ONE CENT:

Late Developments in the Trial of the Hyamese Twins.

SUBSEQUENT INSURANCE RULED OUT

The Martha Wells Hyams Conspiracy Cannot be Proved.

His Lordship Repeats the Decision of Mr. Justice Street in That Particular-The Crown Introduces Some Damaging Evidence by Elevator Experts-The Fatal Hoist to Suffer Further Legal Mutilation at the Hands of the Prose-. cution's Carpenters-Details of the Testimony.

Yesterday was another of those varegated days which the Crown has been experiencing since the commencement of the second trial of the Hyams twins; as on the day before, the Crown had decidedly the worst of the struggle during the earlier portion of the day's proceedings and decidedly the better of it when the hour for adjournment was reached.

The Defence Scores a Big Point. As had been previously announced, the arguments touching upon the right of the Crown to introduce testimony, bearing upon the alleged conspiracy of the prisoners to insure the life of Mrs. Martha Wells Hyams for a sum approaching \$300,000 and then accomplish her death by foul means were taken up before the noon recess. The jury was excused and Mr. Osler and Assistant Attorney-General Cartwright argued the point more from a moral standpoint, the legal proofs of their right to introduce the evidence having been previously submitted to His Lordship, as had those of the other side. The defence were evidently satisfied with the showing they had made in this respect and offered nothing further in the way of argument. His Lordship's ruling that the evidence should not be presented to the jury was hardly in the nature of a surprise; Mr. Justice Street had already similarly ruled in an emphatic manner and the Crown had been unable to materially strengthen its plea on this occasion and apparently had relied upon the court's acceptance of its moral views for its success in the attempt.

The Twins Were Overjoyed. The prisoners were unmistakably re-lieved when the court announced its decision and they probably had every occasion to feel happier; as the evidence of this damning plot against the life of Willie Wells' sister, as it would

The story or this "subsequent insur-ance," as it is generally termed, shows that Harry and Dallas Hyams, the

diminutive twins, had attempted to in-sure Martha Wells, Harry's wife, for the sum of \$290,000 in the following

75,000 20,009 25,000 10,000

The Crown had expected to prove A Lonely Resident of Thamesville Meets

The Crown had expected to prove that the premiums on these sums were far beyond the means of the prisoners and that there could have been but one object in the insurances, and that object murder. Reasonable proof of a contemplated murder of this calibre might have had the effect on the jury, hoped for by the Crown and the re-fusal of His Lordship to admit it was a very decided victory for the defence, though it exploded for the interested spectators all hope of the sensation spectators all hope of the sensation which would naturally have accompanied the introduction of the evidence.

The Crown Gaining Lost Ground. The arguments referred to above having been disposed of, the Crown went ahead with its mechanical expert testimony, introducing witnesses who were inclined to the belief that an accident could never have occurred to destroy the life of poor Willie Ex-Senator Palmer's Residence Burned.

destroy the life of poor Willie Wells in the manner suggested in the de-fence's theories. The most important of these witnesses was Mr. Fensom an elevator manufacturer, and a gen-tleman well acquainted with the work-ings of hoists similar to that employed in the Colborne-street warehouse. Mr. Fensom had recently made a number of experiments with this particular lift Fensom had recently made a number of experiments with this particular lift and had made a special study of the weight shaft and the possibilities of an accident of the sort contended by the defence did occur, and stated most positively that it was among the im-possibilities for the weight to have be-come detached in the manner describ-ed as the case and weight were too ed, as the cage and weight were too evenly balanced to permit of any slack

in the main rope, even should an ob-struction in the weight shaft succeed in stopping the cage in its ascent or lescent. Another witness, Mr. Riches, a whole-

Another witness, Mr. Riches, a whole-sale dealer of this city, gave some tes-timony tending to show that two days subsequent to the killing he had pur-chased the entire stock of groceries, contained in the Hyamses warehouse and had found many traces of blood on the various packages as he removed them. Should it be shown that the stains were made by the blood of the dead boy. it might become a much ing present. Mr. and Mrs. Skynner will leave for their home in Brandon, stopping off at Toronto and other dead boy, it might become a much more difficult, proposition for the de-fence to prove that Willie Wells met his death at the base of the elevator shaft and altogether in an accidental Delicious to taste, "Salada" Ceylon Tea It is very exasperating and vexa-tious this waiting for breakfast be-cause the fire would not burn up. It upsets you all day. But was the cook to blow 2

manner. The Lawyers Experimenting.

Mr. Osler and Crown Attorney De-wart for the Crown, and Mr. Lount and Mr. Johnston for the defence are getting to be quite mechanical as a re-sult of their many experiments with the weights, rope and other tools formerly used in the deadly elevator, and some of them are intensely amusing some of them are intensely amusing as well as interesting. It was stated in the court room yesterday that dur-ing the morning session Mr. Osler and Witness Galt had made a number of practical experiments with the fatal weight and its hook, but the immedi-ate presence of the portly Mr. Lount and his legal confreres rendered any positive knowledge of the experiments impossible to those who were unfortu-nate enough to be seated beyond the north railing of the jury box. Witness Galt Resumes. Witness Galt Ecsumes. When court resumed for the morn-ing session, Mr. Galt again took the stand. The question of the alleged projection in the weight shaft was again entered into by Mr. Osler in re-direct examination. Mr. Galt had made a thorough examination of the weight shaft and failed to locate any projec-tion or any indicatious that one ever

shaft and failed to locate any projec-tion or any indications that one ever existed. The defence allege that a projection was sawed off by a carpen-ter working under instructions from the Hyams brothers. Mr. Galt said
