LOCAL GOSSIP OF THE TURF
Racing Season Close at Hand—No Sensational Work Developed Yet—Water
Loc Taking Streng Gallops.

The racing season which is close at hand will undoubtedly be the greatest in the history of the Canadian turf and will blossom out with the O.J.C. meeting that begins at Woodbine Park on May 22. "Race Week" in Toronto is an event that is looked forward to with great interest by the fair sex as well as the horsemen, and this year promises to surpass all previous ones.

The crowds that gather at the track every morning to watch the thorough-breds at work increase day by day, but as yet nothing sensational in the way of fast work has developed worthy of notice. The horses are hardly far enough advanced to permit being "out loose," but another week will doubtless see trainers sending their charges along. From all accounts all the horses are doing nicely and Dr. Campbell's Waterloo, who was on the shelf for a few days, is once more taking strong gallops. The Doctor will shortly move his string from Slattery's to Leslieville.

The Chicago Inter-Ocean has discovered that if the Wilson bill, as amended by the Senate Committee, becomes law it will virtually prevent Canadian horses, either trotters or runners, from racing in the States. Under the present law the free list is extended to animals brought into the United.
