On Thursday evening of last week, Miss Carrie Dodge entertained a large party of her young friends at a Birthday Party. The charming young hostess was very efficiently assisted in receiving and entertaining her guests by her mother. It being the Lenten season, "tripping the light fantastic" was not indulged in, but music, plays and games of most kinds were furnished and no effort was spared to make it a most enjoyable evening which it indeed was. In the waning hours of evening a most dainty collation was served in the centre of the table being a beautiful birthday cake, decorated with a row of small lighted tapers, one for each year of her age (of course no one counted them). A SUCCESSFUL VALLEY FARMER

Teacher and Farmer for Twelve Years, Mr. Woodworth gave up the School-room for the Orchard.

(The Maritime Farmer.)
On the undulating slopes two miles south of the town of Berwick, Kings Co., N. S., is situated the farm of Mr. W. H. Woodworth, a man who needs no introduction to our Nova Scotia readers, for reasons which the reader may glean from other sections of this article, but whom we desire to introduce to our New Brunswick and Prince Edward Island patrons and to such of our Nova Scotia friends who have not had the pleasure of meeting Mr. Woodworth.
Mr. Woodworth was born on June 19th, 1858. His boyhood days were given to study, and on leaving school he began the active duties of life as a school teacher in 1876 at New Minas, N. S., where by precept and example he spared the luggers on the flowery path of knowledge to surmount the tangled difficulties that crossed their path. Wishing to further cultivate his knowledge on some subjects he attended the Lawrenceton High School in 1879, then under the efficient tutelage of Dr. J. B. Hall, now and for many years past literary instructor at the Provincial Normal School, Truro. Who has not been benefited by coming in contact with the tutelage of Dr. Hall? Mr. Woodworth attended the Normal School and graduated therefrom in 1880, after which he held a way as principal of the Somerset school for five years. In 1888 he bought for \$900.00 a 25 acre farm consisting mostly of pasture and a small orchard, about two miles south of Berwick, where he now resides, and on June 28th of that year he married Miss Carrie Goddard, of New York City. By rising early and working late, he followed teaching and farming for 12 years, when his health would no longer permit of the dual strain, and he turned his whole attention to the farm. In 1889 and 1890 he planted large orchards and has been making improvements in such a way that the twenty-five acre farm brought in 1888 over \$2000.00 in produce, mostly north of 8000 and annually produces 450 barrels of marketable fruit.
In 1901 J. S. Woodworth, the father of W. H. Woodworth died, leaving him a farm of 250 acres, 40 acres of which consisted of worn out hay fields that had been cropped with hay for 2 years without being plowed. On these worn out fields Mr. Woodworth planted 900 young apple trees and at the time of our visit a more thrifty, well-kept orchard could not be found in the Maritime Provinces. This farm has been brought into a very productive condition by a good three year

To Restrict Undesirable Immigration

An order-in-Council has been passed which prohibits from and after April 15th next, the landing in Canada of any person whose passage has been paid wholly or in part by any charitable organization out of public moneys unless it is shown that the authority in writing of the Assistant Superintendent of Emigration for Canada, in London has been obtained for the emigration of such person, and that such authority has been acted upon within a period of sixty days. Mr. Oliver in his report, upon which the minute of the Council is based, pointed out that a considerable number of undesirable immigrants arrived in Canada last year from the British Isles, of whom 141 were rejected and 441 deported.

(Parsons Leader Editorial.)

No one will blame the United States for adopting very drastic measures, which are now being contemplated, in respect to foreign immigration, when they witness or read of the almost daily outrages committed by lawless bands of men who do not deserve to find a home in any country. Notwithstanding all the freedom and advantages and avenues open to thrifty immigrants from the United States, which are now being contemplated, in respect to foreign immigration, when they witness or read of the almost daily outrages committed by lawless bands of men who do not deserve to find a home in any country. A Unique Wedding in Which Nova Scotians Participate

