Investment

Is something that everyone having a portion of the needful seeks to secure. The modern Midas will put his wealth into stocks or bonds or real estate; his less wealthy brother will deposit it in the Savings Bank or Building Society against the time when having hoarded sufficient a first payment may be made on a house or a lot. Now, this is all very well in its way, but why not invest a little of this money in something which appeals to the æsthetic side of life the love for the beautiful—in a word, ART, MUSICAL ART?

As an investment from this point of view, the Pland has no superior, because, aside from the pleasure derived by its owner and his friends, it always has a marketable value and in comparison with other merchandise, when used does not deteriorate in worth. Our leading instruments are the PEERLESS KNABE AND THE

FAULTLESSHARDMAN HATS Instruments without a superior in tone, touch, durability or workmanship. If, however, the buyer does not wish to invest in these instruments, why we can suit him with a choice
