or fighting, he wanted to be counted in—upon which he fired into the crowd standing between himself and a front window, the ball passing through the breast of D. M. Hanson's coat, through the ribs of another man named Hernden, and a pane of the window, making the broken glass fly in the face of Joshua Knauth and Daniel A. Hanson, of Marysville, who were standing outside of the house. Alexander then immediately left the room, turning as he departed, and firing at or into the room door a second shot, when he hastened to the stable for his horse, but being closely pursued by Joseph Adams, who, by some means, had possessed himself of a double-barrelled shot-gun, charged with quail shot, he was overtaken, and the contents of both barrels discharged into his most vital parts. Alexander fell and expired in one minute, with his revolver in hand as if ready for battle. Adams, the following day, went to a Justice of the Peace and gave himself up for an examining trial; and, being defended by D. M. Hanson, was discharged without hesitation by his Honor, the Court. It is said that the killing of the desperado Alexander gave fresh impetus to the Terapi-choreans, who filled the upper and nether rooms to the number of 60 or 80 couples, and that they continued their dance until a late hour without further molestation.

THE FLIGHT OF METEORS.—A cable dispatch, dated Nov. 14, from the Greenwich Observatory, states that the expected meteoric showers were observed on the night of the 13th. At 9 o'clock, a few meteors fell; at 11 o'clock, they had increased in number and size, and between 1 and 2 o'clock the next morning the maximum was reached. The night was clear and the stars were out in great number. The whole heavens were brilliantly illuminated. The showers of meteors were of great beauty and brilliancy, and were first observed in the constellation Leo, near the star Gamma Leonis. Their direction was mostly from the east to the west. The paths of the meteors were from three to four degrees in the north. Near Ursa Major 20 or 30 were observed at one time, and crossing the zenith 50 or 60 more of unusual size and duration, the majority being larger than stars of the first magnitude. At 8 a. m., they commenced to diminish gradually, until they all, meteors and stars, faded away in the morning light. Five thousand were counted in one hour (nearly 12,000 in all) with the naked eye.

WESLEYAN ANNUAL TEA MEETING.—This interesting event drew together a concourse of several hundred persons in the basement of the Methodist Church last evening. The tables were profusely and tastefully covered with edibles of every variety, while tea and coffee were supplied with unsparring hands. After an agreeable and social chat while partaking of creature comforts, the company proceeded up stairs, where addresses were delivered by the Revs. Browning, Withrop, and Whitworth, and Messrs Fell, Jessup, Babbitt and McKay, which were well received, the proceedings being opened and closed with prayer. The choir, under Mr Spencer, sang the following sacred music in excellent style, Mrs Hutchinson, the organist, producing a marked effect in her solos:—Jerusalem, my glorious home; Awake, awake! The Anchor of Hope; Soon shall the Trumpet sound; Zion, behold thy Savior King; In Jewry is God known; Sacred peace, celestial treasure; Salvation; How holy is this place. Votes of thanks were unanimously accorded to the ladies for their liberal donations and services, and also to the choir. The whole affair passed off most successfully.

FROM MAURITIUS.—The brig Ann, Capt. Stephens, arrived yesterday in Esquimaux Harbor, 105 days from Mauritius, with 100 miles of submarine cable, portion of the cargo of the ship Egmont, which put into Mauritius in distress, and had to discharge and go into dock. The Egmont, with about 400 miles of cable, would follow after repairing, which would probably take three weeks. Capt. Stephens (who wishes to impress upon us that he is no relation whatever to the head-centre of that name who threatened to cut the Atlantic cable), reports heavy westerly gales in southern latitudes, and very heavy weather from the westward and northward in the northern latitudes. The Ann was within five miles of port on Saturday, and was blown off, and sought refuge at Port Angeles.

MR GEORGE C. PETERMAN, one of the oldest merchants of San Francisco, retired to bed on the 10th instant, at his room in the Lick House, and in turning off the gas caused the faucet to make a turn too much, and turned it on again, and as his room was almost hermetically sealed, the gas soon filled it, and the old gentleman, under its influence, fell into a sleep from which he never awoke.

THE ESQUIMAUX DRY DOCK hangs fire in London, owing to the disinclination of people having money to invest in enterprises of the kind. We have been shown, however, a letter from Edwin Clarke, the celebrated English Engineer, to Hon. E. Stamp, in which the writer says that the plans are ready, and expresses a hope that the stock will soon be taken.

CHIEF ORGANIZER STEPHENS.—Dublin correspondence of the New York World says a reward of £1000, had been offered by Government for the arrest of James Stephens. According to another despatch the reward was increased on the 28th November to £2500 for his body, dead or alive. The Organizer's head won't be worth a red herring if he again comes within the grip of the law.