(Lynn Evening News.)
The members of Venusha division, Sons of Temperance, witnessed the most unique wedding that has ever taken place in Lynn, at their lodge room in Golden Cross Hall, on Monday evening, when two of their fellow members, William H. Smith and Miss Gessona M. Fisher, of Hyde Park, were united in matrimony.
Added interest was given to the service from the fact that Rev. Walter Noon, of Boston, grand worthy patriarch of the order, performed the ceremony.
The wedding is the culmination of one of the prettiest romances in the history of the order and its progress has been watched with a great deal of interest by the other members of the order. Less than a year ago Miss Fisher came on a visit to friends in Lynn, and while here she attended a social of the division. In the audience was Mr. Smith and his attention was attracted by the maiden with fluffy brown hair and smiling face. All through the entertainment he could hardly keep his eyes from wandering in her direction and during intermission he requested an introduction to her with the result that at the close of the entertainment, he accompanied her to her friend's house.
He requested permission to call upon her at her home in Hyde Park, and so pleasant was the call that his visits became a regular one, and at last he felt that he would decide his fate, and was accepted. The members of the division felt that as they had met at one of their meetings, that it was only right and proper that the wedding should take place there also, and last night, both of them agreeing, the ceremony was performed at Golden Cross Hall.
About 150 members of the order and friends of the couple witnessed the ceremony. Strangers of red, white and blue lent a festive appearance to the hall.
At 9.15, to the strains of Lohengrin's wedding march, played by Mrs. John S. Hackett, the couple took their places and with the colored lights upon them they were wedded. In the wedding party were represented all the three emblems of the order. First dressed in white and representing purity was Miss Mae Foster. The ribbon banners were Mrs. Maud Foster, Mrs. Lizzie Hill, Miss Goldie Brent, Miss Jessie McWhorter, Miss Elsie Bent, Miss Ellen N. Patterson, Miss Elizabeth R. Sinclair and Miss Shirlee Furbush in blue. Mrs. Emma J. Gibson in blue was fidelity, and Mrs. Carrie Hill in red was love.
The bride, charmingly gowned in white silk and carrying a bouquet of white pinks entered leaning upon the arm of her father, William H. Fisher. Henrietta R. Fisher, a sister of the bride, who looked sweet in white silk. They were met in the centre of the hall by the groom and his best man, Leroy L. Dixon and the ceremony performed.
As the conclusion of the service the guests, were presented to the happy couple by the ushers, John A. Chisholm, Walter Wentworth, H. P. Foster and Daniel Hall.
During the reception an orchestra rendered a concert program. After all the guests had been presented, a wedding supper was served in the banquet hall.
In the guest book, that was in charge of Leroy L. Dixon, the recording scribe of the division, were the names of friends from Lynn, Boston, Redville, Hyde Park and Nova Scotia.
In connection with the ceremony the following entertainment was given: Selection by Hackett's orchestra of Peabody vocal duets; Mrs. Lizzie Hill and Miss Mae Foster; piano duets, Miss Cora B. Healy and Miss Bertha Waterhouse; address, Rev. Alfred Noon; readings, Miss Elizabeth Sinclair.
The committee that made arrangements for the affair were: James M. Noyes, Leroy Dixon, H. P. Foster, Mrs. Lizzie Hill, Miss Lizzie Sinclair and Mrs. Emma Gibson.
The groom is a son of Mr. W. K. Smith of Plympton, Digby County, and a number of those participating are well-known in Bridgetown and vicinity.
A great deal of attention has been directed to a report presented to parliament by a Royal Commission and in which severe criticisms are passed upon certain departments. Doubtless these criticisms will be duly considered.

That is Shiloah's Cure Cures Coughs & Colds QUICKLY!

The bill to prevent marrying again of any person divorced by the Parliament of Canada was introduced in the Senate by a majority of one. It is time Canada appointed a divorce court or in some way relieved parliament from the divorce business.

Stosel, famous warrior and hero who was decorated with high titles by Emperor William and adorned by crowds in Paris, has been sent to the prison where he lies in disgrace for ten years. His own Emperor, in turn, has become his enemy and the Russian government planned and proposed a loan of ten hundred millions of dollars to be set aside to be devoted to the new navy during the next ten years. But many faded from the vision of the Doomsday and the war. Poor Finland is again threatened and oppressed. The territory is likely to be divided. The whole country is still in a miserably unsettled state. Over 160,000 Russians in prison and the number is still increasing.

GERMAN INDUSTRY.
The progress with which Germany promotes her industries is most exemplary. She produces more iron than Great Britain, and has four times as many employed in agriculture as Great Britain has. The Krupp firm with its manufacture of ships and guns and of arms employ 40,000 men. A few years ago 200,000 Germans sought homes in foreign lands. The number is now reduced to 20,000 a year. The Socialists continue to alarm the German Government. Much wrath is provoked at the German policy of expropriating the Poles.

A DISCOVERY.
Four thousand five hundred years before the coming of Christ is claimed to be the date of a city Bysia in Central Babylonia. Among its ruins are exposed temples that go back to this time. Step by step the explorers' claims to have reached brick of B. C. 750, a piece of gold belonging to 3750 B. C.; then a brick of 3800 B. C. and finally a brick of 4500 B. C. These discoveries will be stored away in one and another of the great Museums, and will furnish many a text for the lectures of the wise and rash speculators of the future.

THE BEST WAY.
This world is a difficult world, indeed. And people are hard to suit. And the man who plays on the violin. Is a bore to the man with a flute. And I myself have often thought How very much better 'twould be If every one of the folks I know Would only agree with me. But since they will not, then the very best way To make this world look bright Is never to mind what people say. But do what you think is right.
