It is generally believed also in well- dent's bedside than Mrs. Harding, who, informed circles that the main object since the executive was brought here on of France is to delay the reopening of Sunday morning, has obtained little further negotiations under the belief sleep or rest. General Sawyer said that that Germany will be unable to stand Mrs. Harding was standing the strain city departments, will not bring in a the internal strain every much longer well, adding that she was of the type who is best under fire." Hundreds of telegrams are being re-

ceived from every state in the union and from many foreign countries Partisanship is forgotten and the names in the Democratic as well as the messages.

INTEREST IN BRITAIN. LONDON, July 31 .- President Hardng's illness is attracting sympathetic interest here and reports of his condition are displayed prominently by the newspapers. The Daily Chronicle in an editorial expresses the hope that there employees, but we do not consider will soon be better news from San Francisco, adding: "The office the president holds assures him the sincere nterest and regard of the British public.

the largest community in the world which speaks our own language." SEATTLE, Wash., July 31 .- Hastening to President Harding's side, Attorney-General Harry M. Daugherty passed EARLY BULLETINS.

They respect him as the chosen head of

SAN FRANCISCO, July 30 .- (Associated Press Dispatch.)-After the third consultation held since this morning of physicians attending President Harding, seriously ill here, it was an nounced that the patient's condition had become grave. The physicians declared, in a statement, that "definite central patches of bronchial-pneumonia had developed in the right lung, as indicated clinically and by the X-ray.' The development of pneumonia was the one thing which Brigadier-General Sawyer, the president's personal physician, had said less than two hours' earlier that he feared almost above all else, as a complication. The bulletin, issued at 9.10 p.m., read

as follows: "Definite central patches of bronchial-pneumonia in the right lung, as indicated clinically and by the Xray, "Nourishment is being taken regularly and the abdominal symptoms are

ess noticeable. "While his condition is grave, he is temperamentally well adapted to make stiff fight against the infection. "Pulse, temperature and respiration are about the same as shown in the previous report