FIREMEN'S BENEFIT.—The next performance of the Amateur Dramatic Club, will be in aid of the funds of the Victoria Fire Department, now so much in need of public support, and will take place on the 9th Jan. The pieces performed will probably be the comedy of "Time Tries All," followed by "Retained for the Defence."

CONFEDERATION.—A London despatch, dated the 10th inst., says: "Many delegates from the British American provinces, having in view the final settlement of a Confederation scheme, have arrived. They have organized and appointed Mr McDonald, president officer."

COWICHAN LAND CLAIMS.—While up the East Coast, the Governor visited the Cowichan settlements and arranged for an early survey of the lands and marking off of the Indian reserves. This course, it is hoped, will put an end to a fruitful theme of complaint in Cowichan district.

NEW FIRM.—Messrs Cimmino & Bona, are the successors of V. Squarza, and continue to manufacture and sell the numerous punches and cordials that have the name of Squarza as familiar as household words. They intend to keep the reputation of the house as it always has been, first class.

VICTORIA HARBOR is not the only sheet of water in which the Leviathan cannot float, the wonderful craft having come to grief on the mud-flats of Cowichan, four days ago. At last accounts she lay at rest on a bed of soft, yielding mud.

THE ACTIVE arrived at 7 o'clock yesterday morning from San Francisco. She brought 40 passengers, among whom were Mr. B. S. Levy, an old pioneer resident. The Active will sail for San Francisco at 9 o'clock to-morrow morning.

LECTURE.—We beg to remind our readers that Mr Waddington's lecture on "Animal Magnetism" will come off this evening before the Mechanics' Institute. A rare treat is expected.

SIR HUGH CAIRNS is the new Lord Justice of appeal in Chancery, in the place of Sir James Knight Bruce deceased. Mr Rolt, Q. C., is the new Solicitor General.

APPOINTMENTS.—We learn that Attorney General Wood has been appointed Solicitor General of the Colony, with a seat in the Council, and that Mr Pearce has received the appointment of Assistant Surveyor General.

A FRIEND advises his friends to dig up their carrots if they wish to preserve them from rot. The wet weather, he says, has destroyed his crop of this vegetable.

THE Enterprise did not reach New Westminster until 4½ o'clock yesterday afternoon.

A LETTER from the American Consul, received by his family, announces his safe arrival at San Francisco and his complete restoration to health.

NOT ARRIVED.—The schooner Mink, which left this port for Honolulu on the 18th Oct., had not reached her destination on the 26th November.

AT SAN FRANCISCO.—The bark Delaware, Shillaber, 24 days from Nansaimo, arrived at San Francisco, Dec. 4th.

THE BRITISH VOLUNTEERS had a grand reception in Belgium and carried off some of the first prizes.

THE Legislative Council, it is rumored, will meet on the 10th January.

S.T-1860-X.

GREAT MANY SIDES HITS ARE given to the Plantation Bitters, by a core of two distinguished friends who have endeavored to imitate or counterfeit them. It is all of no use. The people won't be long imposed upon. The Plantation Bitters are increasing in use and popularity every day, and "that's what's the matter." They are in same size bottle and made just as they were at first, and will continue to be, or we shall stop making them.

The Plantation Bitters purify, strengthen and invigorate. They create a healthy appetite. They are an antidote to change of water and diet. They overcome effects of dissipation and late hours. They strengthen the system and enliven the mind. They prevent miasmatic and intermittent fevers. They purify the blood and acidity of the stomach. They cure Dyspepsia and Constipation. They cure Diarrhea, Cholera and Cholera Morbus. They cure Liver Complaint and Nervous Headache. They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. The recipe and full Circular are around each bottle. Olegymen, Men of business and nervous who sedentary habits induce weakness, indigestion, palpitation of the heart, lack of appetite, distress after eating, liver complaint, constipation, &c, will find immediate and permanent relief in these Bitters, but above all, they are recommended to weak and delicate female and mothers.

The original quality and high character of these "good" will be sustained under every and all circumstances. They have already obtained a sale in every town, village, par and hamlet among civilized nations. Base imitators try to come near our name and style as they can, and because a good article sells so well as the poor one, they find some support from parties who do not care what they sell. Be on your guard. See our private stamp over the cork.

THE DRUGGISTS, Grocers, Country Stores and dealers everywhere throughout the world, are supplied with these Bitters. General Agents for the Colony: C. LANGLEY & CO., 200, Victoria Street, Melbourne.

Barnes' Magnolia Water.
A toilet delight! The ladies' treasure and gentlemen's boon! The "sweetest thing" and "largest quantity," manufactured from the rich Southern Magnolia. Used for bathing the face and person, to render the skin soft and fresh, to prevent eruptions, to perfume clothing, &c. It overcomes the unpleasant odor of perspiration. It removes redness, tan, blotches, &c. It soothes and cures nervous headache and allays inflammation. It cools, softens and adds delicacy to the skin. It yields a subdued and lasting perfume. It cures mosquito bites and stings of insects. It contains no material injurious to the skin. If it were every lady should have. Sold everywhere. Try the Magnolia Water once and you will use no other Cologne, Perfumery, or Toilet Water afterwards.

DESMAS BARNES & Co., Melbourne, N.Y.

Over a Million Dollars Saved.

GENTLEMEN: I had a negro man worth \$1200 who took cold from a bad hurt in the leg; and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment. It soon effected a permanent cure. J. L. DOWNING, Montgomery, Ala. June 12th, 1866.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Bores, Scalds or Galls on Horses. Our men have used it for Burns, Bruises, Bore, Rheumatism, &c, and all say it acts like magic." J. W. HEWITT, Foreman for American, Wells Fargo and Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced to use your celebrated Mustang Liniment." J. J. KELLY, Gloucester, Mass. August 1, 1866.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in a shorter time, on man and beast, than any article ever discovered. Families, lawyers and planters should always have it on hand. Quick and sure if certainly is. All genuine is wrapped in steel-plated engravings, bearing a sign of W. Westbrook, Chemist, and the private U.S. stamp of Demas Barnes & Co. over the top. An effort has been made to counterfeit it with a cheap stone plate label. Look closely!

Lyon's Kathairon.

It is a most delightful Hair Dressing. It eradicates scurf and dandruff. It keeps the hair cool and clean. It makes the hair rich, soft and glossy. It prevents hair turning gray and falling off. It restores hair upon permanently bald heads. This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it. E. THOMAS LYON, Chemist, N. Y.

Lyon's Flea Powder

Lyon's Flea Powder is an instant death to Fleas, Ticks, Roaches, and everything of the insect species. It is one of the few articles that can be relied upon, and for a mere two bits we can save the bites and bills of these little pests. None is genuine unless signed by E. Lyon, and bearing the private stamp of Demas Barnes & Co., New York.

Lyon's Extract Ginger.

LYON'S EXTRACT OF PURE JAMAICA GINGER—for Indigestion, Nausea, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warm stimulant is required. Its careful preparation and entire purity make it cheap and reliable article for culinary purposes. So everywhere, at 60 cts. per bottle. Ask for "Lyon's Extract." Taken no other. Caution.—See that the private U. S. Stamp of Demas Barnes & Co., is over the cork of each bottle; none other is genuine.

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these Holloway's Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disease, and restore the normal and natural power to every organ, without inconvenience, pain or any other drawback. Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to satisfy everyone. It is a most efficacious remedy for biliousness and liver complaints and derangements of the stomach and bowels, is so long a generation of disease, or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased.

Determination of Blood to the Head.
This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to, leads to serious results. A few doses of these famous Pills never fail to give tone to the stomach, regularity to the secretions, and purity to the fluids. Vertigo, dizziness, and other indications of approaching apoplexy, are speedily dissipated by a course of this admirable medicine.

The Female's Best Friend.
For all debilitating disorders peculiar to the sex and in every country, previous to the life of women, youth, or aged, married or single, this will be speedily remedied by the use of these famous Pills. They will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.
For skin diseases, however inveterate, these medicines are a sovereign remedy. While the pills act upon the blood, which they purify, the ointment penetrates through the pores of the skin, and cleanses every structure, as water, nature's best solvent, does not penetrate meat. The whole physical machinery is thus rendered healthy, regular and vigorous.

Coughs, Colds and Asthma.
No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthma has appeared these Pills may be relied on as a certain and never failing remedy. Particularly if the chest is dry, simultaneously well rubbed into the chest and throat at night and morning.

Indigestion—Bilious Headache.
These complaints may sometimes be considered trifling, but it should be borne in mind that by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach—take Holloway's Pills, rub the celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual will be thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague, Biliousness, Constipation, Dropsy, Dysentery, Female Irregularities, Headache, Indigestion, Jaundice, Liver Complaints, Lumbago, Piles, Rheumatism, Scrofula, Skin Diseases, Stomach Complaints, Tetter, Tumor, Ulcers, Venereal Affections, Worms, &c. Sold at the Establishment of Professor HOLLOWAY, 244 Strand (near Temple Bar), London, and by all respectable Druggists and Dealers in Medicine throughout the civilized world, at the following prices:—1s. 1/6, 2s. 9d., 4s. 6d., 11s. 2s., and 8s. each Box. There is considerable saving by taking the larger size. Full directions for the guidance of patients in every disease affixed to each Box. Sold by all Dealers.
